Anixa Biosciences Clarifies Poster Presentation on Company Website

SAN JOSE, Calif., April 17, 2023 /PRNewswire/ -- [Anixa Biosciences, Inc.](#) (NASDAQ: ANIX), a biotechnology company focused on the treatment and prevention of cancer today announced that a technical error was made by the company's website hosting service provider, causing a poster presentation unrelated to Anixa to be posted on the Corporate Presentations page of the company's website. The correct presentation of the company's breast cancer vaccine clinical trial from the 2023 AACR Annual Meeting may be found on the Events page of the company's website at <https://ir.anixa.com/events>.

About Anixa Biosciences, Inc.

Anixa is a clinical-stage biotechnology company focused on the treatment and prevention of cancer. Anixa's therapeutic portfolio consists of an ovarian cancer immunotherapy program being developed in collaboration with Moffitt Cancer Center, which uses a novel type of CAR-T, known as chimeric endocrine receptor T-cell (CER-T) technology. The company's vaccine portfolio includes a novel vaccine being developed in collaboration with Cleveland Clinic to prevent breast cancer – specifically triple negative breast cancer (TNBC), the most lethal form of the disease – as well as a vaccine to prevent ovarian cancer. These vaccine technologies focus on immunizing against "retired" proteins that have been found to be expressed in certain forms of cancer. Anixa's unique business model of partnering with world-renowned research institutions on clinical development allows the company to continually examine emerging technologies in complementary fields for further development and commercialization.
