"We are pleased with the results from our first full quarter operating as 180 Degree Capital Corp.," said Kevin M. Rendino, Chief Executive Officer. "Despite one-time net restructuring expenses of \$780,000, or \$0.025 per share, we were still able to grow NAV in the quarter. For the first time in five years, NAV grew in consecutive quarters. On the expense front, we are ahead of plan. Our quarterly run-rate of expenses is now in the range we forecasted for 2018 and is half of our historical 5-year average. It will now be far easier for us to grow our NAV. Following on our January 13D/A filing on Adesto Technologies Corporation, we continued implementing our new strategy through establishing new positions in Synacor,

Inc., TheStreet, Inc., and USA Truck, Inc. To complement our own capital, starting this quarter, we will begin the process for attempting to raise money in managed funds. We are also making progress transitioning our private portfolio to cash and publicly traded securities; Mersana Therapeutics Inc., completed an IPO during the quarter led by JP Morgan."

"This is a marathon, not a sprint. While we are pleased with our start, our work is just beginning. As I have said before, my primary goal as CEO of 180 is to substantially increase our share price. We aren't there yet, but we are on our way."

Mr. Rendino and Daniel Wolfe, the Company's President, Chief Financial Officer and Portfolio Manager, will host a conference call tomorrow, Wednesday, August 2, 2017, at 9am Eastern Time, to discuss the results from the second quarter of 2017.
