# Mobile Infrastructure Announces Estimate per Share Net Asset Value

**Represents an increase of approximately 26% from prior estimate**

CINCINNATI--(BUSINESS WIRE)-- Mobile Infrastructure Corporation ("Mobile" or the "Company"), a Maryland corporation, filed a Form 8-K to announce that as of August 29, 2022 the Board of Directors of the Company unanimously established and approved an estimated net asset value (the "Estimated NAV") for the Company's common stock of \$14.76 per share on a fully diluted basis, supported by third-party independent appraisals.

The valuation underlying the Estimated NAV per share was determined as of August 1, 2022 and represents an increase of approximately 26% over the Estimated NAV established in 2021 by the Company's Board of Directors.

In consideration of the Company's fully diluted Estimated NAV, the Board recognized a few primary factors influencing the increase:

- The Company relied on third-party independent appraisals performed by CBRE, Inc. ("CBRE") to determine the market value of the parking assets.
- These valuations primarily consider current market conditions, and they reflect factors such as greater mobility of parking in and around city centers, as well as the Company's enhanced lease strategy.
- Three methodologies were relied upon by CBRE in establishing a range of values for the parking assets, which were then utilized to calculate the Estimated NAV.
- The Company has acquired six assets since the time of the last published Estimated NAV, which has both increased rental income to the Company, as well as increased the number of fully diluted shares outstanding.
- The aggregate asset value was then adjusted for the Company's total assets and total liabilities to arrive at the Estimated NAV.

The Estimated NAV should be considered a snapshot in time and is not indicative of the amount the Company or shareholders may receive if the Company were to list shares on a nationally recognized stock exchange or if individual shareholders were to sell shares. Please refer to the Company's Form 8-K filed with the SEC for additional information.

## About Mobile Infrastructure Corporation

Mobile Infrastructure is an internally-managed, publicly registered, non-listed company that invests primarily in parking lots and garages in the United States. As of June 30, 2022, it owned 45 parking facilities located in 23 separate markets throughout the United States, with a total of 15,818 parking spaces and approximately 5.5 million square feet and approximately 0.2 million square feet of retail/commercial space adjacent to its parking facilities.
