# CBRE GROUP, INC. INVESTOR OVERVIEW

# **Forward-Looking Statements**

This presentation contains statements that are forward looking within the meaning of the Private Securities Litigation Reform Act of 1995. These include statements regarding CBRE's future growth momentum, operations, market share, business outlook, and financial performance expectations. These statements are estimates only and actual results may ultimately differ from them. Except to the extent required by applicable securities laws, we undertake no obligation to update or publicly revise any of the forward-looking statements that you may hear today. Please refer to our third quarter earnings release, furnished on Form 8-K, our most recent annual report filed on Form 10-K and our most recent quarterly report filed on Form 10-Q, and in particular any discussion of risk factors or forward-looking statements therein, which are available on the SEC's website (www.sec.gov), for a full discussion of the risks and other factors that may impact any forward-looking statements that you may hear today. We may make certain statements during the course of this presentation, which include references to "non-GAAP financial measures," as defined by SEC regulations. Where required by these regulations, we have provided reconciliations of these measures to what we believe are the most directly comparable GAAP measures, which are attached hereto within the appendix.

# CBRE's Financial Flexibility Has Improved Dramatically

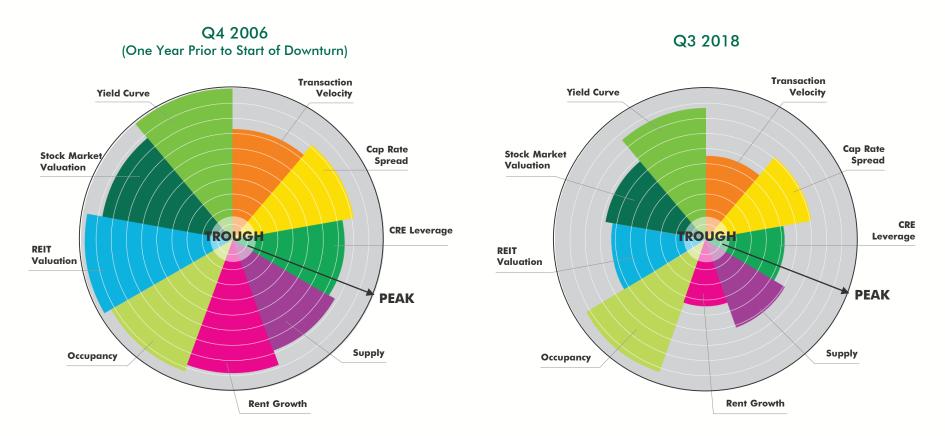

Note: As of December 31, 2006 and 2017, respectively. Liquidity is defined as cash and cash equivalents plus unused amounts under the revolving credit facility.

# CBRE Cycle Radar – Markets in Balance

Current measures of economic and CRE cycle suggest an extended cycle from here

CBRE proprietary Cycle Radar for Commercial Real Estate charts measure relative percentile for each metric at a point in time against the trailing 16 year history. The outside line represents the highest observed value for each metric over the last 16 years and the middle of the chart represents the lowest observed value.

