Mineralys Therapeutics Announces Closing of Underwriters' Option to Purchase Additional Shares in Connection with Public Offering of Common Stock

RADNOR, Pa., March 18, 2025 (GLOBE NEWSWIRE) -- Mineralys Therapeutics, Inc. (Nasdaq: MLYS), a clinical-stage biopharmaceutical company focused on developing medicines to target hypertension, chronic kidney disease (CKD), obstructive sleep apnea (OSA) and other diseases driven by dysregulated aldosterone, announced today the closing of the sale of an additional 1,944,444 shares of its common stock at a public offering price of \$13.50 per share pursuant to the exercise in full of the underwriters' option to purchase additional shares in connection with Mineralys' recently completed public offering. After giving effect to the sale of these additional shares, the aggregate gross proceeds to Mineralys from the offering, before deducting underwriting discounts and commissions and other estimated offering expenses, were approximately \$201.2 million. All of the securities sold in the offering were sold by Mineralys.

BofA Securities, Evercore ISI, Goldman Sachs & Co. LLC, Stifel and Wells Fargo Securities acted as joint book-running managers for the offering. LifeSci Capital acted as lead manager and H.C. Wainwright & Co. acted as co-manager for the offering.

Mineralys intends to use the net proceeds from the offering to fund clinical development of lorundrostat, including research and development and manufacturing, and pre-commercialization activities, as well as for working capital and general corporate purposes.

The securities described above were offered by Mineralys pursuant to a shelf registration statement previously filed and declared effective by the Securities and Exchange Commission (SEC).
