Primary F1 revenue represents the majority of F1's revenue and is derived from (i) race promotion revenue, (ii) media rights fees (formerly referred to as broadcasting fees) and (iii) sponsorship fees.

Beginning January 1, 2021, F1 began reclassifying certain components previously reported in Other F1 revenue into Primary F1 revenue to better align with the way it currently evaluates the business. In addition, broadcasting revenue was renamed media rights revenue. The more significant components that were reclassified into Primary F1 revenue include fees for F1 TV subscriptions, fees for licensing commercial rights for Formula 2 and Formula 3 races, fees for the origination and support of program footage, fees for broadcast rights for Formula 2 and Formula 3 races and fees for advertising rights on Formula 1's digital platforms. Following the reclassification, Other F1 revenue is primarily comprised of freight and hospitality revenue. \$34 million of Other F1 revenue was reclassified as Primary F1 revenue for the three months ended September 30, 2020 to conform to the current period presentation. The impact of the revenue reclassification for the years ended December 31, 2019 and 2020 can be found in Schedule 3 of this press release.

There were seven races held in the third quarter of 2021, compared to 10 races held in the third quarter of 2020 due to the compact prior year schedule driven by the COVID-19 pandemic. Fan attendance continues to be assessed by relevant government authorities on a race-by-race basis, although the third quarter of 2021 saw the return of capacity crowds at a number of races for the first time since the start of the pandemic. Most events held during the third quarter of 2021 operated with significantly higher fan attendance compared to the prior year, and the Paddock Club hospitality resumed operations for 6 of the 7 races in the third quarter.

Primary F1 revenue increased in the third quarter, primarily due to growth in race promotion revenue compared to the prior year where limitations on fan attendance led to one-time changes in the contractual terms of races held. Media rights and sponsorship revenue decreased during the third quarter due to the impact of lower proportionate recognition of season-based income (7/22 races took place in the third quarter of 2021 compared to 10/17 in the third quarter of 2020), partially offset by growth in F1 TV subscription revenue and revenue from new sponsors.

Other F1 revenue increased in the third quarter due to hospitality revenue generated from the return of the Paddock Club, which did not operate in the prior year, higher licensing revenue from new contracts and growth in gaming royalties, partially offset by a decrease in Formula 2 and Formula 3 revenue as fewer support races were held in the current period.

Operating income and adjusted OIBDA⁽²⁾ increased in the third quarter. Cost of F1 revenue decreased compared to the prior year due to one-time fees paid to teams in 2020 upon signing the new Concorde Agreement, as well as the impact of the pro rata recognition of team payments across the race season. Other cost of F1 revenue is largely variable in nature and mostly relates to revenue opportunities. These costs were broadly flat in the third quarter as increased costs associated with operating the Paddock Club were offset by lower pro rata recognition of FIA fees and lower technical, travel, freight and logistics costs driven by less races in the current period, as well as reduced Formula 2 and Formula 3 costs as there were fewer support races in the current period. Selling, general and administrative expense increased in the third quarter due to increased marketing expense and professional fees.

The Liberty SiriusXM Group holds an approximate 2.2% intergroup interest (5.3 million notional shares) in the Formula One Group as of October 31, 2021. These shares are not included in the outstanding share count of Formula One Group in Liberty Media's most recent Form 10-Q. Assuming the issuance of the shares underlying this intergroup interest, the Formula One Group outstanding share count as of October 31, 2021 would have been 236 million.

The businesses and assets attributed to the Formula One Group consist of Liberty Media's subsidiary F1, its interest in Liberty Media Acquisition Corporation, other minority investments and an inter-group interest in the Braves Group.

BRAVES GROUP - The following table provides the financial results attributed to the Braves Group for the third quarter of 2021. In the third quarter, approximately \$5 million of corporate level selling, general and administrative expense (including stock-based compensation expense) was allocated to the Braves Group.

