EnLink Midstream Reports Third Quarter 2015 Results

DALLAS--(BUSINESS WIRE)-- The EnLink Midstream companies, EnLink Midstream Partners, LP (NYSE: ENLK) (the Partnership) and EnLink Midstream, LLC (NYSE: ENLC) (the General Partner), today reported results for the third quarter of 2015.

Third-Quarter 2015 — EnLink Midstream Partners, LP Financial Results

The Partnership realized adjusted EBITDA of \$187.3 million and distributable cash flow of \$147.8 million in the third quarter of 2015, compared with adjusted EBITDA of \$111.4 million and distributable cash flow of \$88.8 million in the third quarter of 2014.

The Partnership's net loss from continuing operations was \$755.2 million and net cash provided by operating activities was \$215.7 million in the third quarter of 2015, compared with net income from continuing operations of \$83.5 million and net cash provided by operating activities of \$158.9 million in the third quarter of 2014. The Partnership's operating loss was \$730.5 million in the third quarter of 2015 compared with operating income of \$88.4 million in the third quarter of 2014. The net loss in the third quarter of 2015 was primarily due to a non-cash expense of \$799.2 million related to goodwill and intangible asset impairments.

The Partnership's gross operating margin was \$308.8 million in the third quarter of 2015 compared with gross operating margin of \$260.2 million in the third quarter of 2014. Adjusted EBITDA, distributable cash flow and gross operating margin are explained in greater detail under "Non-GAAP Financial Information," and reconciliations of these measures to their most directly comparable GAAP measures are included in the tables at the end of this news release.

"EnLink delivered strong results in the third quarter which demonstrates the benefits of our stable and growing platform," said Barry E. Davis, EnLink President and Chief Executive Officer. "We're operating from a position of competitive strength due to our strong investment grade balance sheet, stable cash flows from Devon and other high quality customers, and diversity of basins and services. We continue to execute on our growth strategy including the recent expansion of our footprint in the Permian Basin and remain confident in our ability to deliver strong performance and growth."

The Partnership's operating and reporting segments are based principally upon geographic regions served and consist of the following: the Texas segment, which includes natural gas gathering, processing, transmission and fractionation operations located in north Texas and west Texas; the Louisiana segment, which includes pipelines, processing plants and NGL assets located in Louisiana; the Oklahoma segment, which includes natural gas gathering and processing operations located in Oklahoma; the Crude and Condensate segment, which

previously was referred to as the Ohio River Valley segment, and which includes rail, truck, pipeline and barge facilities to deliver crude and condensate in Texas, Louisiana and the Ohio River Valley and brine disposal wells in the Ohio River Valley; and the corporate segment, which includes operating activity for intersegment eliminations and gains or losses from derivative activities.

Each business segment's contribution to the third quarter 2015 gross operating margin compared with third quarter 2014, and the factors affecting those contributions, is described below:

- The Texas segment had an increase in gross operating margin of \$0.3 million for the three months ended September 30, 2015, compared to the three months ended September 30, 2014. This increase was primarily attributable to a \$13.5 million increase from the Coronado Midstream Holdings, LLC (Coronado) acquisition in March 2015 and the Bearkat plant which commenced operations in September 2014. These increases were offset by a decrease of \$13.6 million attributable to volume declines on our North Texas processing, gathering and transmission assets.
- The Oklahoma segment had a decrease in gross operating margin of \$2.8 million for the three months ended September 30, 2015, compared to the three months ended September 30, 2014. This decrease is primarily attributable to a reduction in certain fees generated from a third party customer contract and volume declines.
- The Louisiana segment had an increase in gross operating margin of \$28.6 million for the three months ended September 30, 2015, compared to the three months ended September 30, 2014. This increase was primarily driven by the completion of the Cajun-Sibon expansion in September 2014, which resulted in an increase in gross operating margin of \$22.9 million, and the gulf coast natural gas pipelines that were acquired from Chevron, which contributed \$6.0 million of the increase. These increases were partially offset by volume and price declines in other areas of our Louisiana gas system.
- The Crude and Condensate segment had an increase in gross operating margin of \$18.3 million for the three months ended September 30, 2015, compared to the three months ended September 30, 2014. This increase is attributable to the acquisition of LPC Oil Marketing, LLC (LPC) in January 2015, which contributed \$13.5 million; the Victoria Express pipeline which commenced operations in July 2014 and contributed \$3.2 million; and the commercial start-up of the E2 compression and condensate stabilization stations during the fourth quarter of 2014 and first quarter of 2015, which contributed \$5.5 million. These increases were partially offset by a \$2.7 million decline in other crude operations related to the termination of a customer contract in June 2015 and a decrease of \$1.2 million attributable to volume declines on our Ohio River Valley assets.
- The Corporate segment had an increase in gross operating margin of \$4.2 million for the three months ended September 30, 2015, compared to the three months ended September 30, 2014. This increase was due to a gain on derivative activities.

