DISCLAIMER

Any forward-looking statements contained in this presentation are included pursuant to the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks and uncertainties that may cause the Company's actual results in future periods to be materially different from management's expectations. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove correct. Factors that could cause the Company's results to differ materially from the results discussed in such forward-looking statements principally include changes in domestic or international economic conditions, changes in foreign currency exchange rates, changes in the cost of materials used in the manufacture of the Company's products, changes in mortality and cremation rates, changes in product demand or pricing as a result of consolidation in the industries in which the Company operates, or other factors such as supply chain disruptions, labor shortages or labor cost increases, changes in product demand or pricing as a result of domestic or international competitive pressures, ability to achieve cost-reduction objectives, unknown risks in connection with the Company's acquisitions, cybersecurity concerns, effectiveness of the Company's internal controls, compliance with domestic and foreign laws and regulations, technological factors beyond the Company's control, impact of pandemics or similar outbreaks, or other disruptions to our industries, customers, or supply chains, the impact of global conflicts, such as the current war between Russia and Ukraine, and other factors described in the Company's Annual Report on Form 10-K and other periodic filings with the U.S. Securities and Exchange Commission (“SEC”).

Included in this report are measures of financial performance that are not defined by generally accepted accounting principles in the United States (“GAAP”). The Company uses non-GAAP financial measures to assist in comparing its performance on a consistent basis for purposes of business decision-making by removing the impact of certain items that management believes do not directly reflect the Company's core operations including acquisition costs, ERP integration costs, strategic initiative and other charges (which includes non-recurring charges related to operational initiatives and exit activities), stock-based compensation and the non-service portion of pension and postretirement expense. Management believes that presenting non-GAAP financial measures is useful to investors because it (i) provides investors with meaningful supplemental information regarding financial performance by excluding certain items that management believes do not directly reflect the Company's core operations, (ii) permits investors to view performance using the same tools that management uses to budget, forecast, make operating and strategic decisions, and evaluate historical performance, and (iii) otherwise provides supplemental information that may be useful to investors in evaluating the Company's results. The Company believes that the presentation of these non-GAAP financial measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures, provided herein, provides investors with an additional understanding of the factors and trends affecting the Company's business that could not be obtained absent these disclosures.

The Company believes that adjusted EBITDA provides relevant and useful information, which is used by the Company's management in assessing the performance of its business. Adjusted EBITDA is defined by the Company as earnings before interest, income taxes, depreciation, amortization and certain non-cash and/or non-recurring items that do not contribute directly to management's evaluation of its operating results. These items include stock-based compensation, the non-service portion of pension and postretirement expense, acquisition costs, ERP integration costs, and strategic initiatives and other charges. Adjusted EBITDA provides the Company with an understanding of earnings before the impact of investing and financing charges and income taxes, and the effects of certain acquisition and ERP integration costs, and items that do not reflect the ordinary earnings of the Company's operations. This measure may be useful to an investor in evaluating operating performance. It is also useful as a financial measure for lenders and is used by the Company's management to measure business performance. Adjusted EBITDA is not a measure of the Company's financial performance under GAAP and should not be considered as an alternative to net income or other performance measures derived in accordance with GAAP, or as an alternative to cash flow from operating activities as a measure of the Company's liquidity. The Company's definition of adjusted EBITDA may not be comparable to similarly titled measures used by other companies.

The Company has also presented adjusted net income and adjusted earnings per share and believes each measure provides relevant and useful information, which is widely used by analysts and investors, as well as by the Company's management in assessing the performance of its business. Adjusted net income and adjusted earnings per share provides the Company with an understanding of the results from the primary operations of our business by excluding the effects of certain acquisition and system-integration costs, and items that do not reflect the ordinary earnings of our operations. These measures provide management with insight into the earning value for shareholders excluding certain costs, not related to the Company's primary operations. Likewise, these measures may be useful to an investor in evaluating the underlying operating performance of the Company's business overall, as well as performance trends, on a consistent basis.

Lastly, the Company has presented net debt and a net debt leverage ratio and believes each measure provides relevant and useful information, which is widely used by analysts and investors as well as by our management. These measures provide management with insight on the indebtedness of the Company, net of cash and cash equivalents and relative to adjusted EBITDA. These measures allow management, as well as analysts and investors, to assess the Company's leverage.

