

## Orbsat Corp. Awarded 400-Unit GPS Tracker Contract from U.K. Government Agency

**AVENTURA, FL / ACCESSWIRE / October 29, 2019**/ Orbsat Corp. (OTCQB:OSAT) ("Orbsat" or the "Company"), a global provider of communication solutions for connectivity to the world through next-generation satellite technology, announced today that its <u>Global Telesat Communications</u> ("GTC") subsidiary has been awarded a 400-unit GPS tracker contract from a U.K. Government Agency. GTC will provide compact, self-powered GPS trackers designed for lone worker, vehicle and asset tracking applications. This latest award is the second large GPS tracking hardware contract received by the Company from this government customer.

Orbsat currently works with many enterprise and government agency customers in the United States, Europe, Asia and the Middle East, providing an array of solutions including satellite phones and network connectivity solutions as well as specialized tracking services. The Company currently supports over 15,000 active GPS tracking and satellite communication devices in use by government, enterprise and individual customers on every continent.

"Orbsat is pleased to have once again been selected by this significant government customer as we continue to accelerate our focus on the large enterprise and government sectors," said David Phipps, Chief Executive Officer of Orbsat Corp. "We look forward to continuing to support the current and future needs of our government and enterprise customers who are increasingly seeking cost effective technology solutions that enable global connectivity for their organizations and their personnel."

## **About Orbsat Corp**

Orbsat provides services and solutions to fulfill the rapidly growing global demand for satellite-based voice, high-speed data, tracking and IoT connectivity services. Building upon its long-term experience providing government, commercial, military and individual consumers with Mobile Satellite Services, Orbsat is positioned to capitalize on the significant opportunities being created by global investments in new and upgraded satellite networks. Orbsat's U.S. and European based subsidiaries, Orbital Satcom and Global Telesat Communications, have provided global satellite connectivity solutions to more than 35,000 customers located in over 160 countries across the world.

## **Forward-Looking Statements**

Certain statements in this release constitute forward-looking statements. These statements include the capabilities and success of the Company's business and any of its products, services or solutions. The words "believe," "forecast," "project," "intend," "expect," "plan,"

"should," "would," and similar expressions and all statements, which are not historical facts, are intended to identify forward-looking statements. These forward-looking statements involve and are subject to known and unknown risks, uncertainties and other factors, any of which could cause the Company to not achieve some or all of its goals or the Company's previously reported actual results, performance (finance or operating) to change or differ from future results, the Company's ability to capitalize on its partnerships as well as other similar arrangements, performance (financing and operating) or achievements, including those expressed or implied by such forward-looking statements. More detailed information about the Company and the risk factors that may affect the realization of forward-looking statements is set forth in the Company's filings with the Securities and Exchange Commission (the "SEC"), copies of which may be obtained from the SEC's website at www.sec.gov. The Company assumes no, and hereby disclaims any, obligation to update the forward-looking statements contained in this press release.
