SARASOTA, Fla.--(BUSINESS WIRE)-- [Helios Technologies, Inc.](https://www.helios-tech.com) (NYSE: HLIO) ("Helios" or the "Company"), a global leader in highly engineered motion control and electronic controls technology for diverse end markets, today reported financial results for the fourth quarter and year ended January 1, 2022. Results include the acquisitions of BWG Holdings I Corp. (known as "Balboa Water Group" or "Balboa acquisition") on November 6, 2020, the assets of BJN Technologies, LLC ("BJN") on January 21, 2021, NEM S.r.l. ("NEM") on July 9, 2021, and Shenzhen Joyonway Electronics & Technology Co., Ltd ("Joyonway") on October 11, 2021.

Josef Matosevic, the Company's President and Chief Executive Officer, commented, "Our consistent exceptional performance is the direct result of the augmented strategy that we established and the excellent execution by our management team as well as the contributions of all of our colleagues around the world. Every day they are working to meet or exceed our customers' requirements, advance innovative technology solutions, and exercise robust agility to address the challenges presented with the global macro economy. The depth and breadth of our innovation is validated by our strong organic growth as we introduce breakthrough technologies and capture greater market share. Our operating strategy is enabling our ability to remain highly responsive to our customers with lead times that well outpace the competition, even while operating conditions are less than ideal given supply shortages and material inflation. We are executing on our manufacturing roadmap to

balance “make vs. buy” decisions and investing where needed to ensure we have capacity to meet the demand.”

He concluded, “Our augmented strategy is delivering on accelerated growth and our goal of \$1 billion in revenue by 2023 is in our line of sight. We have tremendous potential as an organization, and I am very optimistic that it will be further unleashed when we move beyond these uniquely challenging times.”

See the attached tables for additional important disclosures regarding Helios’s use of non-GAAP adjusted operating income, non-GAAP adjusted operating margin, non-GAAP cash net income, non-GAAP cash earnings per share, adjusted EBITDA (earnings before net interest expense, income taxes, depreciation and amortization) and adjusted EBITDA margin (adjusted EBITDA as a percentage of sales) as well as reconciliations of GAAP operating income to non-GAAP adjusted operating income and non-GAAP adjusted operating margin and GAAP net income to non-GAAP cash net income, non-GAAP cash earnings per share, adjusted EBITDA and Adjusted EBITDA margin. Helios believes that, when used in conjunction with measures prepared in accordance with GAAP, the non-GAAP measures described above help improve the understanding of its operating performance.

Sales

- Sales reflected strong demand across all markets, and responsive manufacturing processes to deliver products and solutions to customers in a timely manner against supply chain constraints. Results included \$26.4 million in sales from acquisitions. (See the table in this release that provides acquired revenue by segment by quarter). In addition, the Company experienced significant organic sales growth of \$39.7 million, or 26%, compared with the prior-year period.
- Strength in demand across all regions as markets recovered from the impacts of the COVID-19 pandemic.
- Foreign currency translation adjustment on sales: \$1.5 million unfavorable.

Profits and margins

- Gross profit and margin drivers: gross profit benefitted from increased volume during the quarter while gross margin declined by 60 basis points compared with the prior-year period, as improved leverage of our fixed cost base on the higher sales was offset by increases in logistics and raw material costs and reduced manufacturing labor

efficiencies. In addition, the business model of the Balboa acquisition has lower gross margins but higher operating margins.

- Selling, engineering and administrative (“SEA”) expenses: as a percentage of sales, improved 610 basis points to 16.0% compared with the 2020 fourth quarter, reflecting both the benefit of fixed cost leverage on higher sales and continued cost management initiatives.
- Amortization of intangible assets: \$7.5 million down from \$8.8 million in the prior year reflecting timing related to the Company’s acquisitions.

Non-operating items

- Net interest expense: \$3.9 million in the quarter, down \$0.8 million compared with the prior-year period due to lower debt balances.
- Effective tax rate: 13.6% compared with 22.4% in the prior-year period due to positive impacts from the release of reserves related to previously disclosed tax controversies regarding transfer pricing matters in the US, UK, and Germany.

Net income, earnings per share, non-GAAP cash earnings per share and adjusted EBITDA

- GAAP net income and diluted earnings per share: \$23.6 million and \$0.72 per share.
- Diluted Non-GAAP cash earnings per share: \$1.01 compared with \$0.60 last year due to higher sales, operational efficiencies, and strong outperformance from the Balboa acquisition.
- Adjusted EBITDA margin: declined 50 basis points to 22.7% compared with the prior-year period as higher volume was offset by material inflation and operational inefficiencies related to supply chain challenges.

Helios believes that, when used in conjunction with measures prepared in accordance with GAAP, the non-GAAP measures described above help improve the understanding of its operating performance.

