Actinium Pharmaceuticals Announces Upcoming Webinar To Discuss Iomab™-B

Panel of Luminaries to Discuss the Potential of Iomab-B to Revolutionize and Expand Bone Marrow Transplants

NEW YORK, Oct. 3, 2013 /PRNewswire/ -- Actinium Pharmaceuticals, Inc. (OTCQB: ATNM) ("Actinium" or "the Company"), a biopharmaceutical Company developing innovative targeted payload immunotherapeutics for the treatment of advanced cancers, announced today that it will be hosting an online webinar on October 15, 2013, at 11:00 AM EDT to discuss current progress with Iomab™-B. Iomab™-B has completed a Phase I/II trial in bone marrow conditioning for hematopoietic stem cell transplantation (HSCT) in relapsed and/or refractory elderly acute myeloid leukemia (AML) patients demonstrating a clear survival benefit which is potentially curative. Kaushik J. Dave, Ph.D., MBA, the Company's President and CEO will host the webinar. Maged Shenouda, a veteran biotechnology industry analyst, will act as the moderator of the webinar.

- **Participants in the discussion will include:** **Hillard Lazarus, M.D.**, Disease Team Leader, CTIS, University Hospitals Case Medical Center Director, Novel Cell Therapy, University Hospitals Case Medical Center Professor, Medicine, CWRU School of Medicine, Cleveland, OH.
- **John Pagel, M.D., Ph.D.**, Associate Member, Clinical Research Division, Fred Hutchinson Cancer Research Center, Associate Professor, Medical Oncology Division, University of Washington School of Medicine, Seattle, WA.
- **Richard Wahl, M.D.**, Professor of Radiology and Professor of Nuclear Medicine, Director, Division of Nuclear Medicine/PET, Vice Chair, Technology and New Business Development, Johns Hopkins University, Baltimore, MD.

About the Panel Discussion

- The panel will discuss the promise of Iomab-B to enable patients to receive a safer and potentially curative bone marrow transplant.
- Discussion will cover the proof of concept trial results of Iomab-B in elderly acute myeloid leukemia which showcase its potential to revolutionize and expand bone marrow transplants.
- The panelists are leading experts who have made major contributions in their area of expertise.