#### Three Structural Tailwinds for Commercial Real Estate Services

1. Outsourcing – Occupier Acceptance of Outsourced Commercial Real Estate Services

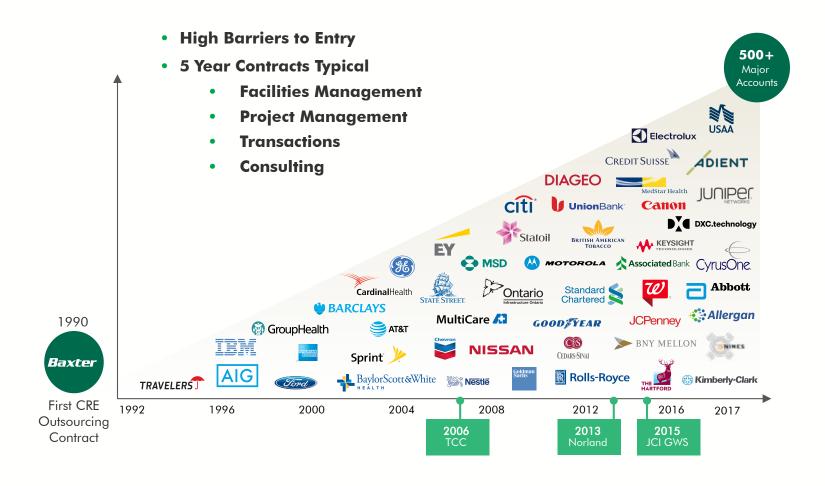

2. Asset Allocation – By Institutional Investors to the Commercial Real Estate Asset Class

3. Consolidation – Customers are Driving Consolidation to Global Industry Leaders

# Tailwind 1 – Occupiers of Real Estate Increasingly Turn to Outsourcing

CBRE's market leading position driven by both organic growth and strategic M&A

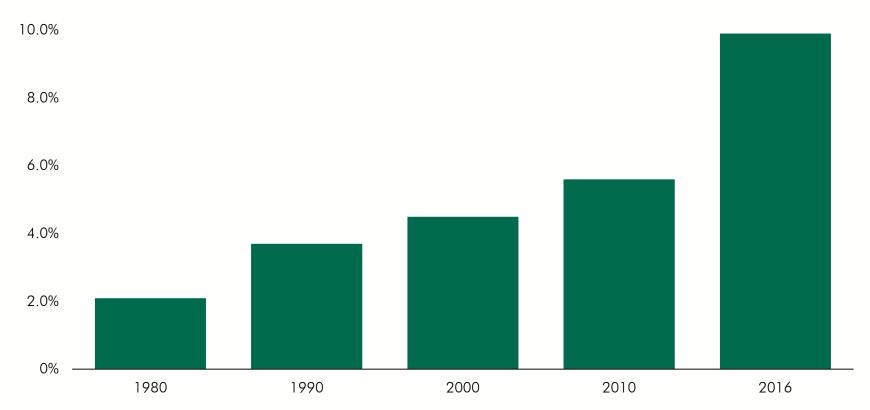

# Tailwind 2 – Increasing Institutional Ownership of CRE Drives Demand for Services

Institutions are more frequent users of CRE services vs. legacy ownership

#### Institutional Asset Allocation to Real Estate has Increased Strongly Over Time

# Tailwind 3 – CBRE Holds the Market Leading Position in a Consolidating Industry

CBRE has pursued and won 5 of the 12 mergers noted below (did not bid on other 7)

Notes: Revenues of private companies are estimated; CBRE 2015 gross revenue includes four months of actual gross revenue from the acquired GWS business while under our ownership, annualized for illustrative purposes; other public companies are as reported, with Savills revenue translated to US Dollars. C&W's 2015 revenue is a proforma figure to adjust for the acquisitions of Cassidy Turley and DTZ. Figures have not been adjusted for ASC 606.

## Non-GAAP financial measures

The following measures are considered "non-GAAP financial measures" under SEC guidelines:

- fee revenue
- contractual fee revenue
- net income attributable to CBRE Group, Inc., as adjusted (which we also refer to as "adjusted net income")
- diluted income per share attributable to CBRE Group, Inc. shareholders, as adjusted (which we also refer to as "adjusted earnings per share" or "adjusted EPS")
- EBITDA and adjusted EBITDA

These measures are not recognized measurements under United States generally accepted accounting principles, or "GAAP." When analyzing our operating performance, readers should use them in addition to, and not as an alternative for, their most directly comparable financial measure calculated and presented in accordance with GAAP. Because not all companies use identical calculations, our presentation of these measures may not be comparable to similarly titled measures of other companies.

Our management generally uses these non-GAAP financial measures to evaluate operating performance and for other discretionary purposes. The company believes that these measures provide a more complete understanding of ongoing operations, enhance comparability of current results to prior periods and may be useful for investors to analyze our financial performance because they eliminate the impact of selected charges that may obscure trends in the underlying performance of our business. The company further uses certain of these measures, and believes that they are useful to investors, for purposes described below.

