(L-R) North Carolina Department of Commerce Chief Deputy Secretary Kenny Flowers, Ralliant CEO Tami Newcombe, City of Raleigh Mayor Janet Cowell, and Wake County Commissioner Donald K. Mial in Raleigh, NC on Thursday March 5, 2026, for Ralliant's global headquarters ribbon cutting.

Located in the North Hills area, the new headquarters places Ralliant at the center of one of the nation's

leading technology and research ecosystems. Raleigh also provides direct access to a highly educated and skilled workforce aligned with Ralliant's engineering, technical, and enterprise leadership needs.

"Opening our global headquarters in Raleigh is a strategic step in building Ralliant as a premier precision technology company," said Tami Newcombe, Chief Executive Officer of Ralliant. "This region offers access to world-class universities, research institutions, and technology partners that help us innovate faster and deliver greater impact for customers in the critical industries we serve."

Ralliant delivers instruments, sensors, and safety systems used in applications where accuracy, reliability, and safety are essential. The Company powers some of the world's most mission-critical systems across utilities, defense, semiconductors, diversified electronics, food sciences, healthcare, consumer technology, and industrial manufacturing.

The opening was marked by a ribbon-cutting ceremony attended by employees, local officials, and community partners, including Raleigh Mayor Janet Cowell, Wake County Commissioner, Donald K. Mial, and Kyle Touchstone, Director of Raleigh Economic Development.

"We're thrilled to welcome Ralliant to the Raleigh community, where I know they will be a strong partner in innovation and the growth of our technology corridor," said Raleigh Mayor Janet Cowell. "I'm excited that the first economic development project I worked on as mayor came to fruition, and I can't wait to see what future opportunities arise from our new neighbor."

The Raleigh headquarters currently employs approximately 150 team members and will serve as the Company's strategic and operational hub. The new site builds on Ralliant's longstanding presence in North Carolina, including its Elizabethtown manufacturing facility, which employs approximately 300 full-time team members.

“We’re excited that Ralliant Corporation is officially opening its global headquarters in Wake County – the place where leading technology and life sciences companies from around the world want to be,” said Chair Don Mial of the Wake County Board of Commissioners. “Our highly skilled workforce is qualified and ready to fill the exceptional jobs that Ralliant is bringing to our community.”

ABOUT RALLIANT

Ralliant is a global provider of precision technologies that specializes in designing, developing, manufacturing and servicing precision instruments and highly engineered products. Ralliant’s two strategic reporting segments — Test & Measurement and Sensors & Safety Systems — include well-known brands with leading positions in their markets. The Company’s businesses empower engineers with precision technologies essential for breakthrough innovation that brings advanced technologies to the market faster and more efficiently. With over 150 years of operating experience and enduring customer trust, we are known for delivering innovative, high-quality products with the precision that mission-critical systems demand. Ralliant is headquartered in Raleigh, North Carolina, and employs a team of approximately 7,000 research and development, manufacturing, sales, distribution, service and administrative employees. The Company’s global footprint enables a unique ‘engineer to engineer’ approach, which allows it to build enduring trust, credibility, and partnerships with customers across both Fortune 1000 companies and next generation start-up enterprises. With a culture rooted in continuous improvement, the core of the Company’s operating model is the Ralliant Business System. For more information please visit: www.ralliant.com.
