Elme Communities Announces Fourth Quarter and Full Year 2023 Results

Elme Communities (the "Company") (NYSE: ELME), a multifamily REIT with communities in the Washington, DC metro area and the Atlanta metro area, reported financial and operating results today for the quarter and year ended December 31, 2023:

Full-Year 2023 Financial and Operational Results

- Net loss was \$53.0 million, or \$0.61 per diluted share
- NAREIT FFO was \$77.8 million, or \$0.88 per diluted share, up 27.9% compared to the prior year
- Core FFO was \$85.2 million, or \$0.97 per diluted share, up 10.2% compared to the prior year
- Net Operating Income (NOI) was \$148.1 million, up 9.4% compared to the prior year
- Same-store multifamily NOI increased by 8.3% compared to the prior year period
- Average Effective Monthly Rent per Home increased 6.5% compared to the prior year for our Same-Store Portfolio
- Same-store multifamily Average Occupancy was 95.6% during the year, up 0.2% compared to the prior year

Fourth Quarter Financial Results

- Net loss was \$3.1 million, or \$0.04 per diluted share
- NAREIT FFO was \$21.0 million, or \$0.24 per diluted share, up 14.3% compared to the prior year period
- Core FFO was \$20.9 million, or \$0.24 per diluted share, unchanged compared to the prior year period
- Net Operating Income (NOI) was \$38.6 million, up 4.6% compared to the prior year period

Fourth Quarter Operational Highlights

- Same-store multifamily NOI increased by 4.5% compared to the prior year period
- Effective blended Lease Rate Growth was 2.5% during the quarter for our Same-Store Portfolio, comprised of effective new Lease Rate Growth of (2.4)% and effective renewal Lease Rate Growth of 6.2%
- Average Effective Monthly Rent Per Home increased 3.8% compared to the prior year period for our Same-Store Portfolio
- Same-store Retention was 65% while achieving strong renewal Lease Rate Growth
- Same-store multifamily Average Occupancy was 95.5% during the quarter, up 0.5% compared to the prior year period
- Same-store multifamily Ending Occupancy was 95.9%, up 0.7% compared to the prior year period

Liquidity Position

- Available liquidity was approximately \$550 million as of December 31, 2023, consisting of availability under the Company's revolving credit facility and cash on hand
- Annualized fourth quarter Net Debt to Adjusted EBITDA ratio was 5.5x
- The Company has no debt maturities until 2025 and no secured debt

"We delivered solid fourth quarter performance, closing out a year of exceptional growth." said Paul T. McDermott, President and CEO. "Looking forward, our primary emphasis will be on implementing operational enhancements and utilizing our new technology to enhance profitability. Our Washington Metro portfolio, which represents over 80% of our multifamily NOI, is poised for strong performance this year and we anticipate an improving capital markets environment throughout 2024 as interest rates stabilize. With a favorable outlook for our largest market and price points that offer relative insulation from new supply, we are confident in our ability to advance our initiatives while achieving NOI growth in 2024."

Fourth Quarter Operating Results

- Multifamily same-store NOI Same-store NOI increased 4.5% compared to the corresponding prior year period driven primarily by higher base rent. Average Occupancy for the quarter increased 50 basis points from the prior year period to 95.5%.
- Other same-store NOI The other Same-Store Portfolio is comprised of one asset, Watergate 600. Other same-store NOI decreased by 6.5% compared to the corresponding prior year period due to lower occupancy. Watergate 600 was 87.8% occupied and leased at quarter end.

2024 Guidance

"With embedded rent growth in our Washington Metro portfolio and the potential to outperform in our markets based on operational initiatives that are already underway, we are well positioned at this point in the year," said Steven Freishtat, Executive Vice President and CFO. "Our 2024 guidance reflects moderated NOI growth, particularly in the first half of the year, supported by stable demand for value-oriented apartments in the Washington Metro region. While we anticipate a year-over-year decline in Core FFO in 2024 primarily driven by higher interest rates, our core business is performing well, our stock valuation is compelling, and we are laying the groundwork for strong NOI performance going forward."

