Platin Audio Debuts World's First Wireless Dolby Atmos Enabled WiSA Certified Speaker System

New product brings together state-of-the-art WiSA technology and the power of Dolby Atmos

SAN JOSE, Calif.--(BUSINESS WIRE)-- [Platin Audio](#) today launches the [Platin Audio Monaco 5.1.2](#) with WiSA SoundSend, the first wireless audio system to incorporate true Dolby Atmos up-firing speakers. This latest home cinema solution from Platin Audio is designed to deliver every detail of today's highly produced streaming and on-demand content and is the first fully immersive, multichannel, separates-based home theater system on the market to be WiSA HT Certified and Dolby Atmos enabled.

The combination of processing, wireless connectivity and true up-firing channels provides a truly immersive and spatial sound arena for listeners.

"We are excited to bring our newest product to market this fall as a catalyst for the home audio category," said Kevin McDonald, Senior Vice President of Marketing at Platin Audio. "The Monaco 5.1.2 takes the possibilities of home audio to the next level, truly elevating any

The new Monaco 5.1.2 system from Platin is designed as an immersive audio solution for today's content with a simple plug-and-play setup that creates theater-level experiences in the home environment. With integrated front left and right up-firing speakers, the system is uniquely engineered to the Dolby specifications for Dolby Atmos and certified by Dolby.

interior into a cinematic experience. In combining the WiSA technology with the legacy of Dolby sound, we have designed a system that creates a genuinely unmatched audio experience for the home viewer.”

Built by a team with more than 30 years of experience, Platin Audio has committed itself to being a technology leader in the category, making high-performing audio systems available at affordable prices. The Platin Audio Monaco 5.1.2 with WiSA SoundSend leverages WiSA HT's eight channels of high-definition, extremely low-latency and tightly synchronized audio to decode and properly play Dolby Atmos audio tracks.

With complete adaptability, full-bandwidth and Dolby Atmos capabilities, the new system perfectly fuses the power of Dolby with the universal connectivity of the WiSA SoundSend, the revolutionary technology of WiSA HT and the amazing performance of Platin Audio to create a simple and extremely high quality audio experience for consumers.

The system will retail for \$1,499 at select stores nationwide and online beginning in mid-October. Pre-ordering is currently available at <https://shop.platinaudio.us>.
