Wrap Technologies Announces Deployment of BolaWrap 150® Remote Restraint Devices Across Cobb County, Georgia

TEMPE, Ariz., Sept. 15, 2023 (GLOBE NEWSWIRE) -- [Wrap Technologies, Inc. \(NASDAQ: WRAP\)](#), a visionary leader in advanced public safety solutions, today announced the adoption of BolaWrap 150® remote restraint devices by the Cobb County Sheriff's Office in Georgia. This is the first deployment of BolaWrap in the Cobb County area and is part of a nationwide push of innovative law enforcement initiatives by forward-thinking public safety officials.

"The Cobb County Sheriff's Office deployment of BolaWrap represents a significant milestone in the adoption of no-harm inspired public safety techniques in one of Georgia's largest metropolitan areas. Sheriff Owens is a pioneer in the changing landscape of policing, continuously exploring and developing community-centered approaches and utilizing the latest technological advancements," said Kevin Mullins, CEO of Wrap Technologies. "We take pride in standing alongside one of the foremost figures in modern policing and are delighted in Cobb County's commitment to BolaWrap's promise of de-escalation and decreased use of force."

The Cobb County Sheriff's Office completed its training of BolaWrap in May and started deploying the revolutionary law enforcement tool immediately. The third most populous county in Georgia joins over 1000 agencies across the US and 60 countries around the world who have adopted the company's solution and no-harm guiding principle. Wrap Technologies' BolaWrap is a proprietary technology that allows deputies to safely restrain individuals without causing significant harm or escalating the situation. By deploying a lightweight Kevlar® tether, BolaWrap can rapidly and temporarily immobilize an individual's legs or arms, effectively allowing officers to move in while minimizing the potential for injury to both law enforcement and the individual involved.

"My team and I are committed to transforming policing by embracing cutting-edge technology and prioritizing de-escalation techniques," said Cobb County Sheriff Craig Owens. "BolaWrap is indispensable in our Adult Detention Center, allowing for the swift and secure management of individuals who may not initially comply with lawful orders. This innovative tool is helping us reduce the use of force while also enhancing the safety of our deputies, the detainees in our custody, and the greater Cobb County community."

"The adoption of BolaWrap by the Cobb County Sheriff's Office is a great step towards safer policing outcomes and signifies a leap forward in community-first thinking. We recognize just how vital and life-saving this technology can be for those caught in police encounters and are excited more agencies around the country are embracing this cutting-edge tool," said

Reverend Markel Hutchins, Chairman, President & CEO of MovementForward in Atlanta, Georgia. "With their commitment to BolaWrap, Sheriff Owens and his team are making great strides in Cobb County, contributing to a safer and more equitable society for all as they approach policing with innovative and prudent solutions."

Wrap Technologies recognizes the Cobb County Sheriff's Office progressive outlook and their commitment to the safety and well-being of both the police and the people they serve. This new deployment emphasizes BolaWrap's ability to transform law enforcement protocol worldwide.

Cautionary Note on Forward-Looking Statements – Safe Harbor Statement

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to: statements regarding the Company's overall business; total addressable market; and expectations regarding future sales, expenses and break-even and profitability expectations. Words such as "expect", "anticipate", "should", "believe", "target", "project", "goals", "estimate", "potential", "predict", "may", "will", "could", "intend", and variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Moreover, forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond the Company's control. The Company's actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to: the Company's ability to successfully implement training programs for the use of its products; the Company's ability to manufacture and produce product for its customers; the Company's ability to develop sales for its new product solution; the acceptance of existing and future products, including the acceptance of the BolaWrap 150; the risk that distributor and customer orders for future deliveries are modified, rescheduled or cancelled in the normal course of business; the availability of funding to continue to finance operations; the complexity, expense and time associated with sales to law enforcement and government entities; the lengthy evaluation and sales cycle for the Company's product solution; product defects; litigation risks from alleged product-related injuries; risks of government regulations; the business impact of health crises or outbreaks of disease, such as epidemics or pandemics; the impact resulting from geopolitical conflicts and any resulting sanctions; the ability to obtain export licenses for countries outside of the US; the ability to obtain patents and defend IP against competitors; the impact of competitive products and solutions; and the Company's ability to maintain and enhance its brand, as well as other risk factors mentioned in the Company's most recent annual report on Form 10-K, quarterly report on Form 10-Q, and other SEC filings. These forward-looking statements are made as of the date of this press release and were based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Except as required by law, the Company undertakes no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events or changes in its expectations.

About the Cobb County Sheriff's Office

The Cobb County Sheriff's Office is a law enforcement agency that executes a broad range of services, which include but are not limited to Jail Operations, Court Security, Criminal Warrant Execution, Civil Process Service, Mental Health Transports, Forgery/Fraud Investigation, and Fugitive Investigation and Apprehension. Sheriff Craig Owens took over

the office on Jan. 1, 2021, and leads a staff of more than 800 deputies and civilians. Under his leadership, the Sheriff's Office has the most diverse command staff in its nearly 200-year history and is on the path to becoming the best law enforcement agency in the state of Georgia.
