# Standard Lithium Reports Fiscal First Quarter 2025 Results

VANCOUVER, British Columbia, May 09, 2025 (GLOBE NEWSWIRE) -- **Standard Lithium Ltd.** ("Standard Lithium" or the "Company") (TSXV:SLI) (NYSE American:SLI), a leading near-commercial lithium company, today announced its financial and operating results for the three month fiscal period ended March 31, 2025.

*"2025 will be a pivotal year for us, marked by several key milestones that will shape the future of Standard Lithium, our joint venture, and impact the industry as a whole," said David Park, Chief Executive Officer and Director of Standard Lithium. "We started with a strong first quarter by finalizing our \$225 million grant from the US Department of Energy, advancing our subsurface understanding through extensive reservoir testing, completing the derisking of our DLE technology with a final pilot field test at South West Arkansas, and continuing to expand our leasehold footprint in East Texas. Together with our South West Arkansas project's recent designation as a priority transparency critical mineral project by the Trump administration and the approval of our first brine production unit, these achievements reinforce our conviction that our projects in the Smackover will deliver significant value to our shareholders, the communities that we work in, and will help secure critical mineral production in the United States. While much remains to be done ahead of a final investment decision at SWA, as well as further advancing East Texas, we are energized by the momentum we have built and we are focused on our next project development milestones."*

## Highlights Subsequent to the Three Month Fiscal Period Ended March 31, 2025

All amounts are in US dollars unless otherwise indicated.

- **Smackover Lithium's South West Arkansas Project receives special designation.** [Smackover Lithium announced](#) that its South West Arkansas ("SWA") Project had been selected as one of the first critical mineral production projects to be advanced under Executive Order 14241 – Immediate Measures to Increase American Mineral Production, announced by the U.S. Federal Permitting Improvement Steering Council at the recommendation of the National Energy Dominance Council.
- **Approval of brine production unit for Phase I of the SWA Project.** On April 24, Smackover Lithium announced the brine production unit, formally named the Reynolds Unit, for Phase I of its SWA Project was [unanimously approved](#) by the Arkansas Oil and Gas Commission with no objections or opposition in a hearing that was open to all stakeholders from the community. Approval of the unit was a necessary statutory requirement as Smackover Lithium seeks to establish a royalty rate for the unit by the end of the second quarter.
- **Submission of royalty application to the Arkansas Oil and Gas Commission for the SWA Project.** On May 6, Smackover Lithium announced that SWA Lithium LLC had [submitted a royalty application](#) to the Arkansas Oil and Gas Commission to establish a lithium royalty for the Reynolds Unit for Phase I of its SWA Project.

## Highlights From Three Month Fiscal Period Ended March 31, 2025

- **Finalized \$225 million grant from the U.S. Department of Energy (“DOE”) for the South West Arkansas Project.** [The grant](#) will support construction of Phase 1 of the SWA Project. The SWA Project is expected to be one of the world’s first commercial-scale Direct Lithium Extraction (“DLE”) facilities.
- **Undertook extensive field and reservoir testing program at the SWA Project.** Completed drilling of new well and multiple well re-entries into the Smackover Formation to [conduct detailed reservoir testing](#) and brine sampling work to further support front end engineering design and definitive feasibility studies.
- **Completed final test of field-pilot plant at the SWA Project.** In partnership with Koch Technology Solutions, [successfully operated a field-pilot plant](#) at the SWA Project as the final DLE derisking step prior to commercialization. Lithium recovery far exceeded design criteria, with over 99% recovery from brine sourced from the project’s International Paper Company well.
- **Launch of Smackover Lithium.** On January 29, 2025, at a community townhall in Stamps, AR, the Company and Equinor [announced Smackover Lithium](#) as the new name for their joint venture developing DLE projects in Southwest Arkansas and East Texas.
- **Continued strategic additions to board of directors.** The Company announced on March 19, 2025 the [appointment of Karen G. Narwold](#), as an independent member of its board of directors.
- **Provided corporate update demonstrating continuous advancement and derisking of corporate objectives.** [Announcement made on March 26, 2025](#) provided highlights on certain developmental project milestones for the Smackover Lithium joint venture as well as updates on the Company’s progress at its demonstration plant and on the Lanxess Projects.
- Cash and working capital of \$31.6 million and \$31.3 million, respectively, as of March 31, 2025.
- The Company has no term or revolving debt obligations as of March 31, 2025.

## **About Standard Lithium Ltd.**

Standard Lithium is a leading near-commercial lithium development company focused on the sustainable development of a portfolio of large, high-grade lithium-brine properties in the United States. The Company prioritizes projects characterized by the highest quality resources, robust infrastructure, skilled labor, and streamlined permitting. Standard Lithium aims to achieve sustainable, commercial-scale lithium production via the application of a scalable and fully integrated DLE and purification process. The Company's flagship projects are located in the Smackover Formation, a world-class lithium brine asset, focused in Arkansas and Texas. In partnership with global energy leader Equinor, Standard Lithium is advancing the South West Arkansas project, a greenfield project located in southern Arkansas, and actively exploring promising lithium brine prospects in East Texas. Standard Lithium also holds an interest in certain mineral leases in the Mojave Desert in San Bernardino County, California.

Standard Lithium trades on both the TSX Venture Exchange and the NYSE American under the symbol "SLI". Please visit the Company's website at [www.standardlithium.com](http://www.standardlithium.com).
