OUR VISION

Powering the world’s businesses with the best digital data
This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements relating to the expected performance of our business, future financial results, strategy, long-term growth and overall future prospects, our customers continued investment in digital transformation and reliance on digital intelligence and the size and our ability to capitalize on our market opportunity, and statements relating to our guidance for the first quarter and full year of 2024. Forward-looking statements include all statements that are not historical facts. Such statements may be preceded by the words "intends," "may," "will," "plans," "expects," "anticipates," "projects," "predicts," "estimates," "aims," "believes," "hopes," "potential" or similar words. These forward-looking statements reflect our current views regarding our intentions, products, services, plans, expectations, strategies and prospects, which are based on information currently available to us and assumptions we have made. Actual results may differ materially from those described in such forward-looking statements and are subject to a number of known and unknown risks, uncertainties, other factors and assumptions that are beyond our control. Such risks and uncertainties include, without limitation, risks and uncertainties associated with: (i) our expectations regarding our revenue, expenses and other operating results; (ii) our ability to acquire new customers and successfully retain existing customers; (iii) our ability to increase usage of our solutions and upsell and cross-sell additional solutions; (iv) our ability to achieve or sustain profitability; (v) anticipated trends, growth rates, rising interest rates, rising global inflation and current macroeconomic conditions, and challenges in our business and in the markets in which we operate; and the impact of Israel’s war with Hamas and other terrorist organizations on geopolitical and macroeconomic conditions or our company and business; (vi) future investments in our business, our anticipated capital expenditures and our estimates regarding our capital requirements; (vii) the costs and success of our sales and marketing efforts and our ability to promote our brand; (viii) our reliance on key personnel and our ability to identify, recruit and retain skilled personnel; (ix) our ability to effectively manage our growth, including continued international expansion; (x) our reliance on certain third party platforms and sources for the collection of data necessary for our solutions; (xi) our ability to protect our intellectual property rights and any costs associated therewith; (xii) our ability to identify and complete acquisitions that complement and expand our reach and platform; (xiii) our ability to comply or remain in compliance with laws and regulations that currently apply or become applicable to our business, including in Israel, the United States, the European Union, the United Kingdom and other jurisdictions where we elect to do business; (xiv) our ability to compete effectively with existing competitors and new market entrants; and (xv) the growth rates of the markets in which we compete. These risks and uncertainties are more fully described in our filings with the Securities and Exchange Commission, including in the section entitled “Risk Factors” in our Form 20-F filed with the Securities and Exchange Commission on March 23, 2023, and subsequent reports that we file with the Securities and Exchange Commission. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, we cannot guarantee future results, levels of activity, performance, achievements, or events and circumstances reflected in the forward-looking statements will occur. Forward-looking statements represent our beliefs and assumptions only as of the date of this presentation. Except as required by law, we undertake no duty to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.

Certain information contained in this presentation relates to or is based on studies, publications, surveys and other data obtained from third-party sources and the Company's own internal estimates and research. While the Company believes these third-party sources to be reliable as of the date of this presentation, it has not independently verified, and makes no representation as to the adequacy, fairness, accuracy or completeness of any information obtained from third-party sources. In addition, all of the data and information included in this presentation involves a number of assumptions and limitations, and there can be no guarantee as to the accuracy or reliability of such assumptions.

As a reminder, certain financial measures we use in this presentation and on our call today are expressed on a non-GAAP basis. We use these non-GAAP financial measures internally to facilitate analysis of our financial and business trends and for internal planning and forecasting purposes. We believe these non-GAAP financial measures, when taken collectively, may be helpful to investors because they provide consistency and comparability with past financial performance by excluding certain items that may not be indicative of our business, results of operations, or outlook. However, non-GAAP financial measures have limitations as an analytical tool and are presented for supplemental informational purposes only. They should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Free cash flow represents net cash provided by (used in) operating activities less capital expenditures and capitalized internal-use software costs. Normalized free cash flow represents free cash flow less capital investments related to the Company’s new headquarters, payments received in connection with these capital investments and deferred payments related to business combinations. Non-GAAP operating income (loss), non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating margin, non-GAAP research and development expenses, non-GAAP sales and marketing expenses and non-GAAP general and administrative expenses represents the comparable GAAP financial figure, less share-based compensation, adjustments and payments related to business combinations, amortization of intangible assets and certain other non-recurring items, as applicable and indicated in the above tables.

In accordance with SEC regulations, you can find the definitions of these non-GAAP measures, as well as reconciliations to the most directly comparable GAAP measures in this presentation and in our earnings press release and supplemental financials, which can be found on our investor relations website at ir.similarweb.com.

