Includes Visa derivative fair value adjustments of \$2 million, \$(40) million, \$(23) million, \$(128) million and \$(116) million for the quarters ended June 30, 2025, March 31, 2025, (a) December 31, 2024, September 30, 2024 and June 30, 2024, respectively and \$(38) million and \$(123) million for the six months ended June 30, 2025 and June 30, 2024, respectively. These adjustments are primarily related to escrow funding and the extension of anticipated litigation resolution timing. Dividends are payable quarterly, other than Series S preferred stock, which is payable semiannually.

(b)

The effective income tax rates are generally lower than the statutory rate due to the relationship of pretax income to tax credits and earnings that are not subject to tax. (c)

(a) Calculated using average daily balances.

(b) Nonaccrual loans are included in loans, net of unearned income. The impact of financial derivatives used in interest rate risk management is included in the interest income/ expense and average yields/rates of the related assets and liabilities. Fair value adjustments related to hedged items are included in noninterest-earning assets and noninterestbearing liabilities. Average balances of securities are based on amortized historical cost (excluding adjustments to fair value, which are included in other assets). Average balances for certain loans and borrowed funds accounted for at fair value are included in noninterest-earning assets and noninterestbearing liabilities, with changes in fair value recorded in Noninterest income.

(c) Amounts include average balances held with the Federal Reserve Bank of \$30.8 billion, \$34.2 billion, \$37.5 billion, \$44.9 billion and \$40.7 billion for the three months ended June 30, 2025, March 31, 2025, December 31, 2024, September 30, 2024 and June 30, 2024 and \$32.5 billion and \$44.3 billion for the six months ended June 30, 2025 and June 30, 2024, respectively.

0	2.00 /0	1.70 70			2.00 /0		2.000,0

(a) Yields and rates are calculated using the applicable annualized interest income or interest expense divided by the applicable average earning assets or interest-bearing liabilities. Net interest margin is the total yield on interest-earning assets minus the total rate on interest-bearing liabilities and includes the benefit from use of noninterest-bearing sources. To provide more meaningful comparisons of net interest margins, we use net interest income on a taxable-equivalent basis in calculating average yields used in the calculation of net interest margin by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP in the Consolidated Income Statement. The taxable-equivalent adjustments to net interest income for the three months ended June 30, 2024 were \$28 million, \$30 million, \$33 million and \$34 million, respectively. The taxable-equivalent adjustments to net interest income for the six months ended June 30, 2025 and June 30, 2024 were \$56 million and \$68 million, respectively.

(b) Represents the positive effects of investing noninterest-bearing sources in interest-earning assets.

Business Segment Descriptions (Unaudited)

Retail Banking provides deposit, lending, brokerage, insurance services, investment management and cash management products and services to consumer and small business customers who are serviced through our coast-to-coast branch network, digital channels, ATMs, or through our phonebased customer contact centers. Deposit products include checking, savings and money market accounts and time deposits. Lending products include residential mortgages, home equity loans and lines of credit, auto loans, credit cards, education loans and personal and small business loans and lines of credit. The residential mortgage loans are directly originated within our branch network and nationwide, and are typically underwritten to agency and/or third-party standards, and either sold, servicing retained or held on our balance sheet. Brokerage, investment management and cash management products and services include managed, education, retirement and trust accounts.

Corporate & Institutional Banking provides lending, treasury management, capital markets and advisory products and services to mid-sized and large corporations and government and not-for-profit entities. Lending products include secured and unsecured loans, letters of credit and equipment leases. The Treasury Management business provides corporations with cash and investment management services, receivables and disbursement management services, funds transfer services and access to online/mobile information management and reporting services. Capital markets and advisory includes services and activities primarily related to merger and acquisitions advisory, equity capital markets advisory, asset-backed financing, loan syndication, securities underwriting and customer-related trading. We also provide commercial loan servicing and technology solutions for the commercial real estate finance industry. Products and services are provided nationally.