Elme is providing its guidance for 2024, including its full year 2024 outlook on key assumptions and matters. Elme expects Core FFO for 2024 to range from \$0.90 to \$0.96 per fully diluted share. The following assumptions are included in the Core FFO guidance for 2024:

Full Year 2024 Outlook on Key Assumptions and Metrics

- Same-store multifamily NOI growth is expected to range from 0.25% to 2.0%
- Non-same-store multifamily NOI is expected to range from \$5.25 million to \$6.25 million
- Other same-store NOI, which consists solely of Watergate 600, is expected to range from \$12.0 million to \$13.0 million
- Property management expense is expected to range from \$8.5 million to \$9.0 million
- G&A, net of core adjustments, is expected to range from \$24.25 million to \$25.25 million
- Interest expense is expected to range from \$37.25 million to \$38.25 million
- Does not take into account any potential future acquisitions or dispositions in 2024

Full Year 2024

Core FFO per diluted share	\$0.90 - \$0.96
Net Operating Income Assumptions	
Same-store multifamily NOI growth (a)	0.25% - 2.0%
Non-same-store multifamily NOI (b)	\$5.25 million - \$6.25 million
Other same-store NOI (c)	\$12.0 million - \$13.0 million
Expense Assumptions	
Property management expense	\$8.5 million - \$9.0 million
G&A, net of core adjustments	\$24.25 million - \$25.25 million
Interest expense	\$37.25 million - \$38.25 million

⁽a) Includes revenue and expenses from retail operations at multifamily properties

Elme Communities' 2024 Core FFO guidance and outlook are based on a number of factors, many of which are outside the Company's control, including economic factors such as inflation and interest rate changes, and all of which are subject to change. Elme Communities may change the guidance provided during the year as actual and anticipated results vary from these assumptions, but Elme Communities undertakes no obligation to do so.

2024 Guidance Reconciliation Table

A reconciliation of projected net loss per diluted share to projected Core FFO per diluted share for the full year ending December 31, 2024 is as follows:

	Low	High
Net loss per diluted share	\$(0.15)	\$(0.09)
Real estate depreciation and amortization	1.05	1.05
NAREIT FFO per diluted share	0.90	0.96
Core adjustments		
Core FFO per diluted share	\$0.90	\$0.96

Dividends

On January 4, 2024, Elme Communities paid a quarterly dividend of \$0.18 per share.

Elme Communities announced today that its Board of Trustees has declared a quarterly dividend of \$0.18 per share to be paid on April 3, 2024 to shareholders of record on March 20, 2024.

Presentation Webcast and Conference Call Information

The Fourth Quarter 2023 Earnings Call is scheduled for Friday, February 16, 2024 at 10:00 A.M. Eastern Time. Conference Call access information is as follows:

USA Toll Free Number: 1-888-506-0062 International Toll Number: 1-973-528-0011

Conference ID: 558089

The instant replay of the Earnings Call will be available until Friday, March 1, 2024. Instant replay access information is as follows:

USA Toll Free Number: 1-877-481-4010 International Toll Number: 1-919-882-2331

⁽b) Includes Elme Druid Hills and Riverside Development.

⁽c) Consists of Watergate 600

Conference ID: 49686

The live on-demand webcast of the Conference Call with presentation slides will be available on the Investor section of Elme Communities' website at www.elmecommunities.com. Online playback of the webcast and presentation slides will be available following the Conference Call.

About Elme Communities

Elme Communities is committed to elevating what home can be for middle-income renters by providing a higher level of quality, service, and experience. The Company is a multifamily real estate investment trust that owns and operates approximately 9,400 apartment homes in the Washington, DC metro and the Atlanta metro regions, and owns approximately 300,000 square feet of commercial space. Focused on providing quality, affordable homes to a deep, solid, and underserved base of mid-market demand, Elme Communities is building long-term value for shareholders.

Note: Elme Communities' press releases and supplemental financial information are available on the Company website at www.elmecommunities.com or by contacting Investor Relations at (202) 774-3200.

