

NEXGEL Reports Second Quarter 2022 Financial Results

Second guarter 2022 revenue increased 35% YoY and 42% sequentially to \$561 Thousand

Company sees growth in its branded consumer products and launches MEDAGEL Pro Pads

LANGHORNE, Pa., Aug. 10, 2022 (GLOBE NEWSWIRE) -- NEXGEL, Inc. ("NEXGEL" or the "Company") (NASDAQ: "NXGL"), a leading provider of ultra-gentle, high-water-content hydrogel products for healthcare and consumer applications, today announced its financial results for the second quarter ended June 30, 2022.

Adam Levy, NEXGEL Chief Executive Officer, commented, "During the second quarter of 2022, we successfully continued to grow revenue year-over-year. I am particularly pleased with our ability to generate positive gross profit during the quarter and, from an operating perspective, we increased our investment in R&D for the long-term growth opportunities of the business. Our growth is attributable to our branded products and contract manufacturing segments. Within the branded product segment, we are focused on expanding our hydrogel line and recently introduced our 11th product in July, MEDAGEL Pro Pads. We also saw increased demand within our contract manufacturing business, which continues to advance as a result of sustained use in our customers' line extensions. We are moving forward with our plan to advance NEXDrape, our first potential medical device product, and expect clinical data before the end of the year. As of June 30, 2022, we had \$9.7 million of cash and cash equivalents, including our investment in treasuries of \$5.4 million, which we believe provides us with a very comfortable balance sheet to continue our planned year-over-year growth the foreseeable future and invest in the business."

Second Quarter 2022 Financial Highlights

Revenue for the three months ended June 30, 2022 was \$561 thousand, an increase of 35%, when compared to \$417 thousand for the three months ended June 30, 2021, and a sequential increase of 42% as compared to \$396 thousand for the first quarter ended March 30, 2022. The increase in our overall revenue was due to sales growth of new products as well as our initiatives in branded consumer products.

Gross profit was \$101 thousand, yielding a 18% gross profit margin, for the three months ended June 30, 2022, as compared to a gross profit of \$4 thousand for the three months ended June 30, 2021.

Cost of revenues was \$460 thousand for the three months ended June 30, 2022, as compared to \$413 thousand for the three months ended June 30, 2021. The increase in cost of revenues is primarily aligned with the increase in revenues in the current year.

Operating expenses, including R&D and SG&A expenses, increased by \$262 thousand to \$819 thousand for the three months ended June 30, 2022, as compared to \$557 thousand

for the three months June 30, 2021. During the quarter R&D totaled \$111 thousand as compared to \$10 thousand during the second quarter of 2021 and \$24 thousand during the first quarter of 2022. The increase in SG&A expenses is primarily attributable to increases in compensation and benefits and costs for professional fees and other administrative expenses associated with public company governance requirements.

As of June 30, 2022, NEXGEL had \$9.7 million of cash and cash equivalents, which includes an investment in treasuries of \$5.4 million.

Second Quarter 2022 Operational Highlights

<u>Launched MEDAGEL Hydroliner Pro Pads</u>. The MEDAGEL Pro Pads are for protecting eyelashes during cosmetic extension and lift and tint services. These under-eye pads provide powerful, yet skin-friendly adhesion aimed at isolating the lower lashes.

Conference Call Details

Management will host a conference call and webcast today at 4:30 p.m. Eastern Time to discuss its quarterly operational and financial results for the second quarter 2022.

NEXGEL Second Quarter 2022 Results Conference Call
