## **Vuzix Completes Phase 2 Development and Delivers Customized Waveguide-Based Head-Worn Display Engine to a Major US Defense Contractor**

ROCHESTER, N.Y., Jan. 4, 2021 /PRNewswire/ -- [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technology and products, announced it has completed the Phase 2 design, development and delivery of a customized waveguide-based head-worn AR Display Engine for a major US defense contractor. The phase-gated development program with this customer was originally announced in March 2020, with the Phase 2 leg announced in October 2020 now completed and delivered before December 31, 2020. The Company expects potentially further NREs in subsequent phases before a customer accepted final product design could lead to an eventual production program order.

"We are very pleased with the progress we continue to make with this major US defense contractor as we pursue an ultimate production opportunity with them," said Paul Travers, President and CEO of Vuzix. "OEM custom waveguide-based projects such as this represent a profitable vehicle for leveraging our extensive optical expertise and IP and we look forward to announcing further developments with this firm as the project proceeds."

**About Vuzix Corporation**
