Mount Logan Capital Inc. Announces \$10 Million Share Repurchase Program

NEW YORK, Feb. 23, 2026 (GLOBE NEWSWIRE) -- Mount Logan Capital Inc. (Nasdaq: MLCI) ("Mount Logan" or the "Company") today announced that its Board of Directors has authorized a share repurchase program of up to \$10 million of the Company's outstanding common stock through December 31, 2027. The authorization reflects the Company's continued focus on disciplined capital allocation. It follows the February 2026 completion of its \$15 million tender offer, which reduced the Company's common stock issued and outstanding by approximately 12%.

Under the newly authorized share repurchase program, repurchases may be made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions, or by other means in accordance with applicable securities laws and subject to market conditions and other factors. The size and timing of any repurchases will be determined by the Company at its discretion and will depend on factors including, but not limited to, prevailing stock prices, general economic and market conditions, along with other considerations. The program does not obligate the Company to repurchase any specific amount of common stock and may be suspended or discontinued at any time.

Ted Goldthorpe, Chief Executive Officer and Chairman of Mount Logan, said, "Over the past year, we have taken steps to optimize our capital structure and align resources across the platform. With several of these initiatives now complete, we remain focused on a clear and disciplined capital allocation strategy, balancing growth objectives with prudent risk management, alongside operational execution. With our shares trading below what we believe to be intrinsic value, we see share repurchases as an opportunity to enhance long-term shareholder returns."

The Company expects to provide additional information regarding its financial results, business outlook and capital allocation strategy when it reports fourth quarter and full year 2025 results in March 2026.