Forward Looking Statements

Certain statements in our earnings release and on our conference call are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and involve risks and uncertainties. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. Such statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance, or achievements of Elme Communities to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Additional factors which may cause the actual results, performance, or achievements of Elme Communities to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements include, but are not limited to: our ability to deliver NOI and rent growth in 2024; the capital market environment in 2024; the ability of the price points within our portfolio to insulate our portfolio from the effects of new supply; the risks associated with ownership of real estate in general and our real estate assets in particular; the economic health of the areas in which our properties are located, particularly with respect to the greater Washington metro and Sunbelt regions; risks associated with our ability to execute on our strategies, including new strategies with respect to our operations and our portfolio, including the acquisition of apartment homes in the Sunbelt markets and to advance our initiatives; the risk of failure to enter into and/or complete acquisitions and dispositions; changes in the composition of our portfolio; reductions in or actual or threatened changes to the timing of federal government spending; the economic health of our residents; the impact from macroeconomic factors (including inflation, increases in interest rates, potential economic slowdowns or recessions and geopolitical conflicts); risks related to our ability to control our expenses if revenues decrease; compliance with applicable laws and corporate social responsibility goals, including those concerning the environment and access by persons with disabilities; risks related to not having adequate insurance to cover potential losses; changes in the market value of securities; terrorist attacks or actions and/or cyber-attacks; whether we will succeed in the day-to-day property management and leasing activities that we have previously outsourced; the availability and terms of financing and capital and the general volatility of securities markets; risks related to our organizational structure and limitations of share ownership; failure to qualify and maintain our qualification as a REIT and the risks of changes in laws affecting REITs; and other risks and uncertainties detailed from time to time in our filings with the SEC, including our 2022 Form 10-K filed on February 17, 2023. While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We undertake no obligation to update our forward-looking statements or risk factors to reflect new information, future events, or otherwise.

This Earnings Release also includes certain forward-looking non-GAAP information. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income (loss) as a measure of our operating performance. Please see the following pages for the corresponding definitions and reconciliations of such non-GAAP financial measures.

Non-GAAP Financial Measures

Adjusted EBITDA is earnings before interest expense, taxes, depreciation, amortization, gain/loss on sale of real estate, casualty gain/loss, real estate impairment, gain/loss on extinguishment of debt, gain/loss on interest rate derivatives, severance expense, acquisition expenses, gain from non-disposal activities, adjustment to deferred taxes and Transformation Costs. Adjusted EBITDA is included herein because we believe it helps investors and lenders understand our ability to incur and service debt and to make capital expenditures. Adjusted EBITDA is a non-GAAP and non-standardized measure and may be calculated differently by other REITs.

Adjusted Funds From Operations ("AFFO") is a non-GAAP measure. It is calculated by subtracting from FFO (1) recurring improvements, tenant improvements and leasing costs, that are capitalized and amortized and are necessary to maintain our properties and revenue stream (excluding items contemplated prior to acquisition or associated with development / redevelopment of a property) and (2) straight line rents, then adding (3) non-real estate depreciation and amortization, (4) non-cash fair value interest expense and (5) amortization of restricted share compensation, then adding or subtracting the (6) amortization of lease intangibles, (7) real estate impairment and (8) non-cash gain/loss on extinguishment of debt, as appropriate. AFFO is included herein, because we consider it to be a performance measure of a REIT's ability to incur and service debt and to distribute dividends to its shareholders. AFFO is a non-GAAP and non-standardized measure, and may be calculated differently by other REITs.

Core Adjusted Funds From Operations ("Core AFFO") is calculated by adjusting AFFO for the following items (which we believe are not indicative of the performance of Elme Communities' operating portfolio and affect the comparative measurement of Elme Communities' operating performance over time): (1) gains or losses on extinguishment of debt and gains or losses on interest rate derivatives, (2) expenses related to acquisition and structuring activities, (3) non-share-based executive transition costs, severance expenses and other expenses related to corporate restructuring and executive retirements or resignations, (4) property impairments, casualty gains and losses, and gains or losses on sale not already excluded from Core AFFO, as appropriate, (5) relocation expense, (6) Transformation Costs, (7) write-off of pursuit costs and (8) adjustment to deferred taxes. These items can vary greatly from period to period, depending upon the volume of our acquisition activity and debt retirements, among other factors. We believe that by excluding these items, Core AFFO serves as a useful, supplementary performance measure of Elme Communities' ability to incur and service debt, and distribute dividends to its shareholders. Core AFFO is a non-GAAP and non-standardized measure, and may be calculated differently by other REITs.

Core Funds From Operations ("Core FFO") is calculated by adjusting NAREIT FFO for the following items (which we believe are not indicative of the performance of Elme Communities' operating portfolio and affect the comparative measurement of Elme Communities' operating performance over time): (1) gains or losses on extinguishment of debt and gains or losses on interest rate derivatives, (2) expenses related to acquisition and structuring activities, (3) executive transition costs, severance expenses and other expenses related to corporate restructuring and executive retirements or resignations, (4) property impairments, casualty gains and losses, and gains or losses on sale not already excluded from NAREIT FFO, as appropriate, (5) relocation expense, (6) Transformation Costs, (7) write-off of pursuit costs and (8) adjustment to deferred taxes. These items can vary greatly from period to period, depending upon the volume of our acquisition activity and debt retirements, among other factors. We believe that by excluding these items, Core FFO serves as a useful, supplementary measure of Elme Communities' ability to incur and service debt, and distribute dividends to its shareholders. Core FFO is a non-GAAP and non-standardized measure, and may be calculated differently by other REITs.