Sales

- Sales growth reflected strong demand across all regions and markets, in particular agriculture, construction equipment, recreation, and health & wellness. Results included \$206.6 million in sales related to acquisitions. *(See the table in this release that provides acquired revenue by segment by quarter)*. In addition, the Company experienced strong organic growth of \$139.5 million, or 27%, compared with 2020.
- Foreign currency translation adjustment on sales: \$12.4 million favorable.

Profits and margins

- Gross profit and margin drivers: gross profit benefitted from increased volume during the period. Gross margin declined by 150 basis points compared with the prior-year period as manufacturing labor efficiencies and improved leverage of our fixed cost base on the higher sales were offset by increases in logistics and raw material costs. In addition, the business model of the Balboa acquisition has lower gross margins but higher operating margins.
- Selling, engineering and administrative (“SEA”) expenses: 15.0% as a percentage of sales, improved 540 basis points compared with the prior-year period, reflecting both the lower SEA expenses relative to sales for the Balboa acquisition, fixed cost leverage on higher sales, and continued cost containment initiatives.
- Amortization of intangible assets: increased \$10.7 million to \$32.8 million from the prior year reflecting the Balboa acquisition.
- Goodwill impairment charge: last year’s first quarter included a \$31.9 million impairment charge resulting from weakened market outlook primarily due to the COVID-19 pandemic.

Non-operating items

- Net interest expense: \$3.6 million increase to \$16.9 million compared with the prior-year period reflecting higher debt balances.
- Effective tax rate: 20.3% compared with 17.6% in the prior year, excludes non-taxable goodwill impairment charge, included certain one-time benefits in the second quarter of 2020 that reduced the effective tax rate for the period.

Net income, earnings per share, non-GAAP cash earnings per share and adjusted EBITDA

- GAAP net income and diluted earnings per share: \$104.6 million and \$3.22 per share.
- Diluted Non-GAAP cash earnings per share: \$4.25 compared with \$2.24 in the prior-year period driven by strong demand, operational efficiencies and strong performance of the Balboa acquisition.
- Adjusted EBITDA margin: 24.6%, up 140 basis points compared with the prior-year period due to higher volume and operational efficiencies.

Fourth Quarter Hydraulics Segment Review

- Higher sales in all regions were driven by demand from U.S. and European agriculture and construction equipment markets, as well as mobile and industrial equipment markets; foreign currency exchange rates had a \$1.5 million unfavorable adjustment on sales.
- Gross margin of 35.8% reflects improved leverage on higher volume offset by reduced production labor efficiencies related to COVID absenteeism and higher material and freight costs.
- Operating margin of 21.1% improved 210 basis points, reflecting improved leverage of our fixed cost base and disciplined cost management efforts.

Operating Income	\$ 15.4 \$	9.0 \$	6.4	71%
Operating Margin	17.7%	18.5%	(80) bps	

Fourth Quarter Electronics Segment Review

- Higher sales included \$20.7 million related to the acquisitions of Balboa and Joyonway. Strong demand from health and wellness and recreational markets drove sales, partially offset by supply chain constraints.
- Gross margin reflects the different business model of the Balboa acquisition, which has lower gross margins that are offset by a lower SEA expense structure. Additionally, raw material, freight and logistics costs increased as a result of materials shortages and efforts to meet customer requirements on a timely basis.
- Operating margin of 17.7% reflects flow through of gross margin impacts offset by fixed cost leverage on higher sales.

Balance Sheet and Cash Flow Review

- Total debt at year-end was \$445.0 million compared with \$462.4 million at January 2, 2021.
- Cash and cash equivalents at January 1, 2022 were \$28.5 million compared with \$25.2 million at the end of 2020.
- Inventory increased \$55.3 million from the end of 2020 driven by the macro issues in the supply chain. These issues include the Company purchasing parts ahead of material shortages, holding some inventory for past due orders where one or two components have been delayed in the supply chain, along with customers changing shipping schedules once the Company has already manufactured the products.
- Pro-forma net debt-to-adjusted EBITDA improved to 1.89x at the end of 2021 (pro-forma for NEM and Joyonway) compared with 3.0x (pro-forma for Balboa) at the end of 2020, further demonstrating the Company's ability to rapidly de-lever the balance sheet following an acquisition. At the end of 2021, the Company had \$158.0 million available on its revolving lines of credit.
- Net cash provided by operations was \$113.2 million in 2021 compared with \$108.6 million in the prior-year period.
- Capital expenditures were \$26.8 million for the full year of 2021. The Company expects to spend between 3% to 5% of sales in capital investments in 2022.

