GREENSBORO, N.C.--(BUSINESS WIRE)-- VF Corporation (NYSE: VFC) today reported financial results for its second quarter ended July 1, 2017. All per share amounts are presented on a diluted basis. This release refers to “reported” and “currency neutral” amounts, terms that are described under the heading “Currency Neutral – Excluding the Impact of Foreign Currency.” Unless otherwise noted, “reported” and “currency neutral” amounts are the same. This release also refers to “continuing” and “discontinued” operations amounts, which are concepts described under the heading “Discontinued Operations – Licensing Business and Contemporary Brands.” Unless otherwise noted, results presented are based on continuing operations.

“VF’s second quarter results were solid and consistent with our expectations, driven by strong results from our largest global brands, the company’s international and direct-to-consumer platforms, and our growing workwear businesses,” said Steve Rendle, President and Chief Executive Officer. “We have really good momentum as we move into the second half of 2017 and are confident in our growth engines, as evidenced by an increase in our full

year outlook and our plan to increase our cash returns to shareholders. Based on the strength of the first half of 2017 and our expectations for the second half of the year, we are making growth-focused investments in our largest brands and platforms to generate additional value for our shareholders both in the near and long term.”

### ***Currency Neutral – Excluding the Impact of Foreign Currency***

This release refers to “reported” amounts in accordance with U.S. generally accepted accounting principles (“GAAP”), which include translation and transactional impacts from foreign currency exchange rates. This release also refers to “currency neutral” amounts, which exclude both the impact of translating foreign currencies into U.S. dollars and the impact of currency rate changes on foreign currency denominated transactions. Reconciliations of GAAP measures to currency neutral amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management’s view of why this information is useful to investors.

### ***Discontinued Operations – Licensing Business and Contemporary Brands***

On April 28, 2017, the company completed the sale of its Licensed Sports Group (LSG) business, including the *Majestic*® brand. Accordingly, the company removed the assets and liabilities of LSG at that date and included the operating results of LSG in discontinued operations for all periods presented. In conjunction with the LSG divestiture, VF executed its plan to entirely exit the licensing business and has classified the assets of the *JanSport*® brand collegiate business as held for sale and included the operating results in discontinued operations for all periods presented.

On August 26, 2016, the company completed the sale of its Contemporary Brands businesses, which included the *7 For All Mankind*®, *Splendid*® and *Ella Moss*® brands. Accordingly, the company has classified the assets and liabilities of the Contemporary Brands businesses as held for sale as of June 2016 and included the operating results of those businesses in discontinued operations for all periods presented.

The company’s net loss from discontinued operations was \$5.0 million in the second quarter of 2017, which includes an adjustment to the estimated loss on the sale of LSG recorded in the first quarter of 2017, and the after-tax operating results of the LSG and the *JanSport*® brand collegiate business during the quarter.

### ***Income Statement Review***

- **Revenue** increased 2 percent to \$2.4 billion (up 3 percent currency neutral), driven by broad-based strength across our international and direct-to-consumer platforms, our Outdoor & Action Sports coalition, and our workwear businesses.
- **Gross margin** improved 80 basis points to 49.7 percent on a reported basis, as benefits from pricing, lower product costs and a mix shift toward higher margin businesses were partially offset by changes in foreign currency. Changes in foreign currency negatively affected reported gross margin by 80 basis points during the quarter.

- **Operating income** on a reported basis was down 14 percent to \$168 million compared to the same period of 2016. Changes in foreign currency negatively affected the operating profit decline by 8 percentage points during the quarter. **Operating margin** on a reported basis decreased 130 basis points to 7.1 percent. Changes in foreign currency negatively affected reported operating margin by about 70 basis points in the quarter.
- **Earnings per share** on a reported basis was down 11 percent to \$0.29 compared to \$0.32 during the same period last year. Excluding the impact of changes in foreign currency, second quarter earnings per share was in line with last year's second quarter.

### ***Balance Sheet and Cash Flow Highlights***

Inventories were up 3 percent compared with the same period of 2016. During the second quarter, the company purchased 14 million of its shares for approximately \$760 million at an average price of \$54 per share under the company's share repurchase program authorized by VF's Board of Directors in 2017. The company has purchased 22 million of its shares for approximately \$1.2 billion thus far in 2017.