With respect to fee revenue: the company believes that investors may find this measure useful to analyze the financial performance of our Occupier Outsourcing and Property Management business lines and our business generally. Fee revenue excludes costs reimbursable by clients, and as such provides greater visibility into the underlying performance of our business.

With respect to contractual fee revenue: the company believes that investors may find this measure useful to analyze our overall financial performance because it identifies revenue streams that are typically more stable over time.

With respect to adjusted net income, adjusted EPS, EBITDA and adjusted EBITDA: the company believes that investors may find these measures useful in evaluating our operating performance compared to that of other companies in our industry because these calculations generally eliminate the accounting effects of acquisitions, which would include impairment charges of goodwill and intangibles created from acquisitions—and in the case of EBITDA and adjusted EBITDA—the effects of financings and income tax and the accounting effects of capital spending. All of these measures may vary for different companies for reasons unrelated to overall operating performance. In the case of EBITDA and adjusted EBITDA, these measures are not intended to be measures of free cash flow for our management's discretionary use because they do not consider cash requirements such as tax and debt service payments. The EBITDA and adjusted EBITDA measures calculated herein may also differ from the amounts calculated under similarly titled definitions in our credit facilities and debt instruments, which amounts are further adjusted to reflect certain other cash and non-cash charges and are used by us to determine compliance with financial covenants therein and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments. The company also uses adjusted EBITDA and adjusted EPS as significant components when measuring our operating performance under our employee incentive compensation programs.

- 1. Excludes \$23.8 million and \$94.6 million of cash in consolidated funds and other entities not available for company use at December 31, 2017 and December 31, 2012, respectively.
- 2. Outstanding amount is reflected net of unamortized debt issuance costs.
- 3. Excludes \$910.8 million and \$1,026.4 million of warehouse facilities for loans originated on behalf of the FHA and other government sponsored enterprises outstanding at December 31, 2017 and December 31, 2012, respectively, which are non-recourse to CBRE Group, Inc.
- 4. Excludes non-recourse notes payable on real estate, net of unamortized debt issuance costs, of \$17.9 million and \$312.1 million at December 31, 2017 and December 31, 2012, respectively.
- 5. Total net debt is calculated as total debt (excluding non-recourse debt) less cash available for company use, as disclosed above.
- 6. Adjusted EBITDA excludes (from EBITDA) certain carried interest compensation reversal to align with the timing of associated revenue, cost-elimination expenses as well as integration and other costs associated with acquisitions.

Note: 2017 TTM adjusted EBITDA has been restated for ASC 606. We have not made a similar restatement for 2012, and 2012 TTM adjusted EBITDA continues to be reported under the accounting standards in effect for that period.

<sup>1.</sup> In the first quarter of 2018, the company adopted new revenue recognition guidance. Certain restatements have been made to 2016 and 2017 financial statements (and thus the 2016 and 2017 financial information included in this slide) to conform with the 2018 presentation.

NOTES: Local currency percent changes versus prior year are non-GAAP financial measures noted on slides 30 and 31. These percent changes are calculated by comparing current year results versus prior year results, in each case at prior year exchange rates.

In the first quarter of 2018, the company adopted new revenue recognition guidance. Restatements have been made to 2017 and 2016 financial data included in this presentation on slides 6, 7, 17, 18, 19, 21, 22, 25, 26, 27, 30, 31, 36, 41, 42, 43, 44, 45, and 46 to conform with the 2018 presentation. Financial data for periods prior to 2016 have not been restated and continue to be reported under the accounting standards in effect for the relevant period. Accordingly, such prior period amounts should not be compared with the restated financial data for 2016, 2017 and 2018. Although we believe that any prior period amounts would not be significantly different if we had restated such periods to conform with the 2018 presentation, there can be no assurance that there would not be a difference, and any such difference may be material.

- 2. As of December 31, 2017, includes affiliates.
- 3. Assets Under Management (AUM) as of September 30, 2018. Assets under management (AUM) refers to the fair market value of real asset-related investments with respect to which CBRE Global Investors provides, on a global basis, oversight, investment management services and other advice and which generally consist of investments in real assets; equity in funds and joint ventures; securities portfolios; operating companies and real asset-related loans. This AUM is intended principally to reflect the extent of CBRE Global Investors' presence in the global real asset market, and its calculation of AUM may differ from the calculations of other investment or asset managers.