Operating income (loss)	\$ (15)	\$ 35	NM
Number of home games in period	30	34	
Baseball revenue per home game	\$ 3.4	\$ 6.5	

There were 34 home games played in the third quarter of 2021 compared to 30 home games played in the comparable prior year period. The 2021 regular season began with fans in attendance at 33% capacity for the first home game beginning April 9th, which increased to 50% capacity beginning April 23rd and further expanded to 100% capacity beginning May 7th. There were no fans in attendance during the 2020 regular season.

Baseball revenue is comprised of (i) ballpark operations (ticket sales, concessions, corporate sales, retail, suites, premium seat fees and postseason), (ii) local broadcast rights and (iii) shared Major League Baseball revenue streams, including national broadcast rights and licensing. Development revenue is derived from the Battery Atlanta mixed-use facilities and primarily includes rental income.

Baseball revenue increased in the third quarter driven by the home games played in the current year with fan attendance and the recognition of revenue related to all primary sources of revenue. Development revenue increased during the third quarter due to a reduction in deferred payment arrangements as well as increases in rental income from various new lease commencements.

Operating income and adjusted OIBDA increased in the third quarter. Revenue growth more than offset increased operating costs as player salaries and facility and game day expenses returned to more normalized levels in the current year. Selling, general and administrative expense increased primarily due to higher marketing expense and cost reduction initiatives during the 2020 season as a result of the impacts of COVID-19.

The Formula One Group holds an approximate 11.1% intergroup interest (6.8 million notional shares) and the Liberty SiriusXM Group holds an approximate 3.7% intergroup interest (2.3 million notional shares) in the Braves Group as of October 31, 2021. These shares are not included in the outstanding share count of the Braves Group in Liberty Media's most recent Form 10-Q. Assuming the issuance of the shares underlying these intergroup interests, the Braves Group outstanding share count as of October 31, 2021 would have been 61 million.

The businesses and assets attributed to the Braves Group consist primarily of Liberty Media's subsidiary the Braves, which indirectly owns the Atlanta Braves Major League Baseball Club, our minor league clubs and certain assets and liabilities associated with the Braves' ballpark and mixed-use development project.

Liberty Media, SiriusXM, Formula 1 and Braves Holdings are in compliance with their debt covenants as of September 30, 2021.

Total cash and liquid investments attributed to Liberty SiriusXM Group decreased \$1.0 billion in the third quarter due to net debt repayment at SiriusXM and return of capital at both SiriusXM and Liberty SiriusXM Group, partially offset by cash from operations at SiriusXM. Total debt attributed to Liberty SiriusXM Group decreased \$1.0 billion during the quarter due to the net redemption of debt at SiriusXM. During the third quarter, SiriusXM extended the maturity on its revolving credit facility to August 2026.

Included in the cash and liquid investments balance attributed to Liberty SiriusXM Group at September 30, 2021 is \$164 million held at SiriusXM. Although SiriusXM is a consolidated subsidiary, it is a separate public company with a significant non-controlling interest, therefore Liberty Media does not have unfettered access to SiriusXM's cash balances. Liberty SiriusXM Group received \$47 million of dividends from SiriusXM during the third quarter. On October 25, 2021, SiriusXM's Board of Directors increased its quarterly cash dividend by 50%, effective as of its next payment date on November 29, 2021.

On October 5, 2021, Liberty Media issued a notice to holders of its 2.25% Live Nation exchangeable debentures due 2048 that it intends to redeem the debentures in full that are not purchased or surrendered prior thereto for exchange at the December 1st put/call date. As of September 30, 2021, there is \$385 million principal amount of debentures outstanding with a carrying value of \$532 million. Any exchanges are expected to be settled in January 2022.

Total cash and liquid investments attributed to the Formula One Group decreased \$30 million during the quarter as share repurchases and investments in equity method affiliates and debt and equity securities more than offset cash from operations at F1. Total debt at Formula One Group was flat in the third quarter.

On October 5, 2021, Liberty Media redeemed in full the outstanding \$25 million principal amount of its 2.25% AT&T exchangeable senior debentures due 2046, which was funded with the sale of Liberty Media's remaining approximately 800 thousand shares of AT&T as well as cash on hand.