### ***2017 Outlook Raised***

The following outlook for 2017 has been updated and includes the following:

- **Revenue** is now expected to approximate \$11.65 billion, up 2 percent on a reported basis (up 3 percent currency neutral). By coalition, revenue for **Outdoor & Action Sports** is now expected to increase approximately 5 percent (up 6 to 7 percent currency neutral) versus the previous expectation of a mid-single-digit percentage rate increase; revenue for **Jeanswear** is still expected to approximate 2016 revenue; **Imagewear** revenue is now expected to increase at a mid-single-digit percentage rate versus the prior expectation of a low single-digit percentage rate increase; and **Sportswear** is still expected to decline at a high single-digit percentage rate.
- **Direct-to-consumer** revenue is now expected to increase between 10 percent and 11 percent versus the previous expectation of a high single-digit percentage rate increase. Digital revenue is now expected to increase more than 25 percent.
- **Gross margin** is now expected to reach 49.8 percent, versus the previous expectation of 49.6 percent, a 40 basis point increase over 2016 gross margin, and includes about a 70 basis point negative impact from changes in foreign currency.
- **Operating margin** is still expected to approximate 14 percent, consistent with the 2016 adjusted operating margin, including about a 60 basis point negative impact from changes in foreign currency.
- **Earnings per share** is now expected to be \$2.94, down approximately 1 percent on a reported basis (up at a mid-single-digit percentage rate currency neutral) compared to 2016 adjusted EPS of \$2.98. This compares to the company's prior outlook range of \$2.89 to \$2.94. Relative to our prior outlook, the company's updated 2017 earnings per share outlook includes about a \$0.08 per share (\$40 million pre-tax) impact from additional investments to drive accelerated growth into 2018 and beyond.

- Other full year assumptions include an **effective tax rate** in the low 20 percent range and **cash flow from operations** of about \$1.45 billion.

### ***Dividend Declared***

VF's Board of Directors declared a quarterly dividend of \$0.42 per share, payable on September 18, 2017 to shareholders of record on September 8, 2017.

(a) Reflects the impact of adopting the new accounting guidance on the presentation of restricted cash and restricted cash equivalents as of the beginning of the first quarter of 2017, which resulted in a \$4.8 million reclassification of cash flows used by operating activities in the Condensed Consolidated Statement of Cash Flows for the six months ended June 2016.

(b) The cash flows related to discontinued operations have not been segregated, and are included in the Condensed Consolidated Statements of Cash Flows. The cash amounts presented above differ from the Condensed Consolidated Balance Sheets due to cash included in the "Current assets of discontinued operations" and the adoption of new accounting guidance as discussed in (a) above.

## Currency Neutral Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars, and from entering foreign currency transactions. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present currency neutral financial information, which is a non-GAAP financial measure that excludes the incremental current year impact of foreign currency exchange. We use currency neutral information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation, and transaction gains and losses. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a currency neutral basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period). Similarly, transaction gains and losses on a currency neutral basis are calculated using exchange rates from the comparable period of the prior year.

These currency neutral performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The currency neutral information presented may not be comparable to similarly titled measures reported by other companies.

## Currency Neutral Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars, and from entering foreign currency transactions. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present currency neutral financial information, which is a non-GAAP financial measure that excludes the incremental current year impact of foreign currency exchange. We use currency neutral information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation, and transaction gains and losses. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a currency neutral basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period). Similarly, transaction gains and losses on a currency neutral basis are calculated using exchange rates from the comparable period of the prior year.

These currency neutral performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The currency neutral information presented may not be comparable to similarly titled

measures reported by other companies.

### **Non-GAAP Financial Information**

The financial information above has been presented on a GAAP basis and on an adjusted basis, which is described below in (a) and (b). Management believes these measures provide investors with useful supplemental information regarding VF's underlying business trends and the performance of VF's ongoing operations and are useful for period-over-period comparisons of such operations.

While management believes that these non-GAAP financial measures are useful in evaluating the business, this information should be considered as supplemental in nature and should be viewed in addition to, and not in lieu of or superior to, VF's operating performance measures calculated in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similarly titled measures presented by other companies.

(a) Adjusted amounts in 2016 represent restructuring charges of \$58.1 million (net of \$14.4 million tax), goodwill and intangible asset impairment charges of \$79.6 million (net of \$15.5 million tax) and a pension settlement charge of \$50.9 million (net of \$19.5 million tax). The EPS impact was calculated using 422,081,000 weighted average common shares. Excluding these charges, adjusted operating income from continuing operations in 2016 was \$1.6 billion. Adjusted operating margin from continuing operations in 2016 was 14%.

(b) In the first quarter of 2017, the Licensing Business met the criteria for discontinued operations reporting and this adjusted amount represents the results of our Licensing Business as if the business was not reported as discontinued operations. The per share amounts were calculated using weighted average common shares of 422,081,000.

Following is the reconciliation of diluted earnings per share from discontinued operations to

the adjusted amounts:
