BioCorRx, Inc. (OTC: BICX) is an addiction treatment and rehabilitation company offering a unique approach to the treatment of substance abuse addiction. The Start Fresh Program(R) consists of two components. The first component of the program consists of an outpatient implant procedure performed by a licensed physician. The implant delivers therapeutic levels of the drug Naltrexone, an opioid antagonist that significantly reduces physical cravings for alcohol and opioids, into the body. The second component of the program developed by BioCorRx, Inc. is a one on one coaching program specifically tailored for the treatment of alcoholism and other substance abuse addictions. Clinic reports show that the treatment program can be successful for individuals who complete the program. For more information on BICX, visit www.BICXCorp.com and www.BioCorRx.com.

About WEALTHMAKERS

Wealthmakers Online Predictive Research (WOPR) is a distributed computing system that has hundreds of data feeds (economic, weather, geopolitical, interest rates, energy, equities, currencies, commodities, etc.) feeding into a relational database that searches for patterns and determines how a trading instrument has behaved both before and after specific events have taken place in the past. Only about 25% of stocks display patterns at any given time and only about 1% of stocks exhibit all the necessary conditions on any given day to make a trade. That means that out of 14,000 stocks, only about 140 trades are high probability trades that our system would generate a research report on and disseminate the information to clients. This process eliminates the noise and only tells you which stocks have multiple strategies lining up at the same time, in the same direction, with no conflicting predictions and the fundamental valuation is in-line with the prediction.
