

Arizona Dental Association Endorses Two of iCoreConnect's Expanding Services

WINDERMERE, FL, Dec. 16, 2020 (GLOBE NEWSWIRE) -- [via NewMediaWire](#) - [iCoreConnect, Inc.](#) (OTCQB: ICCT) announces the Arizona Dental Association's (AzDA) selection of iCoreRx electronic prescribing software and iCoreExchange HIPAA-compliant email as two new AzDA Perks Program endorsed services. iCoreConnect is a cloud-based software and technology company focused on increasing profit and operational speed in healthcare.

iCoreConnect currently has more than 40 agreements and contracts with state associations across the country. "AzDA first heard about iCoreRx e-Prescribing software and iCoreExchange HIPAA-compliant email from other state dental associations," explains AzDA Executive Director Sean Murphy, JD. "Those associations we spoke to say their members were impressed by iCoreConnect and its products. AzDA Services vetted iCoreConnect's offerings and their benefits to Arizona dentists. We believe iCoreRx and iCoreExchange are affordable ways our member dentists can streamline the way they work and be confident their emails are in compliance with HIPAA laws."

In January 2020, the Arizona Electronic Prescribing for Controlled Substances (EPCS) law took effect to help combat the opioid epidemic in the U.S. The mandate has been temporarily waived due to Covid-19. iCoreConnect President and CEO Robert McDermott says the delay is helpful in giving dentists time to evaluate iCoreRx and understand the benefits of e-Prescribing. "Arizona dentists can e-Prescribe *all* medications from any internet-connected device using iCoreRx. iCoreRx has built-in functionality to rapidly search dosing options, contraindications, and adverse reactions. It integrates into popular practice management systems, directly populating patient information into iCoreRx, eliminating duplicative work, and reducing potentially costly or dangerous errors."

iCoreExchange HIPAA-compliant email meets or exceeds the federal government's technical safeguards for compliance, has zero limits on the size and number of attachments, and has no hidden upgrade fees. McDermott explains, "Most dentists think encryption alone means compliance. While encryption is a critical component of sending Protected Health Information securely, it is only one of 5 technical safeguards." McDermott continues, "Plus, a single sign-on gives access to Gmail, Hotmail, AOL etc. in the same interface as iCoreExchange. These are just a few of the critical ways Arizona dentists can be fully compliant and speed up their workflow."

iCoreConnect's entire platform of enterprise software solutions are cloud-based, designed to solve specific business problems and drive revenue. iCoreConnect builds and improves all its software based on the feedback of currently engaged healthcare providers.

iCoreConnect recognitions include:

About iCoreConnect

iCoreConnect is a cloud-based software and technology company focused on increasing profit and operational speed in high-compliance industries. iCoreConnect is most notably known for its innovation in solving healthcare business problems. The company's philosophy is built on a high level of customer feedback, allowing iCoreConnect to respond to the market's needs. iCoreConnect touts a platform of more than a dozen SaaS enterprise solutions and more than 40 agreements with state or regional healthcare associations. iCoreConnect is a member of the prestigious StartUp Health accelerator.

About Arizona Dental Association

Founded in 1909, the Arizona Dental Association is one of 53 constituent/territorial societies of the American Dental Association. AzDA represents over half of all the licensed dentists in Arizona, and its membership includes both general dentists and dental specialists. AzDA's mission is to provide leadership, resources, and advocacy to ensure the success of its members and promote oral health. AzDA is comprised of three component societies representing different geographical sections of the state: Central Arizona Dental Society, Northern Arizona Dental Society, and Southern Arizona Dental Society.

Forward Looking Statements

In this news release, the use of the words "believe," "could," "expect," "may," "positioned," "project," "projected," "should," "will," "would" or similar expressions are intended to identify forward-looking statements that represent the Company's current judgment about possible future events. The Company believes these judgments are reasonable, but these statements are not guarantees of any events or financial results, and actual results may differ materially due to a variety of important factors.