The Partnership's third quarter 2015 operating expenses were \$105.0 million, an increase of \$25.2 million from the third quarter of 2014. General and administrative expenses for the third quarter of 2015 increased by \$10.0 million from the third quarter of 2014. Depreciation

and amortization expense for the third quarter of 2015 increased by \$23.8 million from the third quarter of 2014. These increases were primarily due to the acquisitions of LPC, Coronado and the gulf coast natural gas pipeline assets from Chevron. Net interest expense for the third quarter of 2015 increased by \$17.1 million from the third quarter of 2014 primarily due to an increase in senior notes outstanding.

Net loss per limited partner common unit for the third quarter of 2015 was \$2.32 per common unit compared with net income of \$0.18 per common unit for the third quarter of 2014.

Third Quarter 2015 — EnLink Midstream, LLC Financial Results

The General Partner reported a net loss of \$755.9 million for the third quarter of 2015 compared with net income of \$64.2 million in the third quarter of 2014. The net loss in the third quarter of 2015 was primarily due to the previously mentioned non-cash expense of \$799.2 million related to goodwill and intangible asset impairments. The General Partner's cash available for distribution was \$47.5 million in the third quarter of 2015 compared with cash available for distribution of \$61.9 million in the third quarter of 2014, and much of that year-over-year decline was due to the EnLink Midstream Holdings drop down transactions that were completed in 2015. The resulting distribution coverage ratio for the third quarter of 2015 was approximately 1.12x on the declared distribution of \$0.255 per General Partner unit. Cash available for distribution is explained in greater detail under "Non-GAAP Financial Information," and a reconciliation of this measure to its most directly comparable GAAP measure is included in the tables at the end of this news release.

EnLink Midstream to Hold Earnings Conference Call on November 4, 2015

EnLink Midstream, LLC (NYSE: ENLC) (the General Partner) and EnLink Midstream Partners, LP (NYSE: ENLK) (the Partnership) will hold a conference call to discuss third quarter financial results on Wednesday, November 4, 2015, at 9:00 a.m. Central time (10:00 a.m. Eastern time). The dial-in number for the call is 1-855-656-0924. Callers outside the United States should dial 1-412-542-4172. Participants can also preregister for the conference call by navigating to <http://dpregrister.com/10073526> where they will receive their dial-in information upon completion of their preregistration.

Interested parties can access an archived replay of the call on the Investors page of EnLink Midstream's website at www.enlink.com.

About the EnLink Midstream Companies

EnLink Midstream is a leading, integrated midstream company with a diverse geographic footprint and a strong financial foundation, delivering tailored customer solutions for sustainable growth. EnLink Midstream is publicly traded through two entities: EnLink Midstream, LLC (NYSE: ENLC), the publicly traded general partner entity, and EnLink Midstream Partners, LP (NYSE: ENLK), the master limited partnership.

EnLink Midstream's assets are located in many of North America's premier oil and gas regions, including the Barnett Shale, Permian Basin, Cana-Woodford Shale, Arkoma-Woodford Shale, Eagle Ford Shale, Haynesville Shale, Gulf Coast region, Utica Shale and Marcellus Shale. Based in Dallas, Texas, EnLink Midstream's assets include over 9,200

miles of gathering and transportation pipelines, 17 processing plants with 3.6 billion cubic feet per day of processing capacity, seven fractionators with 280,000 barrels per day of fractionation capacity, as well as barge and rail terminals, product storage facilities, purchase and marketing capabilities, brine disposal wells, an extensive crude oil trucking fleet and equity investments in certain private midstream companies.

Additional information about the EnLink companies can be found at www.enlink.com.

Non-GAAP Financial Information

This press release contains non-generally accepted accounting principle financial measures that we refer to as adjusted EBITDA, distributable cash flow, gross operating margin, maintenance capital expenditures and the General Partner's cash available for distribution. We define adjusted EBITDA as net income from continuing operations plus interest expense, provision for income taxes, depreciation and amortization expense, impairments, unit-based compensation, (gain) loss on noncash derivatives, transaction costs, distribution of equity investment and non-controlling interest and income (loss) on equity investment. We define distributable cash flow as net cash provided by operating activities plus adjusted EBITDA, net to EnLink Midstream Partners, LP, less interest expense, litigation settlement adjustment, interest rate swap proceeds, cash taxes and other, maintenance capital expenditures and the adjusted EBITDA of EnLink Midstream Holdings, LP ("Midstream Holdings" and for the period ended prior to March 7, 2014, "Predecessor"). Gross operating margin is defined as revenue minus the cost of sales. Cash available for distribution is defined as distributions due to the General Partner from the Partnership and the General Partner's interest in adjusted EBITDA of Midstream Holdings (as defined herein), less maintenance capital, the General Partner's specific general and administrative costs as a separate public reporting entity, the interest costs associated with the General Partner's debt and current taxes attributable to the General Partner's earnings.