NAREIT Funds From Operations ("FFO") is defined by the 2018 National Association of Real Estate Investment Trusts, Inc. ("NAREIT") FFO White Paper Restatement, as net income (computed in accordance with generally accepted accounting principles ("GAAP") excluding gains (or losses) associated with sales of properties, impairments of depreciable real estate and real estate depreciation and amortization. We consider NAREIT FFO to be a standard supplemental measure for equity real estate investment trusts ("REITs") because it facilitates an understanding of the operating performance of our properties without giving effect to real estate depreciation and amortization, which historically assumes that the value of real estate assets diminishes predictably over time. Since real estate values have instead historically risen or fallen with market conditions, we believe that NAREIT FFO more accurately provides investors an indication of our ability to incur and service debt, make capital expenditures and fund other needs. Our NAREIT FFO may not be comparable to FFO reported by other REITs. These other REITs may not define the term in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently. NAREIT FFO is a non-GAAP measure.

Net Debt to Adjusted EBITDA represents net debt as of period end divided by adjusted EBITDA for the period, as annualized (i.e. three months periods are multiplied by four) or on a trailing 12 month basis. We define net debt as the total outstanding debt reported as per our consolidated balance sheets less cash and cash equivalents at the end of the period.

Net Operating Income ("NOI"), defined as real estate rental revenue less direct real estate operating expenses, is a non-GAAP measure. NOI is calculated as net income, less non-real estate revenue and the results of discontinued operations (including the gain or loss on sale, if any), plus interest expense, depreciation and amortization, lease origination expenses, general and administrative expenses, acquisition costs, real estate impairment, casualty gain and losses and gain or loss on extinguishment of debt. NOI does not include management expenses, which consist of corporate property management costs and property management fees paid to third parties. NOI is the primary performance measure we use to assess the results of our operations at the property level. We believe that NOI is a useful performance measure

because, when compared across periods, it reflects the impact on operations of trends in occupancy rates, rental rates and operating costs on an unleveraged basis, providing perspective not immediately apparent from net income. NOI excludes certain components from net income in order to provide results more closely related to a property's results of operations. For example, interest expense is not necessarily linked to the operating performance of a real estate asset. In addition, depreciation and amortization, because of historical cost accounting and useful life estimates, may distort operating performance at the property level. As a result of the foregoing, we provide NOI as a supplement to net income, calculated in accordance with GAAP. NOI does not represent net income or income from continuing operations calculated in accordance with GAAP. As such, NOI should not be considered an alternative to these measures as an indication of our operating performance.

Other Definitions

Average Effective Monthly Rent Per Home represents the average of effective rent (net of concessions) for in-place leases plus the market rent for vacant homes, divided by the total number of homes. We believe Average Effective Monthly Rent Per Home is a useful metric in evaluating the average pricing of our homes. It is a component of Residential Revenue, which is used to calculate our NOI. It does not represent actual rental revenue collected per unit.

Average Occupancy is based on average daily occupied apartment homes as a percentage of total apartment homes.

Current Strategy represents the class of each community in our portfolio based on a set of criteria. Our strategies consist of the following subcategories: Class A, Class A-, Class B Value-Add and Class B. A community's class is dependent on a variety of factors, including its vintage, site location, amenities and services, rent growth drivers and rent relative to the market.

- Class A communities are recently-developed, well-located, have competitive amenities and services and command average rental rates well above market median rents.
- Class A- communities have been developed within the past 20 years and feature operational improvements and unit upgrades and command rents at or above median market rents.
- Class B Value-Add communities are over 20 years old but feature operational improvements and strong potential
 for unit renovations. These communities command average rental rates below median market rents for units that
 have not been renovated.
- Class B communities are over 20 years old, feature operational improvements and command average rental rates below median market rents.

