

SEACOR HOLDINGS ANNOUNCES FIRST QUARTER RESULTS

HOUSTON--([BUSINESS WIRE](#))--May 3, 2004--SEACOR Holdings Inc. (NYSE:CKH) announced a net loss for the first quarter ended March 31, 2004 of \$3.0 million, or \$0.16 per diluted share, on operating revenues of \$96.0 million. For the comparable quarter ended March 31, 2003, net earnings were \$4.3 million, or \$0.22 per diluted share, on operating revenues of \$96.9 million.

For the immediately preceding quarter ended December 31, 2003, the Company reported a net loss of \$1.7 million, or \$0.09 per diluted share, on operating revenues of \$101.0 million.

Financial results for the first quarter ended March 31, 2004 as compared to the immediately preceding quarter ended December 31, 2003 were impacted by a variety of factors highlighted below.

-- Decreased operating revenues. Operating revenues for the quarter were \$96.0 million, a decrease of \$5.0 million from the previous quarter. Offshore Marine Services revenue declined primarily due to a decrease in the size of its fleet and weaker demand for certain classes of its vessels. Inland River Services revenue declined primarily due to less activity, which is typical of the winter months when part of the inland river system is shut down. These declines were partially offset by higher Environmental Services revenue due to an increase in spill response activity.

-- Increased operating loss. Operating loss for the quarter was \$8.1 million, an increase of \$0.3 million over the prior quarter. Overall reductions in operating and administrative expenses were not sufficient to offset the decline in revenues from Inland River Services and Offshore Marine Services. Operating losses from the Company's aviation and supply chain management operations, included under "Other" in the Company's segmented financials, also increased during the quarter. Environmental Services operating income was generally unchanged between quarters.

-- Decreased income from equipment sales. Equipment sale income of \$3.6 million for the quarter decreased \$6.0 million from the prior quarter as a result of fewer vessel sales.

-- Increased income from derivative transactions. During the quarter the Company realized \$0.1 million of gains compared to a loss of \$1.5 million in the fourth quarter. Prior quarter results included a \$1.5 million loss with respect to swap agreements on certain of the Company's 7.2% notes. These swap agreements were terminated in the fourth quarter.

-- Decreased foreign currency transaction gains. Foreign currency transaction gains of \$0.5 million decreased \$3.2 million. In both periods, foreign currency transaction gains resulted primarily from the strengthening of the pound sterling currency against the U.S. dollar with respect to an intercompany loan with a foreign subsidiary.

-- Increased marketable security sale gains. Marketable security sale gains of \$2.7 million for the quarter increased \$2.0 million from the prior quarter.

-- Decreased income tax rate. Results for the fourth quarter included a \$1.9 million charge in connection with valuation allowances provided for foreign tax credits which may expire before utilization. During the first quarter, no additional valuation allowances were provided.

-- Increased equity earnings. During the quarter the Company realized equity income of \$0.6 million as compared to a loss of \$0.1 million in the prior quarter. The effect on income of improved offshore marine joint venture business activities in Mexico and Venezuela was partially offset by a \$0.5 million first quarter write-down in the carrying value of one of the Company's investments.

First quarter results included the drydock and repair of 20 vessels for an aggregate cost of \$2.9 million and the overhaul of 24 engines resulting in main engine repair costs of \$3.0 million.

During the quarter, Offshore Marine Services sold 12 vessels with a carrying value of \$2.8 million, including 9 from its "retired from service" utility fleet. During the quarter, 1 towing supply vessel and 1 geophysical vessel were added to its "retired from service" fleet. As of March 31, 2004, a total of 19 vessels were retired from service and 9 additional vessels were out of service due to weak customer demand.

During the quarter, 2 new offshore support vessels, 22 new dry cargo covered hopper barges and 1 new helicopter were delivered to the Company for aggregate consideration of \$33.0 million.

The Company's remaining capital commitments at March 31, 2004 for 7 new and 1 used vessel, 308 new dry cargo hopper barges, 24 new chemical tank barges and 3 new helicopters totaled \$128.0 million, with deliveries expected throughout 2004. The Company also holds options to purchase 150 new dry cargo hopper barges for delivery in 2005.

During the quarter, the Company acquired 99,057 shares of its common stock for treasury at an aggregate cost of \$4.1 million pursuant to a stock and debt repurchase plan. As of March 31, 2004, \$54.1 million of authority remains available for future purchases of SEACOR's stock and 5-7/8% and 7.2% notes.

At March 31, 2004, the Company's cash, marketable securities and construction reserve funds totaled \$441.5 million, an increase of \$3.4 million from the prior quarter. At March 31, 2004, the Company's long-term debt totaled \$332.2 million, unchanged as compared to the prior quarter.

SEACOR and its subsidiaries are engaged in the operation of a diversified fleet of offshore support vessels that service oil and gas exploration and development activities in the U.S. Gulf of Mexico, the North Sea, West Africa, Asia, Latin America and other international regions. Other business activities primarily include environmental services, inland river operations, and offshore aviation services.

This release includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements concerning management's expectations, strategic objectives, business prospects, anticipated economic performance and financial condition and other similar matters involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of results to differ materially from any future results, performance or achievements discussed or implied by such forward-looking statements. Such risks, uncertainties and other important factors include, among others: the cyclical nature of the oil and gas industry, adequacy of insurance coverage, currency exchange fluctuations, changes in foreign political, military and economic conditions, the ongoing need to replace aging vessels, dependence of offshore marine operations on several customers, dependence of spill response revenue on the number and size of spills and upon continuing government regulation in this area and our ability to comply with such regulation and other governmental regulation, industry fleet capacity, changes in foreign and domestic oil and gas exploration and production activity, competition, vessel-related risks, effects of adverse weather conditions and seasonality on aviation services, helicopter related risks, effects of adverse weather and river conditions and seasonality on inland river operations, the level of grain export volume, the effect of fuel prices on barge towing costs, variability in freight rates for inland river barges, changes in the Company's environmental services segment OSRO classification, liability in connection with providing spill response services, restrictions imposed by the Shipping Act of 1916 and the Merchant Marine Act of 1920 on the amount of foreign ownership of the Company's common stock, the effect of international economic and political factors in inland river operations and various other matters, many of which are beyond the Company's control and other factors. The words "estimate," "project," "intend," "believe," "plan" and similar expressions are intended to identify forward-looking statements. Forward-looking statements speak only as of the date of the document in which they are made. We disclaim any obligation or undertaking to provide any updates or revisions to any forward-looking statement to reflect any change in our expectations or any change in events, conditions or circumstances on which the forward-looking statement is based. The forward-looking statements in this release should be evaluated together with the many uncertainties that affect our businesses, particularly those mentioned under "Forward-Looking Statements" in Item 7 of our Form 10-K and SEACOR's periodic reporting on Form 10-Q and Form 8-K (if any), which we incorporate by reference.