This presentation is a high-level summary of our Q4 2023 financial results. For more information please refer to our press release dated February 13, 2024 and filings with the SEC. Title and full exclusive ownership rights in the information and intellectual property included or referenced herein (including the Similarweb name, logo and other marks) remain solely with Similarweb (except for third party trademarks and logos, which remain the property of their respective owners). All rights not expressly granted herein are reserved.
Introducing **Similarweb**

Powering data-driven decisions of multi-billion dollar businesses by helping them:

- **Understand market** trends and dynamics
- **Monitor competitors** and react instantly
- **Benchmark performance** to enable continuous improvement
- **Improve customer conversion rates** and loyalty
- **Discover new markets**, prospects, revenue streams
- Be among the **first to react** to change and opportunity
Similarweb by the numbers

EFFICIENT & PREDICTABLE BUSINESS MODEL

- $195M RPO with 80% to be recognized over the next 12 months
- 81% Q4 2023 gross margin
- 42% of ARR is multi-year subscriptions
- 57% of total ARR from $100K+ ARR customers

Q4 2023

- $56.8M Q4 2023 revenue
- 11% Q4 2023 YoY revenue growth
- $227M Q4 2023 Revenue Annualized (Q4 2023 Revenue * 4)
- 107% Q4 2023 Dollar-based net retention rate for $100K+ ARR customers

~952 employees & contractors in 12 offices

New York  London  Kyiv
Boston    Paris    Tokyo
Miami     Munich  Singapore
San Paulo Givatayim  Sydney

Note: We calculate our NRR as of a period end by starting with the ARR from the cohort of all customers as of 12 months prior to such period-end, or the Prior Period ARR. We then calculate the ARR from those same customers as of the current period-end, or the Current Period ARR. Current Period ARR includes any expansion and is net of contraction or attrition over the last 12 months, but excludes ARR from new customers in the current period. We then divide the Current Period ARR by the Prior Period ARR to arrive at the point-in-time NRR. We then calculate the average of the trailing four quarter point-in-time NRR to arrive at the NRR.
Similarweb is a digital data company that delivers actionable insights.

**OUR DIGITAL DATA**

Similarweb reveals what is happening online and provides businesses with the essential digital data & analytics needed to build strategy, optimize customer acquisition and increase monetization.

**OUR MISSION**

To create the most accurate, comprehensive, and actionable digital data, so every business can win their market.
We create our core data asset from ~1% of interactions and transactions on the internet.
Our proprietary **Similarweb Digital Data** covers extensive web and mobile activity activity.

5. ResearchAndMarkets, Statista (current)
6. Research And Markets (current)
Consistent revenue growth

Our large addressable opportunity and efficient business model have led to growing revenue sequentially and year-over-year.
Our dollar-based net retention rate (NRR) historically reflects increased usage and the purchase of more than one solution by customers. Recently, our customers have become more budget constrained. In our largest and most strategic customer segment, customers that generate over $100K in ARR, our ability to retain and grow our business consistently exceeds our NRR for all customers.

Note: We calculate our NRR as of a period end by starting with the ARR from the cohort of all customers as of 12 months prior to such period-end, or the Prior Period ARR. We then calculate the ARR from these same customers as of the current period-end, or the Current Period ARR. Current Period ARR includes any expansion and is net of contraction or attrition over the last 12 months, but excludes ARR from new customers in the current period. We then divide the Current Period ARR by the Prior Period ARR to arrive at the point-in-time NRR. We then calculate the average of the trailing four quarter point-in-time NRR to arrive at the NRR.
Continued progress in customer growth

As we strengthen our value proposition and expand our platform, new customer acquisition is occurring more at entry level pricing and packaging. Our slight YoY decrease in annual revenue per customer in Q4 23 also reflects how existing customers are increasing budget constraints that impact upsells and downsells.

Note: We define ARR as the annualized subscription revenue we would contractually expect to receive from customers assuming no increases or reductions in their subscriptions.
Evolution of our revenue base over time

Note: We define ARR as the annualized subscription revenue we would contractually expect to receive from customers assuming no increases or reductions in their subscriptions.
Attractive sales efficiency and CAC payback metrics historically

Implied
~55% to 60% contribution margin\(^1\) for existing customers

\(\text{S&M SPEND}\)

Customer retention
~45% to 50%

Customer acquisition
~50% to 55%

Historically implied
15–16 month payback\(^2\) for CAC
currently
19–20 months

\(^1\) Calculated as (TTM 12/31/2023 non-GAAP gross profit – 45% to 50% of TTM 12/31/2023 non-GAAP S&M) / TTM 12/31/2023 Revenue

\(^2\) Calculated as 12 / ((TTM 12/31/2023 non-GAAP gross profit – TTM 12/31/2022 non-GAAP gross profit) / (sum of TTM non-GAAP S&M from Q4 2022 through Q3 2023) * 50% to 55%).

* Non-GAAP financial measures, see Appendix

In accordance with SEC regulations, you can find the definitions of these non-GAAP measures, as well as reconciliations to the most directly comparable GAAP measures in this presentation and in our earnings press release and supplemental financials, which can be found on our investor relations website at ir.similarweb.com.
The Company does not provide guidance for operating loss and gross margin, the most directly comparable GAAP measures to non-GAAP operating loss and non-GAAP gross margin, respectively, and similarly cannot provide a reconciliation to these measures to their closest GAAP equivalents without unreasonable effort due to the unavailability of reliable estimates for certain items. These items are not within the Company’s control and may vary greatly between periods and could significantly impact future financial results.