Asset Management Group provides private banking for high net worth and ultra high net worth clients and institutional asset management. The Asset Management group is composed of two operating units:

- PNC Private Bank provides products and services to emerging affluent, high net worth and ultra high net worth individuals and their families including investment and retirement planning, customized investment management, credit and cash management solutions, trust management and administration. In addition, multi-generational family planning services are also provided to ultra high net worth individuals and their families, which include estate, financial, tax, fiduciary and customized performance reporting through PNC Private Bank Hawthorn.
- Institutional Asset Management provides outsourced chief investment officer, custody, cash and fixed income client solutions and retirement plan fiduciary investment services to institutional clients including corporations, healthcare systems, insurance companies, unions, municipalities and non-profits.

(a) Our business information is presented based on our internal management reporting practices. Net interest income in business segment results reflects PNC's internal funds transfer pricing methodology. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors.

(b) See the Retail Banking and Asset Management Group tables that follow for details on reclassifications made during the second quarter of 2025 that impact both Net Income and Revenue. Prior periods have been adjusted to conform with the current presentation.

(a) See note (a) on page 13.

(b) During the second quarter of 2025, certain loans and deposits, and the associated income statement impact, were transferred from the Asset Management Group to Retail Banking to better align products and services with the appropriate business segment. Prior periods have been adjusted to conform with the current presentation.

(c) During the second quarter of 2025, brokered time deposits, and the associated income statement impact, were reclassified from Retail Banking to other activities, reflecting their use for asset and liability management. Prior periods have been adjusted to conform with the current presentation.

(d) As a result of an organizational realignment, certain expenses were reclassified as corporate operations and were moved from Retail Banking to other activities during the second quarter of 2025. Prior periods have been adjusted to conform with the current presentation.

(e) Represents expense allocations for corporate overhead services used by each business segment; primarily comprised of technology, human resources and occupancy-related allocations.

(f) Other is primarily comprised of other direct expenses including outside services and equipment expense. Amounts for the fourth quarter of 2024 also include asset impairments primarily related to technology investments.

(g) Represents mortgage loan servicing balances for third parties and the related income.

(h) Presented as of period end.

(i) Servicing fees net of impact of decrease in MSR value due to passage of time, which includes the impact from regularly scheduled loan principal payments, prepayments and loans paid off during the period.

 Reflects all branches excluding standalone mortgage offices and satellite offices (e.g., drive-ups, electronic branches and retirement centers) that provide limited products and/or services.

(k) Includes cash and money market balances.

(a) See note (a) on page 13.

(b) During the second quarter of 2025, certain loans and deposits, and the associated income statement impact, were transferred from the Asset Management Group to Retail Banking to better align products and services with the appropriate business segment. Prior periods have been adjusted to conform with the current presentation.

(c) Represents expense allocations for corporate overhead services used by each business segment; primarily comprised of technology, human resources and occupancy-related allocations.

(d) Other is primarily comprised of other direct expenses including outside services and equipment expense.

(e) Presented as of period end.

(f) Excludes brokerage account client assets.

Glossary of Terms

<u>Allowance for credit losses (ACL)</u> – A valuation account that is deducted from or added to the amortized cost basis of the related financial assets to present the net carrying value at the amount expected to be collected on the financial asset.

<u>Amortized cost basis</u> – Amount at which a financial asset is originated or acquired, adjusted for applicable accretion or amortization of premiums, discounts and net deferred fees or costs, collection of cash, charge-offs, foreign exchange and fair value hedge accounting adjustments.

<u>Basel III common equity Tier 1 (CET1) capital (Tailoring Rules)</u> – Common stock plus related surplus, net of treasury stock, plus retained earnings, less goodwill, net of associated deferred tax liabilities, less other disallowed intangibles, net of deferred tax liabilities and plus/less other adjustments. Investments in unconsolidated financial institutions, as well as mortgage servicing rights and deferred tax assets, must then be deducted to the extent such items (net of associated deferred tax liabilities) individually exceed 25% of our adjusted Basel III common equity Tier 1 capital.

Basel III common equity Tier 1 capital ratio - Common equity Tier 1 capital divided by period-end risk-weighted assets (as applicable).

<u>Basel III Tier 1 capital</u> – Common equity Tier 1 capital, plus qualifying preferred stock, plus certain trust preferred capital securities, plus certain noncontrolling interests that are held by others and plus/less other adjustments.

Basel III Tier 1 capital ratio - Tier 1 capital divided by period-end risk-weighted assets (as applicable).

