# Sunrun Brings Jobs to Connecticut With New Hartford Office

## Leading Home Solar Company Opens New Connecticut Branch; Expects to Create 40 Additional Jobs in the Community

SAN FRANCISCO, Dec. 15, 2015 (GLOBE NEWSWIRE) -- Sunrun (Nasdaq:RUN), the largest dedicated residential solar company in the United States, today announced the opening of its first branch location in Connecticut. The office, located in Hartford, will help make it easier for local homeowners to go solar and contribute to state's ambitious goal of generating 27 percent of its electricity from renewable sources by 2020.

According to the Solar Energy Industries Association, more than 147 companies work throughout the solar industry in Connecticut, employing 1,600 people. Sunrun plans to double its presence in the market to more than 80 employees, with new jobs ranging from retail marketing associates, canvassers, sales people, and project managers. The branch also includes a warehouse with managerial, installation and licensed electrician positions available.

"Sunrun is excited to expand operations in Connecticut as the state has been instrumental in growing residential solar adoption throughout New England," said Ed Steins, east coast general manager of Sunrun. "By opening an office in Hartford, we look forward to helping more homeowners lower their electricity bills with a clean energy source and bringing new employment opportunities to the community."

Sunrun first entered the Connecticut market in 2013, and is now available to homeowners throughout the entire state. The company has now helped local customers save more than $184,745 on their electricity bills.

Since 2007, Sunrun has made going solar simple for homeowners by customizing their solar system to their lifestyle and savings goals. Through its solar as a service model, Sunrun makes it simple and accessible for consumers to learn about and get solar for their home – whether online, over the phone, in retail environments or even at professional baseball games.

**About Sunrun**
Sunrun (NASDAQ:RUN) is the largest dedicated residential solar company in the United States with a mission to create a planet run by the sun. Since establishing the solar as a service model in 2007, Sunrun continues to lead the industry in providing clean energy to homeowners with little to no upfront cost and at a savings to traditional electricity. The company designs, installs, finances, insures, monitors and maintains the solar panels on a

homeowner's roof, while families receive predictable pricing for 20 years or more. For more information please visit: www.sunrun.com.

**Forward Looking Statements**

*This press release contains forward-looking statements including, but not limited to, statements regarding expansion, future hiring, future potential for a specific market and expected customer savings. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all. Forward-looking statements are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward looking statements. You should read the section entitled "Risk Factors" in Sunrun's quarterly report on Form 10-Q, which has been filed with the Securities and Exchange Commission and identifies certain of these and additional risks and uncertainties. We do not undertake any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.*
