ME₂C® Environmental Secures Multi-Year Contract Renewal Valued at Over \$2.5 Million Annually

Customer Supply Contract Renewal Covers Two of the Utility's Power Plants Located in the Southern Region

CORSICANA, TX, Jan. 12, 2022 (GLOBE NEWSWIRE) -- Midwest Energy Emissions Corp. (OTCQB: MEEC) ("ME₂C Environmental" or the "Company"), a leading environmental technologies firm, announced the signing of a two-year contract renewal with an estimated annual value in excess of \$2.5 million. Under the extended supply contract, ME₂C will continue supplying its patented Sorbent Enhancement Additive (SEA®) technologies for mercury emissions capture.

"We are pleased to continue our solid partnership with our long-term supply customer, one of the largest power producers in the U.S.," stated Richard MacPherson, CEO of ME₂C Environmental. "This contract renewal, covering two significant plants that support a wide area of power production in the Southern region, is a testament to the value of our patented technologies and solid expertise in mercury emissions. We are prepared to support this large utility's emissions control needs as they meet the power generation needs of a substantial market.

"With a strong existing customer base and continued validation of our patented technologies in mercury emissions across the coal-fired fleet, we expect to see additional customer renewals and new supply business as we move through 2022," concluded MacPherson.
