CLEAR Partners with Samsung, Bringing CLEAR ID to Samsung Wallet

Users can now add a US passport to SamsungWallet for seamless, secure travel

NEW YORK, May 26, 2026 /PRNewswire/ -- CLEAR (NYSE: YOU), the secure identity company, today announced a partnership with Samsung Electronics America to launch Samsung ID with CLEAR. Together, Samsung and CLEAR are providing a safe, secure, and free mobile digital ID designed to simplify users' busy lives – available directly in Samsung Wallet.

Samsung ID with CLEAR is a digital ID backed by information in your US passport and verified by CLEAR, and enables travelers to verify their identity at over 250 Transportation Security Administration (TSA) checkpoints using just their phones with Samsung Wallet – allowing them to keep their physical ID in their bag. By eliminating the need to find or present a physical ID, Samsung ID with CLEAR creates a faster, more frictionless traveler experience.

Now, with the integration, U.S. passport holders can easily create and securely store a TSA-approved digital ID in Samsung Wallet for domestic travel and age verification at BMO Stadium in Los Angeles, with additional sporting arenas to come.

"CLEAR's secure identity verification platform makes experiences safer and easier – both physically and digitally," said **CLEAR CEO Caryn Seidman Becker**. "Now with CLEAR's secure identity platform embedded in Samsung Wallet, verifying your identity is easier than ever. Samsung ID with CLEAR gives you a simple, secure ID in the palm of your hand. This innovation helps travelers win the day of travel and serves as another proof point that CLEAR is *the* secure identity company."

Samsung Wallet serves as a single, secure destination for essential items such as payment cards[1], IDs, passes, digital keys, and more. With the introduction of Samsung ID with CLEAR, Samsung Wallet supports passports, travel, age 21+, and other government use cases, to support users' daily routines – no matter where they are going.

"We're thrilled to partner with CLEAR to bring CLEAR ID to SamsungWallet, making airport travel and other identity verification experiences easier and frictionless for our users," said **Woncheol Chai, EVP and Head of DigitalWallet Team, Mobile eXperience (MX) Business at Samsung Electronics**. "Samsung ID with CLEAR represents the future and remains at the forefront of digital identity. Integrating passports into Samsung Wallet demonstrates our ongoing dedication to creating technology that truly makes life easier for our users. By enabling them to leave their physical IDs in their bag and rely on secure digital identity instead, we're combining the best of convenience and security to help users get where they're going."

"BMO Stadium is proud to be among the select venues leading the adoption of mobile digital identity verification," said **Christian Lau, Chief Technology Officer at BMO Stadium**. "With Samsung ID with CLEAR, our guests can move through the venue faster and more securely – which is central to how we're building the matchday experience for today's fans and for the international audiences coming to Los Angeles in 2026."

US passports added to Samsung Wallet are verified by CLEAR's secure identity platform. Travelers will be able to verify their identities at airport security checkpoints by simply tapping their Samsung ID with CLEAR. Travelers can present the ID using a simple tap or QR scan.

Having your important travel information safely stored in SamsungWallet helps you to sail through more than 250 TSA checkpoints, and setting up your Samsung ID with CLEAR is just as simple:

- To start, you'll need a valid US passport
- Open the 'Quick Access' tab in SamsungWallet
- Click '+'
- Select 'Digital IDs'
- Then, select 'Samsung ID with CLEAR'
- Click the 'Get Card' button and follow the prompts

After verifying with Samsung ID through CLEAR, upgrading to a CLEAR+ Membership is just as simple, and can be completed directly on your phone.