FORWARD-LOOKING INFORMATION

This news release contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements involve risks and uncertainties, and actual results may differ materially from those expressed or implied by such statements. They include statements regarding current expectations, estimates, forecasts, projections, our beliefs, and assumptions made by Helios Technologies, Inc. (“Helios” or the “Company”), its directors or its officers about the Company and the industry in which it operates, and assumptions made by management, and include among other items, (i) the Company’s strategies regarding growth, including its intention to develop new products and make acquisitions; (ii) the effectiveness of creating the Center of Engineering Excellence; (iii) the Company’s financing plans; (iv) trends affecting the Company’s financial condition or results of operations; (v) the Company’s ability to continue to control costs and to meet its liquidity and other financing needs; (vi) the declaration and payment of dividends; and (vii) the Company’s ability to respond to changes in customer demand domestically and internationally, including as a result of standardization. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as “may,” “expects,” “projects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives or goals also are forward-looking statements. These statements are not guaranteeing future performance and are subject to a number of risks and uncertainties. Our actual results may differ materially from what is expressed or forecasted in such forward-looking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause the actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to, (i) supply chain disruption and the potential inability to procure goods; (ii) conditions in the capital markets, including the interest rate environment and the availability of capital; (iii) inflation (including hyperinflation) or recession; (iv) changes in the competitive marketplace that could affect the Company’s revenue and/or cost bases, such as increased competition, lack of qualified engineering, marketing, management or other personnel, and increased labor and raw materials costs; (v) risks related to health epidemics, pandemics and similar outbreaks and similar outbreaks, including, without limitation, the current COVID-19 pandemic, which may among other things, adversely affect our supply chain, material costs, and work force and may have material adverse effects on our business, financial position, results of operations and/or cash flows; and (vi) new product introductions, product sales mix and the geographic

mix of sales nationally and internationally. Further information relating to factors that could cause actual results to differ from those anticipated is included but not limited to information under the heading Item 1. "Business" and Item 1A. "Risk Factors" in the Company's Form 10-K for the year ended January 2, 2021.

This news release will discuss some historical non-GAAP financial measures, which the Company believes are useful in evaluating its performance. The determination of the amounts that are excluded from these non-GAAP measures is a matter of management judgment and depends upon, among other factors, the nature of the underlying expense or income recognized in a given period. You should not consider the inclusion of this additional information in isolation or as a substitute for results prepared in accordance with GAAP.

This news release also presents forward-looking statements regarding non-GAAP Adjusted EBITDA, Adjusted EBITDA margin and Diluted non-GAAP cash EPS. The Company is unable to present a quantitative reconciliation of these forward-looking non-GAAP financial measures to their most directly comparable forward-looking GAAP financial measures because such information is not available, and management cannot reliably predict the necessary components of such GAAP measures without unreasonable effort or expense. In addition, the Company believes that such reconciliations would imply a degree of precision that would be confusing or misleading to investors. The unavailable information could have a significant impact on the Company's 2022 financial results. These non-GAAP financial measures are preliminary estimates and are subject to risks and uncertainties, including, among others, changes in connection with quarter-end and year-end adjustments. Any variation between the Company's actual results and preliminary financial data set forth above may be material.

Non-GAAP Financial Measures and Non-GAAP Forward-looking Financial Measures:

Adjusted operating income, adjusted operating margin, EBITDA, adjusted EBITDA, adjusted EBITDA margin, net debt-to-adjusted EBITDA, cash net income and cash net income per diluted share are not measures determined in accordance with generally accepted accounting principles in the United States, commonly known as GAAP. Nevertheless, Helios believes that providing non-GAAP information such as adjusted operating income, adjusted operating margin, EBITDA, adjusted EBITDA, adjusted EBITDA margin, net debt-to-adjusted EBITDA, cash net income and cash net income per diluted share are important for investors and other readers of Helios's financial statements, as they are used as analytical indicators by Helios's management to better understand operating performance. Because adjusted operating income, adjusted operating margin, adjusted EBITDA, adjusted EBITDA margin, net debt-to-adjusted EBITDA, cash net income and cash net income per diluted share are non-GAAP measures and are thus susceptible to varying calculations, adjusted operating income, adjusted operating margin, EBITDA, adjusted EBITDA, adjusted EBITDA margin, net debt-to-adjusted EBITDA, cash net income and cash net income per diluted share, as presented, may not be directly comparable with other similarly titled measures used by other companies.

The Company does not provide a reconciliation of forward-looking non-GAAP financial measures, such as adjusted EBITDA, adjusted EBITDA margin and cash net income and

cash net income per diluted share disclosed above in our 2022 Outlook, to their comparable GAAP financial measures because it could not do so without unreasonable effort due to the unavailability of the information needed to calculate reconciling items and due to the variability, complexity and limited visibility of the adjusting items that would be excluded from the non-GAAP financial measures in future periods. When planning, forecasting and analyzing future periods, the Company does so primarily on a non-GAAP basis without preparing a GAAP analysis.

¹ *Adjusted EBITDA is a non-GAAP measure. See comments regarding the use of non-GAAP measures and the reconciliation of GAAP to non-GAAP measures in the tables of this release*

² *On a pro-forma basis for NEM and Joyonway*
