Definitions

(a) The \$1.16 impact per diluted share related to the goodwill and intangible asset impairment is calculated by taking the impact of the impairment net of tax of \$49.3 million divided by the diluted number of shares for the fourth quarter of 2008. Net income excluding the impairment of \$3.3 million is calculated by taking net income for the fourth quarter of 2008 and subtracting the impact of the impairment net of tax of \$49.3 million. Net income per diluted share excluding the impairment of \$0.08 is calculated by taking the net loss for the fourth quarter of 2008 less the impact of the impairment net of tax divided by the diluted number of shares for the fourth quarter of 2008.
