Q2 2014 Financial Highlights

- Net sales increased to \$76.9 million for Q2 2014 compared to \$67.9 million for Q2 2013. Our Q2 2014 net sales consisted of online sales, representing 91.3% of the total (compared to 91.0% in Q2 2013), and offline sales, representing 8.7% of the total (compared to 9.0% in Q2 2013). The net sales increase was primarily due to an increase of \$8.4 million, or 13.6%, in online sales. The \$8.4 million increase in online sales was driven by a \$11.2 million, or 19.3%, increase from continuing online sales channels partially offset by a reduction in online sales from websites we discontinued of \$2.7 million. The continuing sales channels growth is the result of a \$5.7 million or

12.1% increase in our continuing e-commerce sales channels and a \$5.5 million or 48.9% increase in our online marketplaces. The \$5.7 million increase in our continuing e-commerce sales channels was driven by a 14.6% increase in conversion partially offset by a 5.8% decrease in traffic and 0.9% decline in AOV. The discontinued websites resulted in a 2.5 million reduction in unique visitors in Q2 2014 compared with Q2 2013. The \$5.5 million increase in our online marketplaces was driven by a 55.6% increase in orders partially offset by a 7.2% decline in AOV.

- Gross profit increased by \$1.4 million, or 7.4%, in Q2 2014 compared to Q2 2013. Gross margin rate decreased 1.5% to 26.5% in Q2 2014 compared to 28.0% in Q2 2013 due to reduced margins from online sales and inventory write-downs associated with restructuring.
- Marketing expense was \$11.0 million, or 14.2%, of net sales in Q2 2014, down from \$11.2 million, or 16.5%, of net sales in Q2 2013. Online advertising expense, which includes catalog costs, was \$5.0 million, or 7.1%, of online sales for Q2 2014, compared to \$4.6 million, or 7.4%, of online sales for Q2 2013. The increase in online spend of 8.7% for Q2 2014 compared to Q2 2013 was due to more efficient spend across commercial and search engine websites which resulted in higher sales. Marketing expense, excluding online advertising, was \$6.0 million, or 7.8%, of net sales for Q2 2014, compared to \$6.6 million, or 9.7%, of net sales for Q2 2013. The decline was primarily due to lower depreciation and amortization expense of \$0.7 million and lower marketing overhead costs of \$0.1 million.
- General and administrative expense was \$4.6 million, or 6.0%, of net sales in Q2 2014, down from \$4.7 million, or 6.9%, of net sales in Q2 2013. The decrease of \$0.1 million, or 1.2%, for Q2 2014 compared to Q2 2013, was primarily due to lower depreciation and amortization expense.
- Fulfillment expense was \$5.4 million, or 7.0%, of net sales in Q2 2014 compared to \$5.0 million, or 7.4%, of net sales in Q2 2013. The increase of \$0.4 million was primarily due to severance costs related to the restructuring.
- Technology expense was \$1.3 million, or 1.6%, of net sales in Q2 2014, compared to \$1.3 million, or 1.9%, of net sales in Q2 2013. The decrease as a percent of net sales was primarily due to overhead falling to 0.4% of net sales in Q2 2014 from 0.7% of net sales in Q2 2013.
- Capital expenditures for Q2 2014 were \$1.5 million compared with \$2.2 million in Q2 2013.
- Cash and cash equivalents and investments were \$2.5 million and total debt under our revolver was \$0.0 million as of June 28, 2014 compared to \$1.4 million and \$0.8 million as of March 29, 2014.

Non-GAAP Financial Measures

Regulation G, "*Conditions for Use of Non-GAAP Financial Measures*" and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; (e) share-based compensation expense; and (f) restructuring costs.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measure reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as a measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; for evaluating the effectiveness of operational strategies; and for evaluating the Company's capacity to fund capital expenditures and expand its business. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Additionally, lenders or potential lenders use Adjusted EBITDA to evaluate the Company's ability to repay loans.

This non-GAAP financial measure is used in addition to and in conjunction with results

presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.
