HOUSTON, June 11 /PRNewswire-FirstCall/ -- Bristow Group Inc. (NYSE: BRS) announced today the pricing of its previously announced offering of 4,100,000 shares of common stock and \$100 million principal amount of convertible senior notes due 2038 pursuant to a registration statement filed with the Securities and Exchange Commission.

The common stock was priced at \$46.87 per share. In a concurrent offering, the Company priced \$100 million principal amount of 3.0% convertible senior notes due 2038 at 100% of the principal amount, with the earliest option redemption in 2015. Bristow expects the net proceeds from the sale of the common stock to be \$183.2 million and expects the net proceeds from the sale of the notes to be \$96.6 million.

Bristow has granted the underwriters of the common stock offering an option to purchase up to an additional 615,000 shares of common stock and up to an additional \$15 million aggregate principal amount of notes. The offerings are expected to close on June 17 and are subject to the satisfaction of customary closing conditions. Additionally, we have entered into an agreement for the sale of 281,900 shares of our common stock at a price of \$46.87 per share with Caledonia Investments plc, one of our largest shareholders, the closing of which is subject to customary closing conditions, including regulatory clearance and the closing of our public offering of common stock.

The Company intends to use the net proceeds from both offerings to fund the purchase of additional aircraft and for general corporate purposes.

The notes will be convertible, under certain circumstances, using a net share settlement process, into a combination of cash and Bristow's common stock. The initial base conversion price of the notes is approximately \$77.34 (subject to adjustment in certain circumstances), based on the initial base conversion rate of 12.9307 shares of common stock per \$1,000 principal amount of convertible notes. In general, upon conversion of a note, the holder will receive cash equal to the principal amount of the note and common stock to the extent of the note's conversion value in excess of such principal amount. In addition, if at the time of conversion the applicable price of Bristow's common stock exceeds the based conversion price, holders will receive up to an additional 8.4049 shares of Bristow common stock per \$1,000 principal amount of notes, as determined pursuant to a specified formula.

The notes will bear interest at a rate of 3.0% per annum. The notes will mature on June 15, 2038 and may not be redeemed by Bristow prior to June 15, 2015, after which they may be redeemed at 100% of principal amount plus accrued and unpaid interest. Holders of the convertible notes may require Bristow to repurchase any or all of their convertible notes for cash on June 15, 2015, 2020, 2025, 2030 and 2035, or in the event of certain change of