**SUPPLEMENTAL
INFORMATION**

RECONCILIATIONS OF NON-GAAP FINANCIAL MEASURES

Included in this report are measures of financial performance that are not defined by GAAP, including, without limitation, adjusted EBITDA, adjusted net income and EPS, net debt and net debt leverage ratio. The Company defines net debt leverage ratio as outstanding debt (net of cash) relative to adjusted EBITDA. The Company uses non-GAAP financial measures to assist in comparing its performance on a consistent basis for purposes of business decision-making by removing the impact of certain items that management believes do not directly reflect the Company's core operations including acquisition costs, ERP integration costs, strategic initiative and other charges (which includes non-recurring charges related to operational initiatives and exit activities), stock-based compensation and the non-service portion of pension and postretirement expense. Management believes that presenting non-GAAP financial measures is useful to investors because it (i) provides investors with meaningful supplemental information regarding financial performance by excluding certain items that management believes do not directly reflect the Company's core operations, (ii) permits investors to view performance using the same tools that management uses to budget, forecast, make operating and strategic decisions, and evaluate historical performance, and (iii) otherwise provides supplemental information that may be useful to investors in evaluating the Company's results. The Company's calculations of its non-GAAP financial measures, however, may not be comparable to similarly titled measures reported by other companies. The Company believes that the presentation of these non-GAAP financial measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures, provided herein, provide investors with an additional understanding of the factors and trends affecting the Company's business that could not be obtained absent these disclosures.

<i>Adjusted EBITDA margin</i>	<i>10.9 %</i>	<i>14.0 %</i>	<i>11.8 %</i>	<i>14.3 %</i>

⁽¹⁾ Includes certain non-recurring items associated with recent acquisition activities, costs associated with global ERP system integration efforts, certain non-recurring costs associated with productivity and cost-reduction initiatives intended to result in improved operating performance, profitability and working capital levels, and exchange losses associated with highly inflationary accounting.

⁽²⁾ Includes certain non-recurring direct incremental costs (such as costs for purchases of computer peripherals and devices to facilitate working-from-home, additional personal protective equipment and cleaning supplies and services, etc.) incurred in response to COVID-19. This amount does not include the impact of any lost sales or underutilization due to COVID-19.

⁽³⁾ Represents items associated with the termination of the Company's DB Plan, supplemental retirement plan and the defined benefit portion of the officers retirement restoration plan.

⁽⁴⁾ Represents asset write-downs, net of recoveries within the SGK Brand Solutions segment.

⁽⁵⁾ Non-service pension and postretirement expense includes interest cost, expected return on plan assets, amortization of actuarial gains and losses, curtailment gains and losses, and settlement gains and losses. These benefit cost components are excluded from adjusted EBITDA since they are primarily influenced by external market conditions that impact investment returns and interest (discount) rates. Curtailment gains and losses and settlement gains and losses are excluded from adjusted EBITDA since they generally result from certain non-recurring events, such as plan amendments to modify future benefits or settlements of plan obligations. The service cost and prior service cost components of pension and postretirement expense are included in the calculation of adjusted EBITDA, since they are considered to be a better reflection of the ongoing service-related costs of providing these benefits. Please note that GAAP pension and postretirement expense or the adjustment above are not necessarily indicative of the current or future cash flow requirements related to these employee benefit plans.

* Depreciation and amortization was \$5,835 and \$5,838 for the Memorialization segment, \$2,459 and \$2,829 for the Industrial Technologies segment, \$13,334 and \$25,383 for the SGK Brand Solutions segment, and \$1,310 and \$1,339 for Corporate and Non-Operating, for the three months ended June 30, 2022 and 2021, respectively. Depreciation and amortization was \$17,448 and \$17,016 for the Memorialization segment, \$7,643 and \$8,449 for the Industrial Technologies segment, \$51,119 and \$68,492 for the SGK Brand Solutions segment, and \$3,953 and \$3,962 for Corporate and Non-Operating, for the nine months ended June 30, 2022 and 2021, respectively.

** Acquisition costs, ERP integration costs, and strategic initiatives and other charges were \$902 and \$484 for the Memorialization segment, \$1,183 and \$881 for the Industrial Technologies segment, \$1,970 and \$2,909 for the SGK Brand Solutions segment, and \$3,235 and \$2,939 for Corporate and Non-Operating, for the three months ended June 30, 2022 and 2021, respectively. Acquisition costs, ERP integration costs, and strategic initiatives and other charges were \$2,090 and \$1,279 for the Memorialization segment, \$1,376 and \$3,666 for the Industrial Technologies segment, \$7,673 and \$10,470 for the SGK Brand Solutions segment, and \$6,724 and \$8,083 for Corporate and Non-Operating, for the nine months ended June 30, 2022 and 2021, respectively.

*** Non-recurring/incremental COVID-19 costs were \$225 and \$1,333 for the Memorialization segment, \$1 and \$6 for the Industrial Technologies segment, \$74 and \$638 for the SGK Brand Solutions segment, and \$1 and \$16 for Corporate and Non-Operating, for the three months ended June 30, 2022 and 2021, respectively. Non-recurring/incremental COVID-19 costs were \$1,268 and \$3,223 for the Memorialization segment, \$6 and \$36 for the Industrial Technologies segment, \$464 and \$1,344 for the SGK Brand Solutions segment, and \$466 and \$86 for Corporate and Non-Operating, for the nine months ended June 30, 2022 and 2021, respectively.
