ETHAN ALLEN REPORTS FISCAL 2019 FIRST QUARTER RESULTS

ETHAN ALLEN

DANBURY, CT - October 24, 2018 - Ethan Allen Interiors Inc. ("Ethan Allen" or the "Company") (NYSE: ETH) today reported operating results for its fiscal 2019 first quarter ended September 30, 2018. Please refer to the accompanying financial statements and reconciliation to non-GAAP measures discussed below.

Fiscal 2019 first quarter compared to fiscal 2018 first quarter:

- Consolidated net sales of \$187.8 million increased 3.6%
- GAAP diluted earnings per share of \$0.33 compared to \$0.27 and adjusted diluted earnings per share of \$0.33 compared to \$0.28, an increase of 17.9%
- Wholesale net sales of \$118.1 increased 5.8%; Retail net sales of \$145.2 increased 2.6%
- GAAP Operating margin of 6.3% compared to 6.4% and adjusted operating margin of 6.3% compared to 6.8%
- Paid \$5.1 million in dividends

"We are pleased with our results, and most importantly with the company's current position for growth," said Farooq Kathwari, Ethan Allen's Chairman, President, and CEO. "Our focus on positioning ourselves as a leading interior design company differentiates us in a rapidly changing retail environment. Our approximately 1,500 in-house interior designers provide complimentary design service to clients around the world through our roughly 300 Design Centers, 200 of which are in North America. We have also made significant product improvements, repositioning about 70% of our line in the last three years and strengthened our North American-based manufacturing and logistics divisions as about 75% of our products are made in our own workshops."

Mr. Kathwari continued, "During the first quarter, we increased our advertising spend by 12.8% as we introduced a new assortment of artisan-inspired furnishings. In September, we mailed a 116-page magazine and supported it with aggressive advertising in digital, print, and other mediums. We will continue our strong marketing initiatives throughout Fiscal 2019."

FISCAL 2019 FIRST QUARTER FINANCIAL RESULTS:

Consolidated

Net sales were \$187.8 million for the three months ended September 30, 2018 compared to \$181.3 million for the same period in the prior year, an increase of 3.6%.

Gross profit was \$101.5 million for the three months ended September 30, 2018 compared

to \$100.3 million in the comparable prior year period. Consolidated gross margin for the quarter was 54.0% compared to 55.3%. Our consolidated gross margin decreased due to a reduction in the percentage of retail sales to total sales and increased raw materials costs. Retail sales as a percent of total consolidated sales was 77.3% for the quarter compared to 78.1% in the prior year quarter.

Operating expenses for the three months ended September 30, 2018 were \$89.7 million or 47.7% of sales compared to \$88.8 million or 49.0% of sales in the comparable prior year period. The 1.0% increase in operating expenses was primarily due to an increase in variable costs on increased sales, and higher advertising costs, which increased 12.8%, partly offset by prior year organizational changes and other exit costs that did not recur this year.

Operating income for the three months ended September 30, 2018 was \$11.8 million or 6.3% of sales compared to \$11.5 million or 6.4% of sales in the comparable prior year period. Adjusted operating income for the three months ended September 30, 2018 was \$11.8 million or 6.3% of sales compared to \$12.4 million or 6.8% of sales in the comparable prior year period. The primary causes for the 2.2% increase in operating income were the increased sales, and prior year organizational changes that did not recur, partly offset by increased variable costs due to increased sales, and raw material costs. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)

Income taxes were \$2.9 million for the three months ended September 30, 2018 and \$4.0 million in the comparable prior year period. The effective rate this quarter was 24.9% compared to 35.1%. The effective tax rate for the quarter was lower due to the 2017 tax act.

Net income was \$8.8 million or \$0.33 per diluted share for the three months ended September 30, 2018 and \$7.4 million or \$0.27 per diluted share in the prior year comparable period. Adjusted net income was \$8.8 million or \$0.33 per diluted share for the three months ended September 30, 2018 and \$7.8 million or \$0.28 per diluted share in the prior year comparable period. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)

Retail Segment

Net sales for the three months ended September 30, 2018 were \$145.2 million compared to \$141.6 million in the prior year comparable period, an increase of 2.6% compared to the prior year. Comparative net sales were \$141.0 million compared to \$139.9 million in the prior year period. Increased domestic sales were partly offset by decreased sales in Canada.

Total written orders for the retail division for the first quarter of fiscal 2019 were down 0.2% compared to the same prior year period, and comparable Design Center written orders were down 2.1% over the same period. Decreases were driven by decreased orders in Canada.

Operating income was a loss of \$1.6 million for the three months ended September 30, 2018, an improvement of \$1.2 million from a loss of \$2.8 million over the same prior year period, driven by increased sales in the current year period.

Wholesale Segment

Net sales of \$118.1 million compared to \$111.6 million in the prior year quarter, an increase

of 5.8%. The increase in sales is primarily due to increased contract sales, primarily the GSA, partly offset by reductions to international independent retailers.

Operating income of \$14.3 million compared to \$13.5 million in the prior year quarter. The increase was largely due to the increase in current period income, partly offset by increased raw material costs.

Balance Sheet and Cash Flow

Total debt of \$1.5 million decreased \$0.2 million from June 30, 2018.

Total cash and cash equivalents of \$39.6 million increased \$17.2 million from June 30, 2018, paying out \$5.1 million in dividends.

Inventories of \$165.7 million increased by \$2.7 million from June 30, 2018.

Capital expenditures were \$2.8 million fiscal year to date at September 30, 2018 compared to \$2.7 million for the same prior year period. Expenditures were primarily at retail design centers.

Dividends During the year to date period ended September 30, 2018, we paid \$5.1 million of dividends, maintaining our \$0.19 quarterly dividend rate with the prior fiscal year.
