Mueller Industries, Inc. Reports Third Quarter 2025 Earnings

COLLIERVILLE, Tenn.--(BUSINESS WIRE)-- Mueller Industries, Inc. (NYSE: MLI) announces results for the third quarter of 2025. Comparisons are to the third quarter of 2024.

- Net Income of \$208.1 million versus \$168.7 million
- Operating Income of \$276.1 million versus \$206.7 million
- Net Sales of \$1.08 billion versus \$997.8 million
- Diluted EPS of \$1.88 versus \$1.48

Third Quarter Financial and Operating Highlights:

- COMEX copper averaged \$4.83 per pound during the quarter, which represents a 14.3 percent increase over the prior period.
- The quarter over quarter increase in net sales was primarily attributable to higher selling prices related to a rise in raw material costs, as well as improved sales performance in certain of our businesses.
- Earnings before taxes included an \$11.9 million gain on the sale of assets, and a \$4.9 million gain in connection with an ongoing insurance claim. These gains were offset by a \$4.8 million expense related to our withdrawal from a multiemployer pension plan, and \$2.0 million of impairment charges.
- The effective income tax rate was 26 percent compared to 23 percent in the prior year period. The annualized effective tax rate for fiscal year 2025 is expected to be consistent with the prior year rate of 25 percent.
- Net cash generated from operations was \$310.1 million.
- Our cash balance was \$1.3 billion at quarter end, and we have no debt. Our current ratio remains strong at 4.8 to 1.

Regarding the quarter performance and outlook, Greg Christopher, Mueller's CEO said, "Softness in residential construction, combined with an influx of imported products ahead of escalating tariffs, exerted downward pressure on unit volumes in several of our businesses. Amidst these challenges, our team once again delivered an excellent quarter.

Looking forward, we are highly optimistic about our business. Our plants operate most effectively when fully loaded. Given our additional capacity, we therefore expect to benefit from even greater production efficiencies when demand rebounds. As for heightened tariffs, we maintain our belief that they will ultimately benefit our business as we manufacture just a small percentage of our products overseas for importation into the U.S. market. Nonetheless, we have accelerated plans to increase our manufacturing capabilities in the U.S., onshore some of our own manufacturing and otherwise enhance our ability to respond to growing calls for domestically produced products."

He added, “We have an excellent balance sheet and solid cash generating businesses. We will continue to operate with a long-term focus, and to pursue growth and expansion opportunities with care and patience.”

Mueller Industries, Inc. (NYSE: MLI) is an industrial corporation whose holdings manufacture vital goods for important markets such as air, water, oil and gas distribution; climate comfort; food preservation; electrical transmission; medical; aerospace; and automotive. It includes a network of companies and brands throughout North America, Europe, Asia, and the Middle East.

Statements in this release that are not strictly historical may be “forward-looking” statements, which involve risks and uncertainties. These include economic and currency conditions, continued availability of raw materials and energy, market demand, pricing, competitive and technological factors, and the availability of financing, among others, as set forth in the Company’s SEC filings. The words “outlook,” “estimate,” “project,” “intend,” “expect,” “believe,” “target,” “encourage,” “anticipate,” “appear,” and similar expressions are intended to identify forward-looking statements. The reader should not place undue reliance on forward-looking statements, which speak only as of the date of this report. The Company has no obligation to publicly update or revise any forward-looking statements to reflect events after the date of this report.
