Sunbelt Rentals Launches New Mobile App to Simplify Rental Experience

Available at the App Store and Google Play

FORT MILL, S.C.--(BUSINESS WIRE)-- [Sunbelt Rentals](#), North America's premier equipment rental company, has announced the availability of a new mobile app. The Sunbelt Rentals Mobile App allows customers to manage all aspects of their rental experience and is available at the Apple App Store and Google Play.

"We're excited to offer this new app for our customers," said Bryan Gassler, vice president of

eCommerce, Sunbelt Rentals. "We're committed to improving our customers' rental experience, and we listened to our customers' inputs as we designed and built this app. Now all aspects of the tool and equipment rental life cycle can be managed right at the fingertips of our customers, helping them save time and gain more transparency into their daily operations."

The Sunbelt Rentals Mobile App offers easy equipment rental via a multi-search functionality, making it simple for customers to find, rent and manage equipment. For added convenience, customers can create a reservation and select the delivery date and time or rent online and pick up at the Sunbelt Rentals location nearest to them. They can also see product specs and view frequently rented items to rent again. Easy-to-access contract details and the ability to organize contracts by projects or save, search and filter items by date or contract number add to the flexibility of the app.

Customers can build a project-specific dashboard to monitor upcoming deliveries or in-store pickups and to see when rental periods are ending. To provide further operational support, the Sunbelt Rentals Mobile App offers direct access to view and download invoices, make partial or multiple payments and pay by credit card.

Other important features include:

- **Efficient job site management:** Customers can use the app to create and manage a project, view project lists and details, and search, filter or sort projects.
- **Communication tools:** The app offers the choice to opt into emails, text messages and push notifications for equipment and project management needs.

- **Accurate and transparent pricing information:** Customers can see costs and fees early in the reservation process.

The new Sunbelt Rentals mobile app is available in phone and tablet versions and can be downloaded from the Apple App Store and Google Play.

About Sunbelt Rentals

We MAKE IT HAPPEN! With a passionate team of 17,000 rental experts, a growing network of more than 1,050 locations, and an extensive equipment fleet that exceeds \$11 billion, Sunbelt Rentals helps professionals and do-it-yourselfers get things done.
