Anixa Biosciences to Present at the 18th Annual European Life Sciences CEO Forum

SAN JOSE, Calif., Feb. 11, 2025 /PRNewswire/ -- [Anixa Biosciences, Inc.](#) ("Anixa" or the "Company") (NASDAQ: ANIX), a biotechnology company focused on the treatment and prevention of cancer, today announced that Mike Catelani, President and CFO of Anixa, will be participating in the [18th Annual European Life Sciences CEO Forum](#) taking place February 26-27, 2025, at the Hilton Zurich Airport Hotel in Zurich, Switzerland.

The conference brings together leading executives, investors, and industry experts from the global life sciences sector to discuss the latest innovations, investment trends, and partnership opportunities. Mr. Catelani will provide an update on Anixa's pipeline, highlighting its groundbreaking CAR-T therapy for ovarian cancer in collaboration with Moffitt Cancer Center, its breast cancer vaccine developed in partnership with Cleveland Clinic, and its expanding portfolio of cancer vaccine programs aimed at addressing multiple hard-to-treat cancers.

Presentation Details:

- **Event:** 18th Annual European Life Sciences CEO Forum
- **Location:** Hilton Zurich Airport Hotel
- **Date:** February 27, 2025
- **Time:** 10:40 AM CET

The presentation will highlight recent clinical advancements and strategic initiatives aimed at accelerating the development of Anixa's innovative therapies. Additionally, Mr. Catelani will engage in one-on-one meetings with potential partners and investors.

"We are excited to participate in this prestigious event and share updates on our cutting-edge programs," said Mike Catelani, President and CFO of Anixa Biosciences. "As we continue to advance our pipeline, we look forward to collaborating with investors and industry leaders who share our dedication to developing innovative and life-changing oncology therapies."

About Anixa Biosciences, Inc.

Anixa is a clinical-stage biotechnology company focused on the treatment and prevention of cancer. Anixa's therapeutic portfolio consists of an ovarian cancer immunotherapy program being developed in collaboration with Moffitt Cancer Center, which uses a novel type of CAR-T, known as chimeric endocrine receptor-T cell (CER-T) technology. The Company's vaccine portfolio includes vaccines being developed in collaboration with Cleveland Clinic to treat and prevent breast cancer and ovarian cancer, as well as additional cancer vaccines to address many intractable cancers, including high incidence malignancies in lung, colon, and prostate. These vaccine technologies focus on immunizing against "retired" proteins that have been found to be expressed in certain forms of cancer. Anixa's business model of partnering with world-renowned research institutions on all stages of development allows the Company to continually examine emerging technologies in complementary fields for further development and commercialization.
