“While it appears that market conditions will continue to be challenging through the balance of 2012, our diversification efforts have enhanced our prospects for future revenue and income,” said Maurice “Mo” Gauthier, VSE CEO. “The threat of sequestration has created uncertainty for our industry, but we are positioned to continue to provide quality services that will extend the life of aging fleets of military equipment. Also, our plan for diversification over the last several years has decreased our dependence on the Department of Defense market. The operating improvements directly result from our strong commitment to efficient program execution and sustained cost reduction throughout the Company.”

Mr. Gauthier added, “After successfully integrating our subsidiary Wheeler Bros., Inc. (“WBI”) over the past year, we are pursuing new markets for WBI’s exceptional supply chain management capabilities. We also continue to focus on our other key market areas, including legacy system sustainment, energy, IT and healthcare IT.”
