ProMIS Neurosciences to Participate in BTIG Virtual Biotechnology Conference 2024

CAMBRIDGE, Massachusetts and TORONTO, Ontario, Aug. 01, 2024 (GLOBE NEWSWIRE) -- ProMIS Neurosciences Inc. (Nasdaq: PMN), a biotechnology company focused on the generation and development of therapeutics targeting toxic misfolded proteins in neurodegenerative diseases, today announced that Neil Warma, interim Chief Executive Officer of ProMIS Neurosciences and Larry Altstiel, M.D., Ph.D., Chief Medical Officer of ProMIS Neurosciences, will participate in a fireside chat at the BTIG Virtual Biotechnology Conference on August 6, 2024 at 12:00 p.m. ET.

A live webcast of the fireside chat will be available to conference participants.

About ProMIS Neurosciences Inc.

ProMIS Neurosciences Inc. is a clinical stage biotechnology company focused on generating and developing antibody therapeutics selectively targeting toxic misfolded proteins in neurodegenerative diseases such as Alzheimer's disease (AD), amyotrophic lateral sclerosis (ALS) and multiple system atrophy (MSA). The Company's proprietary target discovery engine applies a thermodynamic, computational discovery platform - ProMIS™ and Collective Coordinates - to predict novel targets known as Disease Specific Epitopes on the molecular surface of misfolded proteins. Using this unique approach, the Company is developing novel antibody therapeutics for AD, ALS and MSA. ProMIS has offices in Toronto, Ontario and Cambridge, Massachusetts.
