## **Blink Charging Selected as Official Electric Vehicle Charger and Network Services Provider for State of New York**

*Blink to provide expanded charging infrastructure and support a more sustainable future for the state.*

**Bowie, Md., May 02, 2024 (GLOBE NEWSWIRE) -- [Blink Charging Co.](#)** (NASDAQ: BLNK) ("Blink" or the "Company"), a leading global manufacturer, owner, operator and provider of electric vehicle (EV) charging equipment and services, has announced it has secured a contract as an official EV charging provider for the state of New York. The agreement sets the stage for Blink Charging and New York to electrify state and municipal fleets and public charging solutions for employees, residents, and visitors.

As part of the contract, Blink will offer the state its advanced electric vehicle charging stations which include Level 2 and DC fast chargers. Additionally, Blink will provide related services such as site assessment and preparation, installation, maintenance, repair, parts and supplies, warranties, and product training.

Furthermore, the contract designates Blink as a provider of EV charging network services related to the management of EVs, including monitoring, reporting, billing, and support. This also encompasses the integration of third-party fleet and building management systems for energy management, as well as other EV-related software and technology.

"The state of New York and Blink are focused on leading the electrification of transportation together," states Jim Nemec, Chief Revenue Officer at Blink Charging. "As we set our sights on providing holistic, targeted charging options for EV drivers throughout New York state and the world, we'll continue to lay the groundwork for an electric revolution. It's rewarding to have a direct role in reducing emissions while enhancing the EV driver experience in New York. We are grateful for the state's trust and our shared vision."

The agreement comes after Blink's strongest financial quarters in Company history, along with the recent grand opening of the Company's new state-of-the-art manufacturing facility and global headquarters in Bowie, Maryland.

###

### **About Blink Charging**

Blink Charging Co. (Nasdaq: BLNK) is a global leader in electric vehicle (EV) charging

equipment and services, enabling drivers, hosts, and fleets to easily transition to electric transportation through innovative charging solutions. Blink's principal line of products and services include Blink's EV charging networks ("Blink Networks"), EV charging equipment, and EV charging services. The Blink Network uses proprietary, cloud-based software that operates, maintains, and tracks the EV charging stations connected to the network and the associated charging data. Blink has established key strategic partnerships for rolling out adoption across numerous location types, including parking facilities, multifamily residences and condos, workplace locations, health care/medical facilities, schools and universities, airports, auto dealers, hotels, mixed-use municipal locations, parks and recreation areas, religious institutions, restaurants, retailers, stadiums, supermarkets, and transportation hubs.
