About Orgenesis

Orgenesis is a global biotech company working to unlock the full potential of cell and gene therapies (CGTs) in an affordable and accessible format. The Orgenesis Point of Care (POCare) Platform is comprised of three enabling components: a pipeline of licensed **POCare Therapeutics** that are processed and produced in closed, automated **POCare Technology** systems across a collaborative **POCare Network**. Orgenesis identifies promising new therapies and leverages its POCare Platform to provide a rapid, globally harmonized pathway for these therapies to reach and treat large numbers of patients at lowered costs through efficient, scalable, and decentralized production. The Network brings together patients, doctors, industry partners, research institutes and hospitals worldwide to achieve harmonized, regulated clinical development and production of the therapies.