- 3. Contractual Sources include Occupier Outsourcing and Property Management revenue (7% in 2006 and 33% in 2017; excludes associated sales and lease revenues, most of which are contractual), Global Investment Management revenue (6% in 2006 and 4% in 2017) Valuation revenue (8% in 2006 and 5% in 2017) and Loan Servicing (0.5% in 2006 and 2% in 2017).
- 4. Fee Revenue is gross revenue less both client reimbursed costs largely associated with our employees that are dedicated to client facilities and subcontracted vendor work performed for clients.
- 5. On a GAAP revenue basis (as opposed to a fee revenue basis) contractual plus leasing revenues are 64% and 83% of GAAP revenues in 2006 and 2017, respectively.
- 6. Fee revenue includes Loan Servicing within Contractual Sources, consistent with the fee revenue disclosure seen on slides 30 and 31.

#### Slide 17

1. CBRE has not reconciled adjusted net income for 2018P to the most directly comparable GAAP measure because this cannot be done without unreasonable effort due to the variability and low visibility with respect to items related to acquisitions, reorganization costs, carried interest incentive compensation and financing costs, which are potential adjustments to future earnings. We expect the variability of these items to have a potentially unpredictable and potentially significant impact on our future GAAP financial results.

#### Slide 18

- 1. Adjusted EPS excludes the effect of select charges from GAAP EPS as well as adjusts the provision for income taxes for such charges. Adjustments during the periods presented included amortization expense related to certain intangible assets attributable to acquisitions, cost-elimination expenses, integration and other costs related to acquisitions, certain carried interest incentive compensation (reversal) expense to align with the timing of associated revenue, write-off of financing costs on extinguished debt and goodwill and other non-amortizable intangible asset impairment. Adjustments for the twelve months ended December 31, 2017 also include the tax impact of U.S. tax reform.
- 2. Leverage ratio is defined as year-end Net Debt divided by full-year adjusted EBITDA. Net Debt is defined as total debt, net of unamortized debt premiums, discounts and issuance costs, excluding warehouse facilities for loans originated on behalf of FHA and other government sponsored entities which are non-recourse to CBRE Group, Inc., non-recourse notes payable on real estate, and net of cash, excluding cash in consolidated funds and other entities not available for company use at year-end.

- 1. Tenant rep and landlord rep split based on 2017 CBRE US lease consideration value.
- 2. We regard leasing revenue as largely recurring over time because unlike most other transaction businesses, leasing activity normally takes place when leases expire. The average lease expires in five to six years. This means that, on average, in a typical year approximately 17% to 20% of leases roll over and a new leasing decision must be made. When a lease expires in the ordinary course, we expect it to be renewed, extended or the tenant to vacate the space to lease another space in the market. In each instance, a transaction is completed. If there is a downturn in economic activity, some tenants may seek a short term lease extension, often a year, before making a longer term commitment. In this scenario, that delayed leasing activity tends to be stacked on top of the normal activity in the following year. Thus, we characterize leasing as largely recurring over time because we expect an expiration of a lease, in the ordinary course, to lead to an opportunity for a leasing commission from such completed

- 1. Contractual revenue refers to revenue derived from our Occupier Outsourcing, Property Management, Investment Management, Valuation and Loan Servicing businesses. We regard leasing revenue as largely recurring over time because unlike most other transaction businesses, leasing activity normally takes place when leases expire. The average lease expires in five to six years. This means that, on average, in a typical year approximately 17% to 20% of leases roll over and a new leasing decision must be made. In this scenario, that delayed leasing activity tends to be stacked on top of the normal activity in the following year. Thus, we characterize leasing as largely recurring over time because we expect an expiration of a lease, in the ordinary course, to lead to an opportunity for a leasing commission from such completed transaction even if delayed by a year or two during an economic downturn.