Debt Service Coverage Ratio is computed by dividing earnings attributable to the controlling interest before interest expense, taxes, depreciation, amortization, real estate impairment, gain on sale of real estate, gain/loss on extinguishment of debt, severance expense, relocation expense, acquisition and structuring expenses and gain/loss from non-disposal activities by interest expense (including interest expense from discontinued operations) and principal amortization.

Debt to Total Market Capitalization is total debt divided by the sum of total debt plus the market value of shares outstanding at the end of the period.

Earnings to Fixed Charges Ratio is computed by dividing earnings attributable to the controlling interest by fixed charges. For this purpose, earnings consist of income from continuing operations (or net income if there are no discontinued operations) plus fixed charges, less capitalized interest. Fixed charges consist of interest expense (excluding interest expense from discontinued operations), including amortized costs of debt issuance, plus interest costs capitalized.

Ending Occupancy is calculated as occupied homes as a percentage of total homes as of the last day of that period.

Lease Rate Growth is defined as the average percentage change in either gross (excluding the impact of concessions) or effective rent (net of concessions) for a new or renewed multifamily lease compared to the prior lease based on the move-in date. The "blended" rate represents the weighted average of new and renewal lease rate growth achieved.

Recurring Capital Improvements represent non-accretive building improvements required to maintain a property's income and value. Recurring capital improvements do not include acquisition capital that was taken into consideration when underwriting the purchase of a building or which are incurred to bring a building up to "operating standard". This category includes improvements made as needed upon vacancy of an apartment. Aside from improvements related to apartment turnover, these improvements include facade repairs, installation of new heating and air conditioning equipment, asphalt replacement, permanent landscaping, new lighting and new finishes.

Retention represents the percentage of multifamily leases renewed that were set to expire in the period presented.

Relocation expenses represent costs associated with the relocation of the corporate headquarters to a new location in the Washington metro region.

Same-store Portfolio includes properties that were owned for the entirety of the years being compared, and exclude properties under redevelopment or development and properties acquired, sold or classified as held for sale during the years being compared. We categorize our properties as "same-store" or "non-same-store" for purposes of evaluating

comparative operating performance. We define development properties as those for which we have planned or ongoing major construction activities on existing or acquired land pursuant to an authorized development plan. Development properties are categorized as same-store when they have reached stabilized occupancy (90%) before the start of the prior year. We define redevelopment properties as those for which we have planned or ongoing significant development and construction activities on existing or acquired buildings pursuant to an authorized plan, which has an impact on current operating results, occupancy and the ability to lease space with the intended result of a higher economic return on the property. We categorize a redevelopment property as same-store when redevelopment activities have been complete for the majority of each year being compared. We currently have two same-store portfolios: "Same-store multifamily" which is comprised of our same-store apartment communities and "Other same-store" which is comprised of our Watergate 600 commercial property.

Transformation Costs include costs related to the strategic shift away from the commercial sector to the residential sector, including the allocation of internal costs, consulting, advisory and termination benefits.

⁽¹⁾ Includes revenues and expenses from retail operations at multifamily properties.

Utility costs reimbursed by residents are included in real estate rental revenue on our consolidated statements of operations. Utility reimbursements totaled \$8.1 million and \$7.3 million for the twelve months ended December 31, 2023 and 2022 respectively, and \$1.9 million, \$1.9 million, \$2.2 million, \$2.1 million for the three months ended December 31, 2023, September 30, 2023, June 30, 2023, March 31, 2023 and December 31, 2022, respectively.

⁽³⁾ NOI is a non-GAAP measure. See "Definitions" on page 11 for the definition of NOI and reconciliation of Net loss to NOI on page 31.

⁽⁴⁾ Operating margin is calculated by dividing the same-store NOI (non-GAAP) by same-store rental and other property revenues.

Elme Communities entered into a \$125.0 million unsecured term loan ("2023 Term Loan") with an interest rate of SOFR (subject to a credit spread adjustment of 10 basis points) plus a margin of 95 basis points (subject to adjustment depending on Elme Communities' credit rating). The 2023 Term Loan has a two-year term ending in January 2025, with two one-year extension options. We used the proceeds to prepay the \$100.0 million 2018 Term Loan in full and a portion of our borrowings under our unsecured credit facility. (1)

Note: The current debt balances outstanding are shown net of discounts, premiums and unamortized debt costs (see page 28).

