ENVIRONMENTAL POLICY

At Sirius XM Holdings Inc. (“Sirius-XM”), we recognize our role to help preserve the environment for present and future generations. SiriusXM is committed to protecting natural resources, establishing business practices that comply with all applicable environmental law and regulations, and evaluating action to minimize or eliminate any negative environmental impacts from our business activities.

As a responsible corporate citizen, we – including our employees and contractors – conduct our business with the following principles in mind:

- We are committed to minimize negative environmental impacts associated with our operations and activities, while striving for positive impact.
- We consider the environmental impact of our services, and are committed to integrating sound environmental practices into our business operations.
- We are committed to reducing the emissions and increasing the energy efficiency of our operations, including through the responsible utilization of renewable energy.
- We are committed to reducing waste, conserving resources and recycling materials as part of the delivery of our services.
- We aim to measure and monitor our environmental performance, including our emissions, waste, and use of resources, and achieve continual environmental improvement throughout our operations.
- We are committed to raise environmental awareness among our employees, as well as within our supply chain and among our other suppliers.
- We are committed to do SiriusXM’s part to minimize the company’s impact on climate change.

This Policy applies to all employees and contractors of SiriusXM. Regular reporting on SiriusXM’s environmental performance is provided to SiriusXM’s Board of Directors to assist their oversight of our environmental practices and strategy.
