## **Forward Air Corporation To Present at 2016 Baird's Global Industrial Conference On Thursday, November 10, 2016**

GREENEVILLE, Tenn.--(BUSINESS WIRE)-- Forward Air Corporation (NASDAQ: FWRD) today announced that on Thursday, November 10, 2016, at approximately 1:00 p.m. CST, it will make a presentation at the 2016 Baird's Global Industrial Conference in Chicago, IL. Interested parties may listen to the presentation via a live Internet webcast at <http://www.wsw.com/webcast/baird47/fwr> or at the Company's website, [www.forwardair.com](http://www.forwardair.com).

### **About Forward Air Corporation**

Forward Air Corporation's ("the Company," "we," "our") services are classified into four principal reportable segments: Expedited LTL, Expedited Truckload Services ("TLX"), Intermodal and Pool Distribution.

In our Expedited LTL segment, we provide time-definite transportation services to the North American deferred air freight market. Our Expedited LTL service operates a comprehensive national network for the time-definite surface transportation of expedited ground freight. The Expedited LTL service offers customers local pick-up and delivery and scheduled surface transportation of cargo as a cost effective, reliable alternative to air transportation. Expedited LTL's other services include shipment consolidation and deconsolidation, warehousing, customs brokerage, and other handling. The Expedited LTL segment primarily provides its transportation services through a network of terminals located at or near airports in the United States and Canada.

In our TLX segment, we provide expedited truckload brokerage, dedicated fleet services and maximum security and temperature-controlled logistics services. We are able to expedite this service by utilizing a dedicated fleet of team owner operators, some team company drivers as well as third party transportation providers. The TLX segment provides full truckload service in the United States and Canada.

In our Intermodal segment, we provide container and intermodal drayage services primarily within the Midwest region of the United States. Drayage is essentially the first and last mile of the movement of an intermodal container. We are providing this service both to and from ports and rail heads. Our Intermodal segment also provides dedicated contract and Container Freight Station ("CFS") warehouse and handling services.

In our Pool Distribution segment, we provide pool distribution services throughout the Mid-Atlantic, Southeast, Midwest and Southwest continental United States. Pool Distribution involves managing high-frequency handling and distribution of time-sensitive product to numerous destinations in specific geographic regions. Our primary customers for this service

are regional and nationwide distributors and retailers, such as mall, strip mall and outlet based retail chains.