Elme Communities had an interest rate swap that had effectively fixed the interest rate on a \$100.0 million portion of its 2023 Term Loan outstanding through the interest rate swap arrangement's expiration date of July 21, 2023. In March 2023, we entered into two interest rate swap arrangements with an aggregate notional amount of \$125.0 million that effectively fixed the interest at 4.73% for the 2023 Term Loan beginning on July 21, 2023 through the 2023 Term Loan's maturity date of January 10, 2025.

Elme Communities previously entered into an interest rate swap to effectively fix a LIBOR plus 110 basis points floating interest rate to a 2.31% all-in fixed rate for the remaining \$100.0 million portion of the 2018 Term Loan. The interest rate was fixed through the term loan maturity of July 21, 2023. During the first quarter of 2023, we entered into the 2023 Term Loan with an interest rate of SOFR (subject to a credit spread adjustment of 10 basis points) plus a margin of 95 basis points. The 2023 Term Loan has a two-year term ending in January 2025, with two one-year extension options. We used the proceeds to prepay the \$100.0 million 2018 Term Loan in full and a portion of our borrowings under our unsecured credit facility. Subsequent to this transaction, the interest rate swap ffectively fixed a \$100.0 million portion of the 2023 Term Loan at 2.16% through the interest rate swap's expiration date of July 21, 2023. In March 2023, we entered into two interest rate swap arrangements with an aggregate notional amount of \$125.0 million that effectively fix the interest at 4.73% for the 2023 Term Loan beginning on July 21, 2023 through the 2023 Term Loan's maturity date of January 10, 2025.

⁽²⁾ The credit facility's term ends in August 2025, with two six-month extension options.

⁽¹⁾ Total Assets is calculated by applying a capitalization rate of 7.50% to the EBITDA⁽⁴⁾ from the last four consecutive quarters, excluding EBITDA from acquired, disposed, and non-stabilized development properties.

⁽²⁾ Total Unencumbered Assets is calculated by applying a capitalization rate of 7.50% to the EBITDA⁽⁴⁾ from unencumbered properties from the last four consecutive quarters, excluding EBITDA from acquired, disposed, and non-stabilized development properties.

Consolidated Total Asset Value is the sum of unrestricted cash plus the quotient of applying a capitalization rate to the annualized NOI from the most recently ended quarter for each asset class, excluding NOI from disposed properties, acquisitions during the past 6 quarters, development, major redevelopment and low occupancy properties. To this amount, we add the purchase price of acquisitions during the past 6 quarters plus values for development, major redevelopment and low occupancy properties.

⁽⁴⁾ Consolidated Adjusted EBITDA is defined as earnings before noncontrolling interests, depreciation, amortization, interest expense, income tax expense, acquisition costs, extraordinary, unusual or nonrecurring transactions including sale of assets, impairment, gains and losses on extinguishment of debt and other non-cash charges.

⁽⁵⁾ Consolidated Fixed Charges consist of interest expense excluding capitalized interest and amortization of deferred financing costs, principal payments and preferred dividends, if any.

⁽⁶⁾ Unencumbered Pool Value is the sum of unrestricted cash plus the quotient of applying a capitalization rate to the annualized NOI from unencumbered properties from the most recently ended quarter for each asset class excluding NOI from disposed properties, acquisitions during the past 6 quarters, development, major redevelopment and low occupancy properties. To this we add the purchase price of unencumbered acquisitions during the past 6 quarters and values for unencumbered development, major redevelopment and low occupancy properties.

⁽¹⁾ The ratio of earnings to fixed charges is computed by dividing earnings by fixed charges. For this purpose, earnings consist of income from continuing operations attributable to the controlling interests plus fixed charges, less capitalized interest. Fixed charges consist of interest expense, including amortized costs of debt issuance, plus interest costs capitalized. The earnings to fixed charges ratio includes real estate impairment of \$41.9 million for the three months ended September 30, 2023.

⁽²⁾ Debt service coverage ratio is calculated by dividing Adjusted EBITDA by interest expense and principal amortization. Adjusted EBITDA is a non-GAAP measure. See "Definitions" on page 11 for the definition of Adjusted EBITDA.

⁽³⁾ Payout Ratio (Core FFO basis) is calculated by dividing the common dividend per share by the Core FFO per share. Core FFO is a non-GAAP measure. See "Definitions" on page 11 for the definition of Core FFO.

⁽⁴⁾ Payout Ratio (Core AFFO basis) is calculated by dividing the common dividend per share by the Core AFFO per share. Core AFFO is a non-GAAP measure. See "Definitions" on page 11 for the definition of Core AFFO.
