ExxonMobil Highlights Integrated Natural Gas Leadership at the 2011 Gastech Conference and Exhibition

AMSTERDAM--(BUSINESS WIRE)-- [ExxonMobil](#) will demonstrate its leadership across the natural gas value chain at the 2011 Gastech Conference and Exhibition, March 21 - 24 at the RAI Exhibition Center in Amsterdam. Celebrating its 25th conference, Gastech brings together leaders in the world's professional gas community to address issues impacting the industry and its future.

On Tuesday, March 22 at 9:00 a.m., Linda DuCharme, Director, Gas & Power Marketing, ExxonMobil International Limited, will present the keynote commercial address in the RAI Auditorium.

"Gastech fosters a global dialogue about the critical challenges and opportunities facing our industry," DuCharme said. "ExxonMobil is pleased to share our integrated experience and expertise in natural gas with this important audience."

Conference attendees will learn about the full range of ExxonMobil's gas and power portfolio through a variety of interactive tools at Exhibition Booth A050. Highlights include:

- Interactive touch screens demonstrating ExxonMobil's latest production technology;
- Video content highlighting ExxonMobil's Controlled Freeze Zone(TM) demonstration plant;
- Mobil1(TM) Racecar Simulator.

The exhibition also will detail the steps ExxonMobil is taking in all of its global operations to improve energy efficiency, reduce emissions and help meet increasing demand for cleaner-burning natural gas.

ExxonMobil sells approximately 14 billion cubic feet of natural gas a day to a diverse customer base, from marketers and distributors to customers such as large power plants and industrial users. The company also manages about 1 million barrels per day of natural gas liquids, has interests in about 16,000 megawatts of power generation capacity worldwide and is a leading marketer of helium.

About ExxonMobil

[ExxonMobil](#), the largest publicly traded international oil and gas company, uses technology and innovation to help meet the world's growing energy needs. ExxonMobil holds an industry-leading inventory of resources, is the largest refiner and marketer of petroleum products, and its chemical company is one of the largest in the world.
