Key Performance Metric and Non-GAAP Financial Measures

Annualized Renewal Run-rate (ARR) is a key performance metric we use in managing our business because it illustrates our ability to acquire new subscription customers and to maintain and expand our relationships with existing subscription customers. We define ARR as annualized invoiced amounts per solution SKU from subscription licenses and maintenance and support obligations assuming no increases or reductions in customers' subscriptions. ARR does not include the costs we may incur to obtain such subscription licenses or provide such maintenance and support. ARR also does not reflect nonrecurring rebates payable to partners (upon establshing sufficient history of their nonrecurring nature), the impact of nonrecurring incentives (such as one-time discounts provided under sales promotional programs), and any actual or anticipated reductions in invoiced value due to contract non-renewals or service cancellations other than for certain reserves (for example those for credit losses or disputed amounts). ARR does not include invoiced amounts associated with perpetual licenses or professional services. ARR is not a forecast of future revenue, which is impacted by contract start and end dates and duration. ARR should be viewed independently of revenue and deferred revenue as ARR is an operating metric and is not intended to replace these items.

Investors should not place undue reliance on ARR as an indicator of future or expected results. Our presentation of ARR may differ from similarly titled metrics presented by other companies and therefore comparability may be limited.

This supplemental information includes financial measures defined as non-GAAP financial measures by the SEC, including non-GAAP cost of revenue, non-GAAP gross profit and margin, non-GAAP operating expenses, non-GAAP operating income (loss) and margin, and non-GAAP net income (loss) and non-GAAP net income (loss) per share. These non-GAAP financial measures exclude:

stock-based compensation expense;
amortization of acquired intangibles;
u
restructuring costs;
charitable donation of Class A common stock;
change in fair value of contingent consideration; and
in the case of non-GAAP net income (loss), release of valuation allowance on deferred tax assets and tax adjustments associated with the add-back items, as applicable.

Additionally, this supplemental information presents non-GAAP adjusted free cash flow, which includes purchases of property and equipment and capitalization of software development costs, and excludes cash paid for employer payroll taxes related to employee equity transactions, net payments/receipts of employee tax withholdings on stock option exercises, and cash paid for restructuring costs.

UiPath uses these non-GAAP financial measures internally in analyzing its financial results and believes they are useful to investors, as a supplement to GAAP measures, in evaluating UiPath’s ongoing operational performance. UiPath believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing its financial results with other companies in UiPath’s industry, many of which present similar non-GAAP financial measures to investors. Non-GAAP financial measures are financial measures that are derived from the consolidated financial statements, but that are not presented in accordance with generally accepted accounting principles in the United States (GAAP). We believe these non-GAAP financial measures provide investors with useful supplementary information in evaluating our performance. Investors should consider these non-GAAP financial measures in addition to, and not as a substitute for, our financial performance measures prepared in accordance with GAAP. Further, our non-GAAP information may be different from the non-GAAP information provided by other companies. The information herein provides a reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures. We encourage investors to consider our GAAP results alongside our supplemental non-GAAP measures, and to review the reconciliation between GAAP results and non-GAAP measures.