<u>Basel III Total capital</u> – Tier 1 capital plus qualifying subordinated debt, plus certain trust preferred securities, plus, under the Basel III transitional rules and the standardized approach, the allowance for loan and lease losses included in Tier 2 capital and other.

Basel III Total capital ratio - Basel III Total capital divided by period-end risk-weighted assets (as applicable).

<u>Charge-off</u> – Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred from portfolio holdings to held for sale by reducing the loan carrying amount to the fair value of the loan, if fair value is less than carrying amount.

Common shareholders' equity - Total shareholders' equity less the liquidation value of preferred stock.

<u>Credit valuation adjustment</u> – Represents an adjustment to the fair value of our derivatives for our own and counterparties' non-performance risk.

<u>Criticized commercial loans</u> – Loans with potential or identified weaknesses based upon internal risk ratings that comply with the regulatory classification definitions of "special mention," "substandard" or "doubtful."

<u>Current Expected Credit Loss (CECL</u>) – Methodology for estimating the allowance for credit losses on in-scope financial assets held at amortized cost and unfunded lending related commitments which uses a combination of expected losses over a reasonable and supportable forecast period, a reversion period and long run average credit losses for their estimated contractual term.

<u>Discretionary client assets under management</u> – Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

Earning assets – Assets that generate income, which include: interest-earning deposits with banks; loans held for sale; loans; investment securities; and certain other assets.

<u>Effective duration</u> – A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and off- balance sheet positions.

Efficiency - Noninterest expense divided by total revenue.

<u>Fair value</u> – The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

<u>Fee income</u> – Refers to the following categories within Noninterest income: Asset management and brokerage, Capital markets and advisory, Card and cash management, Lending and deposit services, and Residential and commercial mortgage.

GAAP – Accounting principles generally accepted in the United States of America.

Leverage ratio - Basel III Tier 1 capital divided by average quarterly adjusted total assets.

<u>Nondiscretionary client assets under administration</u> – Assets we hold for our customers/clients in a nondiscretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Nonperforming assets – Nonperforming assets include nonperforming loans, OREO and foreclosed assets. We do not accrue interest income on assets classified as nonperforming.

<u>Nonperforming loans</u> – Loans accounted for at amortized cost whose credit quality has deteriorated to the extent that full collection of contractual principal and interest is not probable. Interest income is not recognized on nonperforming loans. Nonperforming loans exclude certain government insured or guaranteed loans for which we expect to collect substantially all principal and interest, loans held for sale and loans accounted for under the fair value option.

<u>Operating leverage</u> – The period to period dollar or percentage change in total revenue less the dollar or percentage change in noninterest expense. A positive variance indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative variance implies expense growth exceeded revenue growth (*i.e.*, negative operating leverage).

<u>Other real estate owned (OREO) and foreclosed assets</u> – Assets taken in settlement of troubled loans primarily through deed-in-lieu of foreclosure or foreclosure. Foreclosed assets include real and personal property. Certain assets that have a government-guarantee which are classified as other receivables are excluded.

<u>Risk-weighted assets</u> – Computed by the assignment of specific risk-weights (as defined by the Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

<u>Servicing rights</u> – Intangible assets or liabilities created by an obligation to service assets for others. Typical servicing rights include the right to receive a fee for collecting and forwarding payments on loans and related taxes and insurance premiums held in escrow.

Supplementary leverage ratio - Basel III Tier 1 capital divided by Supplementary leverage exposure.

<u>Tailoring Rules</u> – Rules adopted by the federal banking agencies to better tailor the application of their capital, liquidity, and enhanced prudential requirements for banking organizations to the asset size and risk profile (as measured by certain regulatory metrics) of the banking organization. Effective January 1, 2020, the agencies' capital and liquidity rules classify all BHCs with \$100 billion or more in total assets into one of four categories (Category I, Category II, Category III, and Category IV).

<u>Taxable-equivalent interest income</u> – The interest income earned on certain assets that is completely or partially exempt from federal income tax. These tax-exempt instruments typically yield lower returns than taxable investments.

<u>Unfunded lending related commitments</u> – Standby letters of credit, financial guarantees, commitments to extend credit and similar unfunded obligations that are not unilaterally, unconditionally, cancelable at PNC's option.
