Aqua Metals to Present at the 20th Annual B. Riley FBR Investor Conference

MCCARRAN, Nev., May 20, 2019 (GLOBE NEWSWIRE) -- Aqua Metals, Inc. (NASDAQ:AQMS) ("Aqua Metals" or the "Company"), which is reinventing lead recycling with its AquaRefining™ technology, today announced that Steve Cotton, President and CEO, will be participating in the 20th Annual B. Riley FBR Investor Conference on Thursday, May 23 at 3:00 PM PDT (6:00 PM EDT) being held at the Beverly Hilton Hotel, Beverly Hills, California.

Investors can access the live presentation on the Company's website at <https://ir.aquametals.com/ir-calendar>. A replay will also be available.

About Aqua Metals

Aqua Metals, Inc. (NASDAQ:AQMS) is reinventing lead recycling with its patented AquaRefining™ technology. Unlike smelting, AquaRefining is a room temperature, water-based process that emits less pollution. The modular systems are intended to allow the Company to vastly reduce environmental impact and scale lead acid recycling production capacity by licensing the AquaRefining technology to partners. This could help to meet growing demand for lead to power new applications including stop/start automobile batteries which complement the vehicle's main battery, lead acid batteries which are in electric vehicles, Internet data centers, alternative energy applications including solar, wind, and grid scale storage. Aqua Metals is based in McCarran, NV, and has built its first recycling facility in Nevada's Tahoe Reno Industrial Complex. To learn more, please visit www.aquametals.com.
