VSE Unit Awarded Nationwide Social Security Administration Network Maintenance Subcontract

ICRC Will Provide Relocation and Installation Services for SSA LANs Across the Country - Five-Year Subcontract Represents Potential ICRC Revenues in Excess of \$1.0 Million

ALEXANDRIA, Va.--

Integrated Concepts and Research Corporation (ICRC), a wholly owned subsidiary of VSE Corporation (Nasdaq:VSEC), announced today the recent award of a subcontract to provide relocation and installation services for Local Area Networks (LANs) throughout the Social Security Administration (SSA). Under the contract, ICRC will relocate existing LANs and all related equipment when an SSA office is moved to a new location, as well as install new LANs when a new office is opened.

This nationwide contract was awarded to the team of Prism Pointe Technologies and ICRC. Prism Point will provide the SSA's approximately 1,700 offices with a 24-7 help desk and on-site technical assistance for LAN maintenance and repairs. Prism Point also will handle a small number of the LAN relocations. The contract has a one-year base and four one-year option periods.

ICRC's relocation services will include de-installing each LAN from its existing location, transporting the equipment, re-installing the LAN at the new location, and ensuring operational status. ICRC also will oversee the relocation of all associated equipment, including servers, routers, workstations, copiers, printers and fax machines. Additionally, ICRC will perform individual workstation relocations, when employees move from one office to another.

ICRC has a strong track record in enterprise IT services. For more than five years, ICRC has provided assistive technologies help desk support and equipment relocation services to SSA employees with disabilities. Additionally, the company has provided a wide range of enterprise IT solutions and services to the U.S. Corps of Engineers, including system engineering and network administration.

"We are excited about this opportunity to extend our enterprise IT support within the Social Security Administration," said ICRC President Carl Williams. "Our staff provides top-notch

technical services, and this new contract is a testament to the superior service they have provided the SSA."

ICRC is a diversified technical and management services company that serves the government market. The company's core expertise lies in information technology, advanced vehicle technology, aerospace, engineering and transportation infrastructure. ICRC combines this industry expertise with a strong track record in project management, research, testing, analysis, purchasing and implementation.