The amounts included in the calculation of these measures are computed in accordance with generally accepted accounting principles (GAAP) with the exception of maintenance capital expenditures and the adjusted EBITDA of Midstream Holdings. Maintenance capital expenditures are capital expenditures made to replace partially or fully depreciated assets in order to maintain the existing operating capacity of the assets and to extend their useful lives. Adjusted EBITDA of Midstream Holdings is defined as Midstream Holdings' earnings plus depreciation, provisions for income taxes and distribution of equity investment less income on equity investment.

The Partnership and General Partner believe these measures are useful to investors because they may provide users of this financial information with meaningful comparisons between current results and prior-reported results and a meaningful measure of the Partnership's and the General Partner's cash flow after it has satisfied the capital and related requirements of its operations.

Gross operating margin, adjusted EBITDA, distributable cash flow, maintenance capital expenditures and cash available for distribution, as defined above, are not measures of financial performance or liquidity under GAAP. They should not be considered in isolation or as an indicator of the Partnership's and the General Partner's performance. Furthermore, they should not be seen as a substitute for metrics prepared in accordance with GAAP. Reconciliations of these measures to their most directly comparable GAAP measures are

included in the following tables.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Although these statements reflect the current views, assumptions and expectations of our management, the matters addressed herein involve certain risks and uncertainties that could cause actual activities, performance, outcomes and results to differ materially from those indicated. Such forward-looking statements include, but are not limited to, statements about future financial and operating results, projected or forecasted financial results, objectives, project timing, expectations and intentions and other statements that are not historical facts. Factors that could result in such differences or otherwise materially affect our financial condition, results of operations and cash flows include, without limitation, (a) the dependence on Devon for a substantial portion of the natural gas that we gather, process and transport, (b) our lack of asset diversification, (c) our vulnerability to having a significant portion of our operations concentrated in the Barnett Shale, (d) the amount of hydrocarbons transported in our gathering and transmission lines and the level of our processing and fractionation operations, (e) fluctuations in oil, natural gas and NGL prices, (f) construction risks in our major development projects, (g) our ability to consummate future acquisitions, successfully integrate any acquired businesses and realize any cost savings and other synergies from any acquisition, (h) changes in the availability and cost of capital, (i) competitive conditions in our industry and their impact on our ability to connect hydrocarbon supplies to our assets, (j) operating hazards, natural disasters, weather-related delays, casualty losses and other matters beyond our control, (k) a failure in our computing systems or a cyber-attack on our systems, and (l) the effects of existing and future laws and governmental regulations, including environmental and climate change requirements and other uncertainties. These and other applicable uncertainties, factors and risks are described more fully in EnLink Midstream Partners, LP's and EnLink Midstream, LLC's filings with the Securities and Exchange Commission, including EnLink Midstream Partners, LP's and EnLink Midstream, LLC's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Neither EnLink Midstream Partners, LP nor EnLink Midstream, LLC assumes any obligation to update these forward-looking statements.

Distributions declared per limited partner unit	\$ 0.390	\$ 0.370	\$ 1.155	\$ 1.095

(1) Includes financial derivatives marked-to-market, accretion expense associated with asset retirement obligations, reimbursed employee costs from Devon and LPC, and acquisition transaction costs.

(2) Represents recast E2, EMH and VEX adjusted EBITDA prior to the date of the drop down of the respective assets or interests from ENLC and Devon.

(3) Represents Predecessor's adjusted EBITDA for the period from January 1, 2014 through March 7, 2014.

(4) During the second quarter of 2015, we entered into interest rate swap arrangements to mitigate our exposure to interest rate movements prior to our note issuances. The gain on settlement of the interest rate swaps was considered excess proceeds for the note issuance, and therefore, excluded from distributable cash flow.

(5) Maintenance capital expenditures presented in the Partnership's reconciliation to distributable cash flows above include only (i) expenditures of the Partnership incurred at or after March 7, 2014 and (ii) the Partnership's interest of the expenditures of Midstream Holdings incurred at or after March 7, 2014. Maintenance capital expenditures prior to March 7, 2014 of \$4.6 million were excluded from the reconciliation to distributable cash flow because they represent the cash flows of the Predecessor which were not available for distribution. Prior to March 7, 2014 these assets were owned by Devon, and therefore, all cash flow from these assets were distributed to Devon.

(6) The actual declared distribution does not assume full quarter distributions on the Class B units in the first quarter of 2014, Class D units in the first quarter of 2015 or Class E units in the second quarter of 2015.
