Reporting Period Highlights – First Quarter 2007

Financial Results

- Reported Net Income Available to Common Shareholders of \$1,554,000, or \$.03 per diluted share, for the first quarter of 2007 as compared to \$6,283,000, or \$.15 per diluted share, for the comparable 2006 period, representing a decrease of 80.0% per share. Included in our first quarter 2007 net income is a \$7.9 million increase in our depreciation and amortization associated with real estate operations, as compared to the first quarter of 2006, contributing to a significant drop in our earnings per share. Our acquisition of the Nottingham portfolio described below generated depreciation and amortization of \$6.3 million, the primary driver of our \$7.9 million increase.
- Reported FFO diluted of \$28,288,000, or \$.51 per share/unit, for the first quarter of 2007 as compared to \$24,350,000, or \$.49 per share/unit, for the comparable 2006 period, representing an increase of 4.1% per share/unit.
- Reported AFFO diluted of \$22,065,000 for the first quarter of 2007 as compared to \$18,865,000 for the comparable 2006 period, representing an increase of 17.0%.
- Our FFO payout ratio was 60.4% for the first quarter of 2007 as compared to 56.0% for the comparable 2006 period. Our AFFO payout ratio was 77.4% for the first quarter of 2007 as compared to 72.3% for the comparable 2006 period.

Acquisitions

• On January 9 and 10, 2007, we acquired 56 operating properties, containing approximately 2.4 million square feet, and 187 acres of land in the submarkets of White Marsh, Columbia, BWI, Towson and Hunt Valley, Maryland, for \$362.5 million, plus approximately \$1.4 million in transaction costs (collectively, the "Nottingham portfolio"). The 187 acres are developable into a minimum of two million square feet. The total acquisition price was funded through \$182.4 million in debt and cash, with the seller receiving \$154.9 million in the form of common shares issued at a deemed value of \$49.00 per share and \$26.6 million in Series K convertible preferred shares. Dividends on these Series K convertible preferred shares will accrue at the annual dividend rate of \$2.80 per share, which is equal to 5.6% of the \$50.00 per share liquidation preference on the preferred shares.

Financing Activity and Capital Transactions

• We assumed \$38.0 million of indebtedness with an average fixed interest rate of 6.03% and an average term of 8.5 years, in connection with our Nottingham portfolio acquisition.

- Additionally, we closed on an \$89.1 million variable rate loan which matures in June 2007 and bears interest based on a leverage grid.
- As of March 31, 2007, our ratio of debt to market capitalization was 38.5%, and our ratio of debt to undepreciated book value of real estate assets was 60.3%. We achieved an EBITDA interest coverage ratio of 2.66x and an EBITDA fixed charge coverage ratio of 2.21x for this quarter.

Development

• In the first quarter, we executed leases for approximately 17,000 square feet of development space located within our Baltimore/Washington Corridor region.

Operations

- Our wholly owned portfolio was 93.0% occupied and 93.7% leased as of March 31, 2007. Our entire portfolio was 92.8% occupied and 93.5% leased as of March 31, 2007.
- Our same office property cash NOI for the quarter ended March 31, 2007 increased by 2.4%, or \$1.1 million, as compared to the quarter ended March 31, 2006. Our same office property cash NOI was positively impacted by an increase of \$.5 million in termination fees and improved occupancy which were partially offset by an increase in unrecoverable costs. Our same office portfolio consists of 157 properties and represents 75.7% of our wholly owned portfolio as of March 31, 2007.
- The weighted average lease term of our wholly owned portfolio is 4.8 years as of March 31, 2007, with an average contractual rental rate (including tenant reimbursements of operating costs) of \$20.93 per square foot.
- We renewed 570,771 square feet, or 72.13%, of our expiring office leases (based upon square footage) with an average committed cost of \$7.98 per square foot during the first quarter. For our renewed space only, we realized an increase in total rent of 10.14%, as measured from the GAAP straight-line rent in effect preceding the renewal date, and an increase of 3.14% in total cash rent. For our renewed and retenanted space of 780,392 square feet, we realized an increase in total rent of 7.41%, as measured from the GAAP straight-line rent in effect preceding the renewal date, and an increase of 1.09% in total cash rent. We incurred an average committed cost of \$10.06 per square foot for our renewed and retenanted space in the first quarter.
- We recognized \$1.7 million in lease termination fees, net of write-offs of related straight-line rents and the write off of previously unamortized deferred market revenue (SFAS 141 revenues) in the quarter ended March 31, 2007, as compared to \$348,000 in the quarter ended March 31, 2006.

Subsequent Events

• On April 6, 2007, we purchased, for \$14.0 million, the remaining 50% interest in a joint venture which holds title to 132 acres which can support future development of 1.75 million square feet of office space in Colorado Springs, Colorado. In connection with this transaction, we issued 262,165 common units valued at \$47.68 per share for total consideration of \$12.5 million.

Forward-Looking Statements

This supplemental information contains "forward-looking" statements, as defined in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that are based on our current expectations, estimates and projections about future events and financial trends affecting us. Forward-looking statements can be identified by the use of words such as "may," "will," "should," "expect," "estimate" or other comparable terminology. Forward-looking statements are inherently subject to risks and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Accordingly, we can give no assurance that these expectations, estimates and projections will be achieved. Future events and actual results may differ materially from those discussed in the forward-looking statements.

Important factors that may affect these expectations, estimates, and projections include, but are not limited to:

- our ability to borrow on favorable terms;
- general economic and business conditions, which will, among other things, affect office property demand and rents, tenant creditworthiness, interest rates and financing availability;
- adverse changes in the real estate markets including, among other things, increased competition with other companies;
- risk of real estate acquisition and development, including, among other things, risks that
 development projects may not be completed on schedule, that tenants may not take
 occupancy or pay rent or that development or operating costs may be greater than
 anticipated;
- risks of investing through joint venture structures, including risks that our joint venture partners may not fulfill their financial obligations as investors or may take actions that are inconsistent with our objectives;
- our ability to satisfy and operate effectively under federal income tax rules relating to real estate investment trusts and partnerships;
- governmental actions and initiatives; and
- environmental requirements.

We undertake no obligation to update or supplement any forward-looking statements. For further information, please refer to our filings with the Securities and Exchange Commission, particularly the section entitled "Risk Factors" in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2006.
