

Rand Capital Announces Second Quarter 2018 Results

- *Invested \$775,000 during the second quarter*
- *Net Asset Value per share was \$4.87 at June 30*
- *Progressing with Small Business Administration (SBA) new financing process*

BUFFALO, N.Y.--(BUSINESS WIRE)-- [Rand Capital Corporation](#) (Nasdaq:RAND) (“Rand”), a venture capital company which invests in growth businesses with unique product, service or technology concepts, announced its results for the quarter and six months ended June 30, 2018.

Allen F. (“Pete”) Grum, President and Chief Executive Officer of Rand Capital, commented, “During the quarter we invested \$775,000 in debt instruments supporting KnowledgeVision’s progression of its smart media technology. Since we first began investing in them in 2013, the company has increased its registered user base tenfold.”

Mr. Grum added, “We continue to work with the SBA to secure an additional \$6 million of debentures. With a full pipeline of investment opportunities, we look forward to completing this transaction and putting the funds to work in support of exciting growth businesses.”

Second Quarter 2018 Financial Highlights

- Reported \$4.87 net asset value (NAV) per share at June 30, 2018, compared with \$4.97 at March 31, 2018. The decrease was primarily due to write-downs of investments in certain portfolio companies based on their recent operating performance.
- Supported an existing portfolio company, KnowledgeVision[®] Systems, Inc., with \$775,000 of investments during the quarter.
- Investment income increased 18% and 15% over the prior-year second quarter and first six months, respectively.
- At June 30, 2018, portfolio fair value was \$32.3 million and consolidated cash was \$4.7 million.

Total investment income in the second quarter of 2018 grew to \$413,000, up from \$349,000 in the second quarter of 2017. The \$64,000 increase was driven by the Company’s success with focusing on investments in income producing instruments. Total expenses in the 2018 and 2017 second quarters were \$474,000 and \$607,000, respectively, reflecting a reduction of 22%. The decrease is primarily due to lower professional fees, partially offset by higher bad debt expense.

Total investment income was \$776,000 and \$678,000 for the first six months ended June 30,

2018 and 2017, respectively. Similar to the second quarter, the growth was driven by the Company's investment focus on income-generating instruments. Total expenses for the first six months of 2018 and 2017 were \$1.1 million in each period.

Selected Portfolio Highlights

- [KnowledgeVision Systems, Inc.](#) is a leader in smart media creation and hosting technology. Its Knovio[®] video platform is used by more than 300,000 people worldwide in more than 2,000 companies and campuses to create, host, share, organize, collaborate around, and measure online media content. The company recently further strengthened its leadership position by winning its second U.S. patent for its video presentation technology, launching a groundbreaking live multimedia webcasting product, Knovio Live. Including its second quarter investments, at June 30, 2018, Rand's investment in KnowledgeVision was valued at approximately \$1.3 million.
- [Centivo Corporation](#) is a new high-value healthcare solution built specifically for employers and their employees and families. CentivoSM targets lowering healthcare costs and improved healthcare outcomes by rewarding members and providers for smart choices and actions while delivering an exceptional member experience. Centivo recently raised \$34 million in Series A funding, in which Rand invested \$200,000 and converted a \$100,000 convertible note during the first quarter of 2018. The capital will be deployed to build the company's technology and infrastructure, develop local partnerships, and support market launch. At June 30, 2018, Rand's investment in Centivo was valued at approximately \$301,000.
- [Rheonix, Inc.](#) is a developer of fully automated, sample-to-answer molecular testing solutions for use in multiple applications. Rheonix recently announced two new innovative products for use on the Encompass Optimum[™] workstation. First, they expanded their Beer SpoilerAlert[™] assay to detect more organisms that may cause spoilage in beer, resulting in the simplest and most comprehensive beer spoilage test in the market. Second, Rheonix launched the Listeria PatternAlert[™] assay, a breakthrough method for rapidly identifying molecular patterns from *Listeria* strains. Its quick results enable food producers to take rapid action to reduce the risk of contamination and recall. In addition, the company has initiated clinical studies to gain FDA clearance for its Encompass MDx[™] Workstation and the Rheonix STI Tri-Plex assay for the simultaneous detection of three sexually transmitted infections. At June 30, 2018, Rand's investment in Rheonix was valued at approximately \$2.9 million.

As of June 30, 2018, Rand's portfolio consisted of 30 active companies. At that date, the portfolio was comprised of approximately 58% in equity investments and 42% in debt investments, compared with 59% in equity investments and 41% in debt investments at June 30, 2017.
