About Forward Air Corporation

Forward Air Corporation operates three business segments: Forward Air, Forward Air Solutions and Total Quality.

Through our Forward Air segment, we provide time-definite surface transportation and related logistics services to the North American expedited ground freight market. Our licensed property broker utilizes qualified motor carriers, including our own, and other third-party transportation companies, to offer our customers local pick-up and delivery (Forward Air Complete®) and scheduled surface transportation of cargo as a cost-effective, reliable alternative to air transportation. We transport cargo that must be delivered at a specific time but is less time-sensitive than traditional air freight. This type of cargo is frequently referred to in the transportation industry as deferred air freight. We also offer our customers an array of logistics and other services including: expedited full truckload (TLX); dedicated fleets; warehousing; customs brokerage; and shipment consolidation, deconsolidation and handling. Also included in the Forward Air segment are the services performed by Central States Trucking Co. and Central States Logistics, Inc. ("CST"), which we acquired in 2014. CST provides intermodal drayage, devanning, transloading and warehousing services.

Forward Air Solutions ("FASI") which we formed in July 2007, provides pool distribution services throughout the Mid-Atlantic, Southeast, Midwest and Southwest continental United States. Pool distribution involves managing high-frequency, last mile handling and distribution of time-sensitive products to numerous destinations in specific geographic regions. Our primary customers for pool distribution are regional and nationwide distributors and specialty retailers, such as mall, strip mall and outlet-based retail chains.

Total Quality ("TQI"), which we acquired in March 2013, provides maximum security and temperature-controlled logistics services, primarily truckload services, to the life sciences sector (pharmaceutical and biotechnology products). In addition to core pharmaceutical services and other cold chain services, TQI provides truckload and less-than-truckload

brokerage transportation services.