Total cash and liquid investments attributed to the Braves Group decreased \$34 million

during the quarter driven by cash used in operations primarily due to seasonal working capital changes and capital expenditures related to the mixed-use development, partially offset by additional borrowing. Total debt attributed to the Braves Group increased \$27 million in the quarter driven by increased borrowing to fund the mixed-use development and drawdowns on the team revolver. The second phase of the Battery Atlanta mixed-use development is currently on-time and on-budget. It is expected to cost approximately \$200 million, of which the Braves and affiliated entities have already funded approximately \$55 million in equity and \$115 million in debt, with approximately \$30 million incremental debt funding remaining.

NON-GAAP FINANCIAL MEASURES AND SUPPLEMENTAL DISCLOSURES

SCHEDULE 1

To provide investors with additional information regarding our financial results, this press release includes a presentation of Adjusted OIBDA, which is a non-GAAP financial measure, for the Liberty SiriusXM Group, the Braves Group and the Formula One Group, together with reconciliations to operating income, as determined under GAAP. Liberty Media defines Adjusted OIBDA as operating income (loss) plus depreciation and amortization, stock-based compensation, separately reported litigation settlements, restructuring, acquisition and other related costs and impairment charges.

Liberty Media believes Adjusted OIBDA is an important indicator of the operational strength and performance of its businesses by identifying those items that are not directly a reflection of each business' performance or indicative of ongoing business trends. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because Adjusted OIBDA is used as a measure of operating performance, Liberty Media views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Media's management considers in assessing the results of operations and performance of its assets.

The following table provides a reconciliation of Adjusted OIBDA for Liberty Media to operating income calculated in accordance with GAAP for the three months ended September 30, 2020 and September 30, 2021, respectively.

SCHEDULE 2

This press release also includes a presentation of adjusted EBITDA of SiriusXM, which is a non-GAAP financial measure used by SiriusXM, together with a reconciliation to SiriusXM's stand-alone net income, as determined under GAAP. SiriusXM defines adjusted EBITDA as net income before interest expense, income tax expense and depreciation and amortization. SiriusXM adjusts EBITDA to exclude the impact of other expense (income) as well as certain other charges discussed below. Adjusted EBITDA is a Non-GAAP financial measure that excludes or adjusts for (if applicable): (i) certain adjustments as a result of the purchase price accounting for the XM Merger and the Pandora Acquisition, (ii) share-based payment expense, (iii) impairment, restructuring and acquisition costs, (iv) legal settlements/reserves and (v) other significant operating expense (income) that do not relate to the on-going performance of SiriusXM's business. SiriusXM believes adjusted EBITDA is a useful measure of the underlying trend of its operating performance, which provides useful information about its business apart from the costs associated with its capital structure and purchase price accounting. SiriusXM believes investors find this Non-GAAP financial measure useful when analyzing past operating performance with current performance and comparing SiriusXM's operating performance to the performance of other communications, entertainment and media companies. SiriusXM believes investors use adjusted EBITDA to estimate current enterprise value and to make investment decisions. As a result of large capital investments in SiriusXM's satellite radio system, its results of operations reflect significant charges for depreciation expense. SiriusXM believes the exclusion of share-based payment expense is useful as it is not directly related to the operational conditions of its business. SiriusXM also believes the exclusion of the legal settlements and reserves, impairment, restructuring and acquisition related costs, and loss on extinguishment of debt, to the extent they occur during the period, is useful as they are significant expenses not incurred as part of its normal operations for the period.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to SiriusXM's statements of comprehensive income of certain expenses, including share-based

payment expense and certain purchase price accounting for the XM Merger and the Pandora Acquisition. SiriusXM endeavors to compensate for the limitations of the Non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate operating results after giving effect for these costs, should refer to net income as disclosed in SiriusXM's unaudited consolidated statements of comprehensive income. Since adjusted EBITDA is a Non-GAAP financial performance measure, SiriusXM's calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of net income to the adjusted EBITDA is calculated as follows:

SCHEDULE 3

Beginning January 1, 2021, F1 began reclassifying certain components previously reported in Other F1 revenue into Primary F1 revenue to better align with the way it currently evaluates the business.
