Perma-Fix Announces Financial Results and Provides Business Update for the Fourth Quarter and Full Year 2012

Significant Government, International and Commercial Opportunities Resulting From Key Initiatives; Further Reduces Overhead and SG&A in Q1 2013 by an Additional \$4.3 million on an Annualized Basis

ATLANTA, GA -- (MARKETWIRE) -- 03/22/13 -- *Perma-Fix Environmental Services, Inc.* (NASDAQ: PESI) today announced results for the fourth quarter and full year ended December 31, 2012.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, stated, "As stated in the past, we have dramatically expanded our sales pipeline and are now bidding on a much broader scope of projects, including government, commercial and international business. We have begun to see the positive effect of these initiatives, including some initial service contracts we have been awarded, such as a task order by the U.S. Department of Energy (DOE) for technical services at the West Valley Demonstration Project; a recent award to provide technical consulting for decontamination of the Fukushima Daiichi Nuclear Power Station; and a collaboration agreement with the Pennsylvania Department of Environmental Protection for an oil and gas development radiation study related to hydraulic fracturing."

"We have also expanded our treatment capabilities and are pursuing very meaningful opportunities treating more complex and higher activity waste streams. For example, we believe we have treatment technologies and permitted facilities in place that could be utilized to rapidly and effectively address problematic waste streams, including tank waste at Hanford, Washington and other DOE sites around the country. We are especially pleased to announce our recent partnership with Kurion, Inc., to pursue deployment of Kurion's GeoMelt® In-Container Vitrification (ICV™) at our fixed facilities, which we believe will allow us to treat a variety of highly complex nuclear waste streams at Hanford and other sites that we believe currently have no other commercially available treatment and disposal options."

"As a result of these and other similar initiatives in 2012, we believe we are well positioned heading into the new year. In response to the fiscal challenges we faced in 2012, we have significantly reduced our operating expenses. During the first quarter of 2013 alone, we implemented cost savings, which we expect will reduce our overhead and SG&A by an additional \$4.3 million on an annualized basis. Although we still feel the effects of delayed government spending in the first half of 2013, we expect to achieve improved operating results and cash flow for the full year 2013. Moreover, we believe some of the current projects we are pursuing could be transformative for the company."

Financial Results

Revenue for the fourth quarter of 2012 was \$26.7 million versus \$32.8 million for the same period last year. Revenue for the Treatment Segment decreased to \$11.6 million from \$15.7 million for the same period in 2011. Revenue from the Services Segment was \$15.1 million versus \$17.1 million for the same period in 2011.

Gross profit for the fourth quarter of 2012 was \$3.3 million versus \$6.0 million for the fourth quarter of 2011 primarily due to lower revenue and revenue mix. Gross margin decreased to 12.3% from 18.4% for the same period last year primarily due to lower revenue and the impact of fixed costs on our cost of goods sold.

Operating loss for the fourth quarter of 2012 was \$1.7 million versus operating income of \$837,000 for the fourth quarter of 2011. Net loss attributable to common stockholders for the fourth quarter of 2012 was \$3.5 million, or (\$0.06) per share, versus net income of \$5.6 million or \$0.10 per share, for the same period in 2011. Net loss included a charge to deferred income tax expense of \$3.3 million, \$1.9 million of which is due to a reserve provided for an uncertain tax position and \$1.4 million was attributed to the write-off of deferred tax asset.

The Company generated Adjusted EBITDA of \$77,000 from continuing operations during the quarter ended December 31, 2012, as compared to Adjusted EBITDA of approximately \$2.5 million for the same period of 2011. The Company defines EBITDA as earnings before interest, taxes, depreciation and amortization. EBITDA and Adjusted EBITDA are not measures of performance calculated in accordance with Generally Accepted Accounting Principles in the United States ("GAAP"), and should not be considered in isolation of, or as a substitute for, earnings as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. The Company believes the presentation of EBITDA is relevant and useful by enhancing the readers' ability to understand the Company's operating performance. The Company's management utilizes EBITDA as a means to measure performance. The Company's measurements of EBITDA may not be comparable to similar titled measures reported by other companies. Due to the unique accounting for the recognition of fair market value of percentage of completion contracts resulting from the acquisition of SEC, the Company recognizes that EBITDA is an "Adjusted EBITDA" and understands these differences when measuring performance. The table below reconciles EBITDA and Adjusted EBITDA, both non-GAAP measures, to income from continuing operations for the three and twelve months ended December 31, 2012 and 2011.

(In thousands)	Quarter Ended December 31, (unaudited)		Twelve Months Ended December 31, (unaudited)

Conference Call

Perma-Fix will host a conference call at 11:00 a.m. ET on Friday, March 22, 2013. The call will be available on the Company's website at www.perma-fix.com, or by calling (877) 407-

0778 for U.S. callers, or (201) 689-8565 for international callers. A webcast will also be archived on the Company's website and a telephone replay of the call will be available approximately one hour following the call, through midnight March 29, 2013, and can be accessed by calling: (877) 660-6853 (U.S. callers) or (201) 612-7415 (international callers) and entering conference ID: 410744.

About Perma-Fix Environmental Services

Perma-Fix Environmental Services, Inc. is a nuclear services company and leading provider of nuclear and mixed waste management services. The Company's nuclear waste services include management and treatment of radioactive and mixed waste for hospitals, research labs and institutions, federal agencies, including the DOE, the Department of Defense ("DOD"), and the commercial nuclear industry. The Company's nuclear services group provides project management, waste management, environmental restoration, decontamination and decommissioning, new build construction, and radiological protection, safety and industrial hygiene capability to our clients. The Company operates four nuclear waste treatment facilities and provides nuclear services at DOE, DOD, and commercial facilities, nationwide. Please visit us on the World Wide Web at <http://www.perma-fix.com>.

This press release contains "forward-looking statements" which are based largely on the Company's expectations and are subject to various business risks and uncertainties, certain of which are beyond the Company's control. Forward-looking statements generally are identifiable by use of the words such as "believe", "expects", "intends", "anticipate", "plans to", "estimates", "projects", and similar expressions. Forward-looking statements include, but are not limited to: treatment of complex nuclear waste streams; anticipate improvement in operating results and cash flow for 2013; and current projects we are pursuing could be transformational for the Company. These forward-looking statements are intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. While the Company believes the expectations reflected in this news release are reasonable, it can give no assurance such expectations will prove to be correct. There are a variety of factors which could cause future outcomes to differ materially from those described in this release, including, without limitation, future economic conditions; industry conditions; competitive pressures; our ability to apply and market our new technologies; the government or such other party to a contract granted to us fails to abide by or comply with the contract or to deliver waste as anticipated under the contract; that Congress provides continuing funding for the DOD's and DOE's remediation projects; ability to obtain new foreign and domestic remediation contracts; and the additional factors referred to under "Special Note Regarding Forward-Looking Statements" of our 2012 Form 10-K. The Company makes no commitment to disclose any revisions to forward-looking statements, or any facts, events or circumstances after the date hereof that bear upon forward-looking statements.
