QuickLogic to Exhibit at ICCAD China

Sunnyvale, CA – November 23, 2018 – QuickLogic Corporation (NASDAQ: QUIK), a developer of ultra-low power multi-core voice-enabled SoCs, embedded FPGA IP, display bridge and programmable logic solutions, will be demonstrating at the 2018 IC Design Annual conference (ICCAD 2018) at the Zhuhai International Convention & Exhibition Center in China on November 29-30, 2018.

QuickLogic will be showcasing its latest [ArcticPro™ eFPGA](#) intellectual property technology that enables semiconductor companies and OEMs to add post-manufacturing flexibility to their SoC devices, allowing them to easily add new features, create design variants, and adapt to evolving market conditions.

Date and Time: November 29 and 30 from 8:30 a.m. to 5:30 p.m.

Where: Booth 203

About QuickLogic

QuickLogic Corporation (NASDAQ: QUIK) enables OEMs to maximize battery life for highly differentiated, immersive user experiences with Smartphone, Wearable, Hearable and IoT devices. QuickLogic delivers these benefits through industry leading ultra-low power customer programmable SoC semiconductor solutions, embedded software, and algorithm solutions for always-on voice and sensor processing. The company's embedded FPGA initiative also enables SoC designers to easily implement post production changes, and increase revenue by providing hardware programmability to their end customers.
